Facility AUDIT FINDINGS**Summary of Audit Findings**

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:

2	<ul style="list-style-type: none">• 115.11 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator• 115.86 - Sexual abuse incident reviews

37. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
38. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	No text provided.
Targeted Inmate/Resident/Detainee Interviews	
39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	20
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
40. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	1
41. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:	1

42. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:	1
43. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:	2
44. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:	1
45. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:	6
46. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:	3
47. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:	0

<p>47. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>47. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>As an auditor, my strategies for verifying the existence of specific populations within the audited facility include several methods: Information from the PREA Audit Questionnaire, onsite documentation review, interviews and discussions and observations.</p>

<p>54. Provide any additional comments regarding selecting or interviewing random staff (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):</p>	<p>No text provided.</p>

Specialized Staff, Volunteers, and Contractor Interviews

Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.

55. Enter the total number of staff in a SPECIALIZED STAFF role who were interviewed (excluding volunteers and contractors):	13
56. Were you able to interview the Agency Head?	<input type="radio"/> Yes <input checked="" type="radio"/> No
56. Explain why it was not possible to interview the Agency Head:	Interviewed Agency Head Designee.
57. Were you able to interview the Warden/Facility Director/Superintendent or their designee?	<input checked="" type="radio"/> Yes <input type="radio"/> No
58. Were you able to interview the PREA Coordinator?	<input checked="" type="radio"/> Yes <input type="radio"/> No
59. Were you able to interview the PREA Compliance Manager?	<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NA (NA if the agency is a single facility agency or is otherwise not required to have a PREA Compliance Manager per the Standards)

60. Select which SPECIALIZED STAFF roles were interviewed as part of this audit from the list below: (select all that apply)

- Agency contract administrator
- Intermediate or higher-level facility staff responsible for conducting and documenting unannounced rounds to identify and deter staff sexual abuse and sexual harassment
- Line staff who supervise youthful inmates (if applicable)
- Education and program staff who work with youthful inmates (if applicable)
- Medical staff
- Mental health staff
- Non-medical staff involved in cross-gender strip or visual searches
- Administrative (human resources) staff
- Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) staff
- Investigative staff responsible for conducting administrative investigations
- Investigative staff responsible for conducting criminal investigations
- Staff who perform screening for risk of victimization and abusiveness
- Staff who supervise inmates in segregated housing/residents in isolation
- Staff on the sexual abuse incident review team
- Designated staff member charged with monitoring retaliation
- First responders, both security and non-security staff
- Intake staff

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

64. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
Was the site review an active, inquiring process that included the following:	
65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
67. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
68. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No

<p>69. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>No text provided.</p>
--	--------------------------

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p>70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

<p>71. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>No text provided.</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

72. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	10	3	7	7
Staff-on-inmate sexual abuse	9	4	5	5
Total	19	7	12	12

73. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	11	0	11	0
Staff-on-inmate sexual harassment	3	0	3	0
Total	14	0	14	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

74. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	2	0	0	0	0
Staff-on-inmate sexual abuse	0	2	0	0	0
Total	2	0	0	0	0

75. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual abuse	0	5	2	0
Staff-on-inmate sexual abuse	1	5	2	3
Total	1	7	4	3

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

76. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	0	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
Total	0	0	0	0	0

77. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

Compliance Determination by Provisions and Corrective Action:

115.11 (a)

The provision requires, the agency to have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency's approach to preventing, detecting, and responding to such conduct.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.1: SCDC Policy GA 06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment), establishes SCDC's zero tolerance for any form of sexual abuse and/or sexual harassment in all institutions operated by or operated under contract with SCDC.

The agency/facility mandates a zero-tolerance policy toward all forms of sexual abuse and sexual harassment. It outlines the facility's approach to preventing, detecting, and responding to such conduct. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment and includes sanctions for those found to have participated in prohibited behaviors.

PREA standard 115.6, Definitions related to sexual abuse and sexual harassment, give guidance to the agency and facility on defining sexual abuse and harassment. GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment; a list of definitions that includes the guidance from the PREA standard on pages 8 - 9. The facility staffing plan also includes the definitions of sexual abuse and sexual harassment.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.11 (b)

The provision requires the agency to employ or designate an upper-level, agency-wide Acting PREA Coordinator with sufficient time and authority to develop, implement, and oversee the agency's efforts to comply with the PREA standards in all its facilities.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency employed an upper-level agency, Acting PREA coordinator.

Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive

Planning Section 1.2: The Agency's PREA Coordinator has full authority for development, implementation, and oversight of the Agency's efforts to comply with the Federal PREA standards in all SCDC institutions and institutions operated under contract with SCDC.

Interviewed agency Acting PREA Coordinator reported that she has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all its facilities. The Acting PREA Coordinator oversees twenty-two (22) facilities. The Acting PREA Coordinator reports directly to the Deputy Director of Legal and Compliance as confirmed by the agency organization chart.

Interviewed agency Acting PREA Coordinator also reported when she identified an issue the actions taken to work toward compliance is understanding the problem, working with the facility Warden and facility PREA Compliance Manager. It may require additional training, policy changes or a different process of doing things.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.11 (c)

The provision requires, where an agency operates more than one facility, each facility designates a PREA Compliance Manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency operates 22 facilities, and each facility has a PREA compliance manager that reports to the Warden.

Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.3: For each institution SCDC operates and contracts with, an institutional PREA Compliance Manager shall be designated and will have the authority to oversee the institution's day to day PREA compliance efforts and will serve as the institution's liaison on all matters concerning PREA within that institution.

A review of the State of South Carolina Position Description section 1.0 states that under limited supervision, the incumbent serves as the Associate Warden to the Institutional Warden and section 2.9 states that "serves as PREA Compliance Manager". This job's function is listed as essential.

A review of the facility organizational chart confirmed that the facility has a designated PREA compliance manager with sufficient time and authority to coordinate facility efforts to comply with PREA standards.

	<p>The interviewed PREA Compliance Manager reported that the position reports directly to the warden and the position is Associate Warden. During the interview it was clear that the Warden fully supports the PREA Compliance Manager facility.</p> <p>Corrective Actions: N/A. Compliance Determination by Provisions and Corrective Actions:

115.12 (a)

The provision requires a public agency that contracts for the confinement of its confined people to private agencies or other entities, including other government agencies, to include in any new contract or contract renewal the entity's obligation to adopt and comply with the PREA standards.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11B, applying the Prison Rape Elimination Act (PREA) Section 1.4 Each institution SCDC contracts with for the confinement of persons adjudicated to the South Carolina Department of Corrections, SCDC will monitor contracted agencies to ensure compliance with the National PREA Prison and Jail Standards on a yearly basis.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard. Effective August 2024 the SCDC will no longer contract with Core Civic to house its confined persons.

115.12 (b)

The provision requires any new contract or contract renewal to provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency monitors its contracts to ensure compliance with the PREA standards.

Interviewed Deputy Director of Legal and Compliance/ Agency Contract Administrator reported that the Agency Acting PREA Coordinator monitors new and renewed contracts for confinement to ensure that the contractor complies with required PREA practices. The South Carolina Department of Corrections monitors contracts for confinement through the Agency's Acting PREA Coordinator and the Office of Legal and Compliance. The Assistant PREA Coordinator visits the contracted facilities and communicates with the institution via emails and phone calls. Compliance Determination by Provision and Corrective Actions:

115.13 (a)

The provision requires the agency to ensure that each facility operates to develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and where applicable, video monitoring, to protect confined people against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration: Generally accepted detention and correctional practices. Any judicial findings of inadequacy. Any finding of inadequacy from Federal investigative agencies. Any findings of inadequacy from internal or external oversight bodies. Any findings of inadequacy from internal or external oversight bodies. All components of the facility's physical plant (including "blind spots" or areas where staff or confined persons may be isolated). The composition of the confined person's population. The number and placement of supervisory staff. Institution programs occurring on a particular staff. Any applicable State, or local laws, regulations, or standards. The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and any other relevant factors.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency provides each facility with guidance on their staffing plan.

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.5: Each SCDC institution is required to develop and comply with a written and documented staffing plan. The staffing plan will be reviewed at least yearly in cooperation between the Warden and the Agency's PREA Coordinator in accordance with the National PREA Prison and Jail Standards.

Based on a review of information about the facility provided in the PAQ, since August 20, 2012, or last PREA audit, whichever is later, the average daily number of confined persons the staffing plan was predicated on was 1234.

The auditor reviewed the staffing plan which includes Organizational Chart, Facility Demographics, Facility Breakdown, Cameras, Physical Plant, Staffing Pattern, Post Assignment, Post Chart and Minimum Staffing, and the PREA policy information.

The interviewed Warden reported that the facility has a staffing plan, and the plan is based on adequate staffing levels to protect confined people against sexual abuse. Video monitoring is a part of the plan, and every housing unit has cameras which monitor common areas. The staffing plan is documented and is provided and maintained by the PREA Compliance Manager and updated annually. Anytime it is updated it is sent to the wardens. Also, when assessing adequate staffing levels and the need for video monitoring, the institutions are given the staffing plans from the Division of Operations. The facility does not decrease the staffing level based on video cameras. They are an addition to the staff. A post chart of mandatory posts is reviewed yearly by Operations and provided as a part of the staffing plan. Warden also reported he and the team consider the requirements in the provision which is in the general staffing template in the agency's policy.

The interviewed PREA Compliance Manager assesses adequate staffing levels and the need for video monitoring, explains how the facility staffing plan considers standard requirements. The staffing plan considers all the components of the facility's physical plant to include blind spots, the composition of the confined person's population, the prevalence of substantiated and unsubstantiated incidents of sexual abuse and any other relevant factors.

Site Review:

During the site review, the auditor observes the following:

- The number of staff in the housing units. Informal conversations with the officers in each unit reported the number of confined persons in each housing unit and the number of staff assigned to that shift not including the rover or supervisor.
 - o These housing units did not have an isolated area like administrative/disciplinary segregation and protective custody.
 - o There was no programming, work, or education provided in these units.
 - o The auditor reviews the areas where sexual abuse is known to be more likely to occur according to the staffing plan.
- During the housing site review, the auditor observes the staff line of sight and

assesses whether there are blind spots. The auditor counted cameras in each unit and where they are located. There were cameras in all units. In addition, the units have mirrors in the corners to eliminate blind spots. The auditor determines that movement in and out of the units is not monitored by surveillance, but by staff.

- The auditor observes indirect supervision and frequency of cell checks in housing units where the confined persons are double-celled and open bay. The frequency was confirmed by reviewing the unit logbook and informal conversation with the officer.
- When the auditor visits the main control room and reviews the monitors for the housing units. Informal conversation with the control room officer reported that the control room is staff 24/7 and indirect supervision is a part of the shift change.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.13 (b)

The provision requires in circumstances where the staffing plan is not complied with, the facility to document and justify all deviations from the plan.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency requires each facility to document and justify all deviations from the plan.

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.5.1: Each institution will document all instances of non-compliance with the staffing plan, which will include written corrective actions plans. The Warden must document when the approved staffing plan is deviated from with a written justification for the deviation on SCDC Form 19-212, Deviation from Staffing Plan. All documentation of non-compliance will be provided to the institution's PREA Compliance Manager for filing purposes.

The Warden reported that the facility document instances of non-compliance with the staffing plan and the documentation included explanations for non-compliance. The deviation is documented on SCDC Policy form 19-212.

The auditor reviewed SCDC Form 19-212 Deviation from Staffing Plan reasons and justifications. The form indicated, due to the limited security staff on each shift, the shift is working at a critical level, the shift will cover all critical posts for the daily operation of the facility and will fill in with C-card security staff where needed to run the institution at normal operation. To review deviation from the staffing plan per shift, please review the shift strength report and the Shift Duty Roster. The strength report will show the authorized strength, the security staff assigned, and the actual number assigned. The Shift Duty Roster will show the staff post assignment. All shift

supervisors will make every effort to fill all critical posts by utilizing available resources, such as our c-card security and any mandatory shift security that is required to work. C-card security staff are also utilized on the weekend mandatory assignment to aid in the helping the shift with limited staff to run the overall operation of the institution where needed.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.13 (c)

The provision requires whenever necessary, but no less frequently that once each year, for each facility the agency operates, in consultation with the PREA Coordinator required by Standard 115.13, the agency shall assess, determine, and document whether adjustments are needed to: The staffing plan was established pursuant to paragraph (a) of this section. The facility's deployment of video monitoring systems and other monitoring technologies and the resources the facility has available to ensure adherence to the staffing plan.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency Acting PREA Coordinator along with facility warden and PREA Compliance Manager (PCM) assesses, determines, and documents whether adjustment is needed to the staffing plan.

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) Section 1.5 Each SCDC institution is required to develop and comply with a written and documented staffing plan. The staffing plan will be reviewed as least yearly in cooperation between the Warden and the Agency's PREA Coordinator in accordance with the National PREA Prison and Jail Standards.

The interviewee agency Acting PREA Coordinator reported that she consulted staff regarding any assessments of, or adjustments to, the staffing plan for this facility. These assessments occur yearly (annually). The facility has quarterly PREA meetings and, at one of these meetings, the facility team reviews the staffing plan. Once agreed upon and signed off by the Warden, the staffing plan is sent to the Regional PREA Compliance Manager (RPM) Acting PREA Coordinator (PC) for review. Once reviewed by the (RPM) and the PC, the staffing plan is then discussed in coordination with the PCM, RPM, and the PC, then signed by the PC if the staffing plan meets the requirements of the PREA standards.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.13 (d)

The provision requires each agency operating a facility to implement a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice shall be implemented for night shifts as well as day shifts. Each agency has a policy to prohibit staff from alerting other staff members that these supervisory rounds are occurring unless such an announcement is related to the legitimate operational functions of the facility.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency requires its facility to implement a policy and practice of having intermediate-level or higher-level supervisors conducting and documenting unannounced rounds.

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.6: In accordance with SCDC Policy OP-22.48, Institutional Weekly Rounds, intermediate and higher-level supervisors will conduct and document all unannounced rounds/security checks. Unannounced rounds/security checks will be conducted at least weekly, on all shifts, and are prohibited from being announced or alerted to unless it is due to a legitimate operational function of the institution.

SCDC Policy GA-06.11 section 1.2.2.4 states, all Warden, Associate Wardens, and senior institutional supervisory officers are required to conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment of inmates and documenting such unannounced rounds utilizing SCDC Form 19-164.A, "General Population Housing Unit Unannounced Rounds Log".

The auditor reviewed documentation Duty Warden's Checklist and the SCDC Form, 19-164 "Restrictive Housing Unit (RHU) - Visitation Log or the OATS Electronic System spread sheet for the unannounced rounds. The Duty Warden's Checklist information includes Date, Site/Event/Inspection, Unannounced Facility Round - List each unit/area visited in notes/significant event section. Submitted By and Date Submitted. Reviewing date indicated that all shifts are covered.

Higher-level staff who conducted unannounced rounds reported that they conduct unannounced rounds. The duty officer conducts rounds, and the supervisors conduct PREA rounds. The unannounced rounds are documented on Unannounced Round Logs SCDC Form 19-164A "General Population Housing Unannounced Rounds Logs", and SCDC Form 19-173, Duty Warden's Checklist and sometimes in the housing logbooks. Staff are prevented from alerting other staff because they do not tell or call staff ahead of time.

in which the youthful, confined persons will have sight, sound, or physical contact with any adult confined person through use of a shared dayroom or other common space, shower area, or sleeping quarters.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.7: As per SCDC Policy OP-22.39, Young Offender Parole and Reentry Services (YOPRS), youthful offenders will not be placed in a housing unit in which the youthful offender will have sight, sound, or physical contact with any adult confined person through the shared dayroom or other common space, shower area, or sleeping quarters. In areas outside of housing units, institutions will ensure direct staff supervision between youthful offenders and adult offenders (18 years of age or older) offenders.

Based on a review of information about the facility provided in the PAQ, in the past months, the number of housing units to which youthful inmates are assigned that provide sight and sound separation between youthful and adult offenders in dayrooms, common areas, showers, and sleeping quarters was zero. In the past 12 months, the number of youthful inmates placed in the SAME HOUSING UNIT as adults at this facility was zero. In the past 12 months, the number of youthful inmates who have been placed in isolation in order to separate them from adult inmates was zero.

Informal conversation with the PREA Compliance Manager confirmed that the facility does not house youthful, confined people under the age of 18. If the facility received a temporary youthful person, they will not be placed in a housing unit in which the youthful, confined persons will have sight, sound, or physical contact with any adult confined people through use of a shared dayroom or other common space, shower area, or sleeping quarters.

Site Review:

During the site review, the auditor had informal conversations with staff and confined people were asked if there was a youthful person arriving at this facility under the age of 18. All responses were none that they knew of. The auditor also asked staff if a youthful person arrived at the facility, where would that youthful person be housed temporarily? Staff reported they would remain in the intake area/cell and immediately transfer to the right facility. The cell would allow for limited sight and sound separation from any confined adults. Informal conversation with the officer confirmed that the facility does not house youthful people.

The auditor did not observe any youthful, confined people during the audit period. This also was confirmed by review of the daily population report.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and

informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.14 (b)

The provision requires in areas outside the housing units, agencies maintain sight and sound separation between youthful, confined person and adult confined person have sight, sound, or physical contact.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Review of confined persons rosters, and informal conversation with the education staff confirmed that the facility does not house any confined persons under the age of 18 years old (youthful, confined persons). If the facility houses youthful, confined people, when they are in areas outside of the housing units the facility will maintain sight and sound separation and provide direct staff supervision when there is sight, sound, or physical contact.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.14 (c)

The provision requires the agency to make their best efforts to avoid placing youthful, confined people in isolation to comply with this provision. Absent exigent circumstances, agencies to not deny youthful, confined people daily large-muscle exercise and any legal required special education services to comply with this provision. Youthful, confined persons shall also have access to other programs and work opportunities to the extent possible.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Documentation review and informal conversations with staff confirmed that the facility does not house any confined people under the age of 18 years old (youthful, confined people). If the facility houses youthful, confined people, they will not be placed in isolation to comply with the provision. Youthful, confined people would have access to programs, work opportunities, daily large-muscle exercise, and special education.

Compliance Determination by Provisions and Corrective Actions:

115.15 (a)

The provision requires that the facility not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.8: Pursuant to SCDC OP-22.19, Search of Inmates, SCDC does not conduct cross-gender strip searches or cross-gender visual body cavity searches, except in limited and documented exigent circumstances. All cross-gender searches will be documented on SCDC Form 19-29A.

SCDC Policy HS-18.13 Health Screening and Exams section 5 – Body Cavity Searches: An inmate body cavity search will be conducted by agency medical trained personnel when authorized in writing using SCDC Form 19-29A, Incident Report, by the Warden or designee.

Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of cross-gender strip or cross gender visual body cavity searches of confined persons was zero.

Site Review:

During the site review, the auditor observed areas that may be used to conduct strip searches and visual body cavity searches. Those areas are the visitation shake down room, intake arrival shake down room and medical shake down room. No strip searches or visual body cavity searches are conducted by opposite-gender. The areas that the searches are conducted are privacy. Pat down searches are conducted by opposite-genders.

Informal conversations with staff in those areas reported that they do not remember staff conducting visual body cavity searches regarding exigent circumstances.

Non-medical staff reported that they have never been involved in cross-gender strip or visual search and there have not been any urgent circumstances that would require them to conduct cross-gender strip or visual body searches.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and

informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.15 (b)

The provision requires as of August 20, 2015, or August 20, 2017, for a facility whose rated capacity does not exceed 50 confined persons, the facility shall not permit cross-gender pat-down searches of female confined persons, absent exigent circumstances. Facilities shall not restrict female confined persons access to regularly available programming or other out-of-cell opportunities to comply with this provision.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Based on a review of information the facility provided in the PAQ, the number of pat-down searches of female confined persons that were conducted by male staff was zero. The number of pat-down searches of female confined persons conducted by male staff that did not involve exigent circumstances (s) was zero.

Documentation review of the rosters and informal conversation with staff confirmed that the facility rated capacity does exceed 50 confined people.

This facility does not house female confined persons.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.15 (c)

The provision requires that the facility document all cross-gender strip searches and cross-gender visual body cavity searches and to document all cross-gender pat-down searches of female confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: OP 22.19 Searches of Inmates section 4.3 - Strip searches will be performed by employees of the same sex as the person being searched, except in extreme emergencies approved by the major (or captain at those institutions without a major) or other higher authority, or when medical practitioners perform the search. Facilities shall document all cross-gender strip searches.

Informal conversations with security staff reported that the facility does not housed females confined persons. But they understand the protocol if they search female confined person, it would be approved by a superior and it will be documented.

The facility documents all cross-gender strip searches and cross-gender visual body

cavity searches. Cross-gender visual body cavity searches are conducted by medical and documented.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.15 (d)

The provision requires that the facility implement policies and procedures that enable confined persons to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures require staff of the opposite gender to announce their presence when entering a confined person's housing unit.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.9: All SCDC institutions will develop and comply with a written and documented standard operating procedure which allows inmates to shower, perform bodily functions, and change clothing without being completely viewed by other inmates, non-medical staff, or staff of the opposite gender, except in limited and exigent circumstances, or in the line of one's official duties.

SCDC Policy GA-06.09 Care and Custody of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria, Section 3. Housing of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria 3.1 states, in deciding whether to house transgender inmates and inmates with gender dysphoria in a facility for male or females, and in making other housing decisions (bathroom and shower access) and programming assignments, the Multidisciplinary Management and Treatment Team will consult with the Division of Operations as well as central classifications to create a plan with a reasonable outcome for the confined person and institution as a whole. Safety concerns will be considered.

Site Review:

During the site review, the auditor observes areas where confined people may be in a state of undress. The areas were where they shower, use the toilet, and change their clothes. The cells have individual toilets, the showers are in a community setting. Informal conversations with confined people confirmed that they change clothing in their cells or the showers.

The auditor also observed the medical area, intake cells, shower areas, transport holding, and recreation areas.

During the housing unit site review, the auditor observed spaces from multiple perspectives and vantage points while walking up the stairs in the unit. The auditor did not see vantage points where the opposite gender could view confined person changing clothes or in a state of undress.

The auditor visited the main control room and reviewed the monitors for the housing units. Informal conversation with the control room officer reported that the control room is staff 24/7 and indirect supervision is a part of the shift change. The control room officer indicates that the video monitoring technology allows for point zoom. The auditor asks the control room officer to zoom in on a dorm common area and zoom in on the shower. Technology would not let the officer zoom in on the common shower areas, and it cannot zoom inside of the confined person's rooms.

The auditor observed that staff of the opposite gender announced themselves when entering the housing units.

The auditor viewed the placement and angle of electronic surveillance monitoring in the main control room. The cameras do not show confined people naked, using showers or toilets on camera monitors. The auditor requested that the control room operator zoom in on randomly selected living units focusing on the showers and toilets. The camera monitors do not zoom in in showers and toilets.

The auditor observed the physical storage area for any information/documentation collected and maintained as hard copy. The hard copies of the PREA Screening and other confined persons documentation are kept in the confined persons' files and maintained in lock file cabinet and rooms in the intake/classification area. There were no confidential confined persons information located in places where other confined persons or staff can review.

There were lock boxes located where the confined people could submit grievance and/or PREA issues as well as mail in front of the Dining Hall.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic. Twelve interviewed confined persons could recall female staff announce their presence when entering their housing area by saying male on unit or female on deck. Eight confined people report that they sometimes here, when probe they their comments were "I may been in the shower, or I up on the second tier and cannot her them. All confined persons reported that they are never naked in full view of female staff while showering, dressing, or while using the restroom. This information was reported to the PREA compliance Manager. During the tour the auditor observed female staff announce their presence when entering the housing units.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. All staff interviewed reported that they and other officers announce their presence when entering a housing unit that houses confined persons of the opposite gender. They all reported that confined people can dress, shower, and

use the toilet without being viewed by staff of the opposite gender.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.15 (e)

The provision requires that the facility does not search or physically exam a transgender or intersex confined persons for the sole purpose of determining the confined persons' genital status. If the confined person's genital status is unknown, it may be determined during conversations with the confined persons, by reviewing medical records, or if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1.11 At no time will any SCDC institution search or physically examine a transgender or intersex inmates for the purpose of determining the confined person's genital status.

SCDC Policy GA-06.09 Care and Custody of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria - indicated that Transgender Inmates and Inmates with gender dysphoria will be allowed to indicate in writing which gender they feel most comfortable being searched by to include frisk (pat) searches and strip searches. This preference will be recorded in the confined person individualized accommodation plan and classification screen as well as intake documentation if the preference is expressed at that time. Absent exigent circumstances, this preference will be accommodated when possible, considering employee, security, and safety concerns and consistent of the Prison Rape Elimination Act.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. All interviewed staff reported that they are aware of the policy prohibiting staff from searching or physically examining a transgender or intersex confined persons for the purpose of determining their genital status, some staff said that medical conducts the examination.

Three Transgender were informal interviewed by the auditor's non-certified support staff. None of the Transgenders indicated that they have been search or physically examined by a non-medical staff.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and

informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.15 (f)

The provision requires that the agency train security staff in how to conduct cross-gender pat down searches, and searches of transgender and intersex confined persons, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.12: The Division of Training and Staff Development will ensure all security staff are trained in how to conduct cross-gender pat-down/frisk searches, searches of transgender and intersex inmates in a respectful manner, and consistent with security needs.

A review of PREA training Power Point and staff training roster confirmed that facility security staff are trained in how to conduct cross-gender pat-down searches, and searches of transgender and intersex confined persons in a professional and respectful manner. If warranted the facility will make a case-by-case determination of the most appropriate staff member to conduct the search, which is necessary and take into consideration the gender expression of the confined persons.

The following are the auditor's review notes for SCDC PREA Training Video Module:

- Slide #24 Types of Searches. 1. Frisk, Strip and Body Cavity. Transgender and intersex confined persons shall not be searched or physically examined for the sole purpose of determining the confined person genital status, and they shall not be subject to more invasive searches than similarly situated confined persons who are not transgender or intersex.
- Slide #25 - Cross-gender frisk searches of female confined persons are prohibited, except in exigent circumstances.
- Slide #26 - Transgender confined persons and confined persons with gender dysphoria will be allowed to indicate in writing which gender they feel most comfortable being searched by that include frisk (pat) searches and strip searches.
- Slide #34 - Transgender confined person Searches. No Difference! If a transgender confined person identifies as male, the confined person will be searched the same way a male confined person is searched; if a transgender confined person identifies as female, the confined person will be searched the same way a female confined person is searched.
- Slide #34 - No Excuse! You cannot refuse to strip search a transgender. Being uncomfortable is not an exigent circumstance.
- Slide #34 - No Partial Searches! You cannot only partially strip search a transgender confined person. Transgender confined persons must be fully searched the same ways as a male or female confined persons.

	<p>Twelve random staff were interviewed by the auditor’s non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. Compliance Determination by Provisions and Correction:

115.16 (a)

The provision requires that the agency take appropriate steps to ensure that confined persons with disabilities (including, for example, confined persons who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's effort to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary, ensuring effective communication with confined people who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.13: Consistent with SCDC Policy OP-21.04, Inmates Classification Plan, SCDC will make available an Americans with Disabilities Act (ADA) Coordinator who shall take appropriate steps to ensure inmates with disabilities and those who are limited English proficient, have an equal opportunity to participate in or benefit from all aspects of the agency's PREA efforts.

SCDC Policy: GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment states, during each inmate orientation and training session, inmates' education materials will be provided in formats which are accessible to all inmates. This includes providing documentation and materials to inmates who are limited English, proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills.

SCDC Policy: GA OP-21.04 Inmates Classification Plan section 4.15 Initial Orientation: Each inmate arriving at R&E will receive written orientation materials. Inmates that do not speak English shall be helped/translations in their own language. Inmates with hearing impairments will be provided with sign language services and visually impaired inmates will receive verbal orientation. During the initial orientation, a brief overview of the entire reception process will be delivered.

After review of PREA documentation, PREA videos and informal conversations with staff and confined persons, the auditor confirmed that the agency takes appropriate steps to ensure that the confined persons with disabilities have an equal opportunity to participate in and benefit from all aspects of the agency's effort to prevent, detect, and respond to sexual abuse and sexual harassment. The agency provided the following evidence:

- Deaf or hard of hearing: PREA video Adult Intake English (Sign Language and Captioned)
- Blind or have low vision - Facility can access the agency Braille Program (Good Quality of Sound of Videos)
- Speech Disabilities (LEP) - PREA video Adult Intake Spanish (Captioned) and Language Line Interpretative Services
- PREA Posters and Brochure - Written on the 4th - 5th Grade Level

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported that the South Department of Corrections has established procedures to provide confined persons with disabilities and for limited English proficiency equal opportunity to participate in PREA efforts. The agency provides confined persons with limited English, PREA education through an orientation video, brochures and PREA posters and signage in Spanish and English languages. The agency also has a sign language interpreter and braille available for confined people with disabilities that can be requested from the agency headquarters.

One confined person was interviewed by the non-certified support staff, who was

limited English Proficient. The confined person was asked, does the facility provide information about sexual abuse and sexual harassment that you are able to understand? The confined person said no he could not understand the non-certified support staff. The support staff interviewed the confined person using the approved SCDC translator line on January 9, 2025, at 11:40am. Attempts to finish the interview failed due to possible cognitive issues. The support staff was advised at the holding cell that the offender does more word association even with those that speak Spanish. This offender acknowledges to the support staff if he had a PREA issue he could contact staff.

The auditor requested a response from the facility regarding the limited English proficient confined person with cognitive issues. The facility contacted the Educational Regional Principal for assistance. The principal indicated that he would speak with the superintendent to discuss locating educational staff to meet the needs of the confined person. He also mentioned that he would be hiring new teaching staff soon and, if no suitable candidates are available in the district currently, he will look to hire appropriate staff to meet the educational needs of the confined person.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.16 (b)

The provision requires that the agency to take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to confined persons who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The auditor reviewed the PREA Video Adult Intake Spanish (Captioned) that is available if needed to ensure that limited English proficient confined persons received the required PREA information.

PREA Spanish posters are in the housing units so that confined persons who were LEP and Spanish speaking would have information available in their own language. The agency provided a copy for the "language line" contract that provides translation services when needed.

During the facility site review, the auditor observed the PREA information on the Kiosk system that SCDC has put in place in all facilities. The Kiosk and tablet system makes confined people view PREA information before they can continue to complete other tasks in the system. This is a one-time function. This ensures that all confined people

receive PREA information and use as confined person PREA refresher.

The agency provided each facility with PREA Brochure in English and Spanish. These brochures were developed with the assistance of Just Detention International. This project was supported by Grant No. 2013-RP-BX-0001 awarded by the Bureau of Justice Assistance. The Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. The Brochure Title, Let's Talk About Safety – SCDC has Zero-Tolerance for Sexual Abuse and Harassment. Topics included, Safety Talk, a Week Later; Staff, Contractors, Volunteers, and confined persons cannot...; How Can I Get Help? Support and Additional Information; You Have the Right to...; Things to Remember.

One confined person was interviewed by the non-certified support staff, who was limited English Proficient. The confined person was asked, does the facility provide information about sexual abuse and sexual harassment that you are able to understand? The confined person said no he could not understand the non-certified support staff. The support staff interviewed the confined person using the approved SCDC translator line on January 9, 2025, at 11:40am. Attempts to finish the interview failed due to possible cognitive issues. The support staff was advised at the holding cell that the offender does more word association even with those that speak Spanish. This offender acknowledges to the support staff if he had a PREA issue he could contact staff.

The auditor requested a response from the facility regarding the limited English proficient confined person with cognitive issues. The facility contacted the Educational Regional Principal for assistance. The principal indicated that he would speak with the superintendent to discuss locating educational staff to meet the needs of the confined person. He also mentioned that he would be hiring new teaching staff soon and, if no suitable candidates are available in the district currently, he will look to hire appropriate staff to meet the educational needs of the confined person.

Four confined people were interviewed who had Cognitive and/or Physical disabilities by the auditor's non-certified support staff. Does the facility provide information about sexual abuse and sexual harassment that you are able to understand? Two physical disable – wheelchairs indicated yes; they have not been affected the information is not too high. The confined person demonstrated that he could stand if he cannot see something. The second said yes, he could read it but would not talk to the police. One hard of hearing indicated yes. One said "I have no problem understanding.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.16 (c)

The provision requires that the agency not rely on confined person interpreters, confined persons readers, or other types of confined persons assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the confined persons' safety, the performance of first-response duties under standard, or the investigation of the confined persons' allegations.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.14: SCDC will not rely on inmates' interpreters, inmates' readers, or any other type of inmate's assistance in obtaining information regarding investigations that may compromise the safety of the inmates.

Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of instances where confined persons interpreters, readers, or other types of confined persons assistants have been used and it was not the case that an extended delay in obtaining another interpreter could compromise the confined persons safety, the performance of first response duties under 115.64, or the investigation of the confined persons allegations was zero.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. All interviewed staff reported that the facility never allows the use of another confined person to interpreters, service as a PREA reader or any assistants to assist confined person with disabilities who are limited English proficient when making an allegation of sexual abuse or sexual harassment. Some staff reported they would use another staff, get help from the agency language line or other agency resources.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility is compliant with all provisions in this standard.

Compliance Determination by Provisions and Corrective Actions:

115.17 (a)

The provision requires that the agency not hire or promote anyone who may have contact with confined persons, and shall not enlist the services of any contractor who may have contact with confined persons, who: Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C 1997); Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph a-2 of this standard.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11B Applying the Prison Rape Elimination Act (PREA): Dated November 23, 2021, Section 1.15 Consistent with SCDC Policy ADM-11.28 “Applicant Selection Process, “SCDC will conduct criminal background records checks before hiring employees and will not hire or promote anyone who have engaged in sexual abuse of any kind.

SCDC Policy Number ADM 11.28 Applicant Selection Process section 9.13 Applicant Criminal History: Applicant must report all arrests, court-ordered restraining orders,

(regarding a family member or a co-habitant) and/or conviction/dispositions on their original application. Successful applicants will be checked through the National Criminal Information Center (NCIC) before an official offer of employment is extended. Any applicant with a felony conviction (s), drug related conviction (s) within ten (10) years will not be hired by the Agency for any position. Any applicant that has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion or if the victim did not consent or was unable to consent or fuse or has been civilly or administratively adjudicated (found liable) to have engaged in or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, coercion or if the victim did not consent or was unable to consent or refuse will not be hired by the agency for any position.

Interviewed agency HR staff reported that the agency performs criminal record background checks and considers pertinent civil or administrative adjudications for all newly hired employees who may have contact with confined persons and all employees, who may have contact with confined persons, who are considered for promotions. This process is done for contractors who may have contact with confined people as well. The agency runs checks through the National Crime Information Center (NCIC) as well as requiring applicants to complete criminal history background questions during the application process, to consider pertinent information for quality candidates. This includes all third-party contractors, prior to giving access to facilities. The agency considers pertinent information that includes civil and administrative adjudications.

A review of the staff hired in the past 12 months NCIC Background checks. The facility provided the auditor with a spreadsheet of 6 staff assigned to the facility which includes Name, Employee Number, Title, Hire Date, State Title, SCDC Title, National Crime Information Center (NCIC) Date, NCIC Status. Of the 6, 5 status received "C" and 1 received Hit (H) means that something was on their check, however, it did not reach the threshold of disapproval (i.e. misdemeanor). A review of the spreadsheet confirmed that the agency is conducting background staff checks.

Site Review

During the site review the auditor had informal conversations with staff regarding background checks. All staff indicated that they completed a background check. Some of the staff were confirmed by NIC background checks spread sheet.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.17 (b)

The provision requires that the agency consider any incidents of sexual harassment in

determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy 11.28, Section 9.12.1 Employees who move from a non-security to a security position, or from a non-security position to another non-security position, or from a security position to a non-security position, regardless of the reason for the move (promotion, demotion, reassignment, etc.) will be checked through the National Criminal Information Center (NCIC). Employees who move from one security position to another security position will not have a background check through the National Criminal Information Center (NCIC) because these checks are conducted during each security employee's three-year recertification cycle through the Division of Training and Staff Development.

The HR staff indicated that the agency requires the facility not to hire or promote anyone who may have contact with confined people and does not enlist the services of any contractor who may have contact with confined persons as listed in this standard to include the above provisions.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.17 (c)

The provision requires that before hiring new employees, who may have contact with confined people, the agency shall: Perform a criminal background records check; and Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: ADM-11.28 section 9.12 requires all successful candidates to be fingerprinted by the Recruiting and Employment Services Branch staff before establishing a hire date. Fingerprints will be sent to the State Law Enforcement Division (SLED) and the Federal Bureau of Investigation (FBI) for processing.

SCDC Policy OIG 23.31 Pre-Employment Background Investigations - Preliminary Procedures section 1.1 through 1.3: 1.1 Phase I of the background investigation process is initiated after the interview panel for an open position is completed and the name of the chosen candidate is submitted to the SCDC Recruiting and Employment Office. The candidate is then contracted by the SCDC Recruiting and Employment Office and given a conditional offer of employment pending the successful completion

of a background investigation. 1.2 The candidate will be required to sign SCDC Form 23-64, "Authorization for Release of Information," to allow persons, businesses, and agencies to release information to the Investigating Agent (s) who may normally be restricted under the Right to Privacy Act. 1.3 Upon receiving the completed SCDC Form "Authorization for Release of Information," the Chief of Administration or his/her designee will request for the SCDC Fusion Center to conduct the following checks on the candidate to evaluate the validity of information provided by the candidate:

- Criminal Records Check.
- SCDMV or Out-of-State Driver Records Checks.
- Judgments/Liens Checks.
- Driving Record.
- Mapper Check.
- Proprietary Service Check/Clear Report
- Social Networking.
- SCIX Data Base.
- Consumer and Credit Bureau Data

Informal conversation with staff reported that the system the facility presently has in place to conduct criminal record background checks of current employees and contractors who may have contact with confined people to include every five years are the LEMS. Web. Central HR reviews existing employee background checks. NCIC reports for background checks and fingerprints are done using LEMS. Web.

Agency HR Staff reported that the agency presently has in place a system to conduct criminal record background checks of current employees and contractors who may have contact with confined people. Prior to employment and access to any facility, a potential employee or third-party contractor must be fingerprinted and pass an NCIC criminal history background check. The SCDC has an active criminal history check under an agreement with the SC Law Enforcement Division. The active system monitors all employees and contractors for arrests. For an individual who is arrested the agency is notified within days of the arrest.

A review of the staff hired in the past 12 months NCIC Background checks. The facility provided the auditor with a spreadsheet of 6 staff assigned to the facility which includes Name, Employee Number, Title, Hire Date, State Title, SCDC Title, National Crime Information Center (NCIC) Date, NCIC Status. 115.17 (d)

The provision requires that the agency also perform a criminal background record check before enlisting the services of any contractor who may have contact with confined people.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The policy requires background checks to occur prior to confined people receiving services from contractors and volunteers and confirmed by staff. Additionally, best efforts are made to contact all prior facility employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

Interviewed agency HR staff reported that the agency asks all applicants and employees who may have contact with confined people about previous misconduct described in section (a) in written applications for hiring or promotions, and in any interviews or written self-evaluation conducted as part of reviews of current employees. All applicants are asked the required PREA questions under (28 CFR 115) prior to being hired.

A review of the contractor staff hired in the past 12 months NCIC Background checks. The facility provided the auditor with a spreadsheet of 11 contractors assigned to the facility which includes Name, Employee Number, Title, Hire Date, State Title, SCDC Title, National Crime Information Center (NCIC) Date. A review of the spreadsheet confirmed that the agency has conducted contractors background checks.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.17 (e)

The provision requires that the agency either conduct criminal background records and checks at least every five years of current employees and contractors who may have contact with confined people or have in place a system for otherwise capturing such information for current employees.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11B Applying the Prison Rape Elimination Act (PREA): Dated November 23, 2021, Section 1.15 Consistent with SCDC Policy ADM-11.28 "Applicant Selection Process. SCDC shall conduct criminal background records checks at least every five (5) years for current employees and contractors who may have contact with residents or have in place a system for otherwise capturing such information for current employees.

Information conversation with the Associate Warden indicated that security positions are not checked every 5 years because the background checks are conducted during each security employee's three-year recertification cycle through the Division of Training and Staff Development.

The SCDC agreement with the South Carolina Law Enforcement Division (SLED) is authorized to search and retain all fingerprints submitted by the South Carolina Department of Corrections through the statewide Automated Biometric Identification System (AFS) for current and prospective employees. SLED is authorized to retain the fingerprints for certification purposes and for notification of the department regarding criminal charges. SCDC ensures that current and future employees are notified that their prints are stored. It is noted that instead of 5-year background checks, SLED reports to SCDC anytime and employees are involved in any criminal charges whether it is six months or 5 years. All charges are reported to SCDC. This process also includes contractors.

Informal conversation from the agency Acting PREA coordinator provided the following for facilities five (5) year background checks. "For your information, the South Carolina Department of Corrections uses, through an agreement with the SC Law Enforcement Division (SLED), an active monitoring system for employees. This system allows SCDC to submit all employee electronic fingerprints to SLED which actively monitors those employees for arrests and convictions and notifies the agency within 24 business hours. SLED does this for multiple agencies. There is not any documentation of this process as it is a State of SC internal process that SLED does for agencies under the State. All employees do have an initial NCIC background check.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.17 (f)

The provision requires that the agency asks all applicants and employees who may have contact with confined people directly about previous misconduct described in paragraph (a) of this section in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees. The agency shall also impose upon employees a continuing affirmative duty to disclose any such misconduct.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: ADM-11.28 Applicant Selection Process, section 9.11.1 indicated that employees who move from a non-security to a security position, regardless of the reason for the move (promotion, demotion, reassignment, etc.) will be checked through the National Criminal Information Center (NCIC).

According to policy, all applicants are asked about any prior misconduct involving any sexual activity. In addition, the facility will not hire or promote anyone who has been civilly or administratively adjudicated to having been convicted of engaging in or attempting to engage in sexual activity by any means.

Interviewed agency HR staff reported that the agency imposes upon employees a continuing affirmative duty to disclose any such previous misconduct. It is a requirement of SCDC policy and training during orientation and basic training for all new employees. The facility leadership reminds staff of the stiff penalties for doing something detrimental to the safety of the agency mission and the offenders who are in the agency's care.

115.17 (g)

The provision requires that the standard states that material omissions regarding such misconduct, or the provision of materially false information, to be grounds for termination.

Compliance Determination:

This facility has demonstrated compliance with the provision of the standard because:

SCDC Policy: ADM-11.28 Applicant Selection Process, section 9.13.4 indicated for falsification, omission, or misrepresentation of facts or information other than arrests, restraining orders, or convictions, consideration should be given to the type of information falsified, omitted, or misrepresented and whether an offer of employment would have been extended if the agency had been given accurate information initially. Intentional deception will automatically disqualify an applicant.

Compliance Determination by Provisions and Corrective Actions:

115.18 (a)

The provision requires that when designing or acquiring any new facility and in planning any substantial expansion or modification of existing facilities, the agency to consider the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect confined persons from sexual abuse.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, Preventive Planning Section 1.16: When determining additions or considering new construction, SCDC will consider the effects of the design or modification upon the institution's ability to monitor and protect the inmates from sexual abuse.

Interviewed with the Deputy Director of Legal and Compliance/Agency Head Designee reported when designing, acquiring, or planning substantial modifications to facilities, the agency considers the effects of such changes on its ability to protect confined persons from sexual abuse. The Agency Acting PREA Coordinator meets frequently with Warden's, the PREA Compliance Managers, the Agency Head, and the Agency Facilities Management to tour the institutions, discuss PREA safety measures needed for each institution, and develop plans to enhance the agency ability to protect confined persons from sexual abuse.

Interviewed Warden reported that when designing, acquiring, or planning substantial modifications to facilities, the facility considers the effects of the changes on its ability to protect residents from sexual abuse. When installing or updating a video monitoring system, electronic surveillance system, or other technology, the agency considers how such technology may enhance the agency/facility's ability to protect residents from sexual abuse. The Warden indicated additional cameras have been installed in the last several years. There is a plan to add additional cameras over the next several years. The facility has not acquired any new buildings since the last PREA audit.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies

corroborate that the facility is complying with the provisions of this standard.

115.18 (b)

The provision requires that when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency to consider how such technology may enhance the agency’s ability to protect confined people from sexual abuse.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported that the agency uses monitoring technology (either newly installed or updated) to enhance the protection of confined persons from incidents of sexual abuse. The agency has recently increased the number of cameras in many of our institutions to monitor activity within the institution. The cameras are monitored at the institutional level, and the agency also has a central agency ‘Crow’s Nest” with a bank of cameras showing real time activity in many of the institutions. These cameras are monitored around the clock. The camera footage is also a valuable tool when investigating PREA allegations.

Interviewed Warden reported that the facility uses monitoring technology to enhance the protection of residents from incidents of sexual abuse. The facility utilizes its aggregated PREA data to assess the need for cameras throughout the facility. The facility has installed additional cameras in the last few years through PREA because of complaints and the need to monitor. The facility has not had any major updates surveillance technology since the last PREA audit.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility is compliant with all provisions in this standard.

Compliance Determination by Provisions and Corrective Actions:

115.21 (a)

The provision requires to the extent that the agency is responsible for investigating allegations of sexual abuse, the agency to follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 2. Responsive Planning Section 2.2: SCDC's OIG will ensure that a uniform evidence protocol that is developmentally appropriate for youthful, inmate (when applicable), and is documented and used based on the most current law enforcement practices.

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 2. Responsive Planning Section 2.1: SCDC's Office of Inspector General (OIG) is

responsible for investigating all allegations of sexual abuse, consistent with SCDC Policy OIG-23.01, Investigations. Evidence collection efforts will be collaborative with the local hospital of agreement and the South Carolina Law Enforcement Division, depending on the severity of the event, who is involved (inmate or staff), and availability of evidence.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. Interviewed staff reported that they were aware of the protocols for obtaining usable physical evidence if a confined person alleges sexual abuse. They were able to describe the process and steps required to protect physical evidence, which included taking immediate action, staying with the confined persons, separating the victim from the perpetrator, isolating/secure the scene and secure evidence, notify supervisors, secure evidence in a bag, don't allow the confined persons to shower, bathe, brush teeth, and overall treat as a crime scene. Most of the staff also reported that they would send the victim to medical for an initial evaluation of his/her medical condition. The staff ask do they know who is responsible for conducting sexual abuse investigations. Some said PREA compliance manager, Associate warden, or OIG.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.21 (b)

The provision requires that the protocol be developmentally appropriate for youth where applicable, and as appropriate, shall be adapted from or otherwise based on the most recent edition of the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The protocol is appropriate and is adapted from or otherwise based on the most recent edition of the U.S. Department of Justice's Office of Violence Against Women publication, or similar comprehensive and authoritative protocols developed after 2011. The facility does not house youth confined people.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies

corroborate that the facility is complying with the provisions of this standard.

115.21 (c)

The provision requires that the agency offer all victims of sexual abuse access to forensic medical examinations, whether on-site or at an outside facility, without financial cost, where evidentiarily or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. The agency shall document its efforts to provide SAFEs or SANEs.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment states, all alleged confined person victims will be taken to the Medical Services area for an initial medical assessment. If medical personnel determine that a sexual assault may have occurred, the inmates will be taken to an outside medical facility. The outside medical facility will perform a medical forensic exam, as appropriate, collecting all evidence and maintaining the chain of custody to preserve the evidence.

Documentation did corroborate that the confined person had access to forensic medical examinations.

Conversations with the medical staff reported that the facility does not conduct forensic medical examinations. These services are provided at the local hospital.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

15.21 (d)

The provision requires that the agency attempt to make available to the victim advocate from a rape crisis center. If a rape crisis center is not available to provide victim advocates services, the agency shall make available to provide these services a qualified staff member from a community-based organization, or a qualified agency staff member. Agencies shall document efforts to secure services from rape crisis centers. To this standard, a rape crisis center refers to an entity that provides intervention and related assistance, such as the services specified in 42 U.S.C. 1400043, to victims of sexual assault of all ages. The agency may utilize a rape crisis center that is part of a governmental unit if the center is not part of the criminal justice system and offers a comparable level of confidentiality as a nongovernmental entity that provides similar victim services.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy has 06.11B, Applying the Prison Rape Elimination Act (PREA) – 2. Responsive Planning Section 2.7: The Agency’s PREA Coordinator will attempt to make available written Memorandum of Understanding/Agreement’s with local/ regional Rape Crisis Centers to provide emotional support services. Such attempts will be documented through written memorandums and retained for monitoring purposes.

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) – 2. Responsive Planning Section 2.6: In the event of sexual assault, the SCDC Mental Health Practitioners will ensure that the victim (s) are offered the services of an outside agency victim advocate consistent with SCDC Policy GA-06.11, Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment.

During the site review, the auditor observed the facility signage regarding how to report sexual abuse and/or sexual harassment (external and internal reporting) posted in persons confined in the facility housing/living units, programming areas and visitation area. The information is provided in English and Spanish and is legible. There were PREA flyers with emotional support services, addresses and numbers throughout the facility.

MOU between the Sexual Trauma Services of the Midlands (STSM)/The Pathway to Healing. The STSM/The Pathway to Healing is responsible for:

- o Responding to calls from inmates received on STSM’s 24-hour crisis hotline.
- o Providing inmates with confidential emotional support services related to sexual abuse during their residency at an institution and during their transition from the corrections facility into the community.
- o Providing follow-up services to victims of sexual assault as resources allow, including in-person visits.
- o Maintaining confidentiality of communications with inmates.
- o Working with designated staff to obtain security clearance as needed and follow all facility guidelines for safety and security.
- o Attending all Sexual Abuse Incident Reviews at the request of an inmate with the understanding that STSM cannot disclose any communication with an inmate without a signed release from said inmate.
- o Communicating any questions or concerns to PREA Coordinator that are not in violation of confidentiality.

Note: This MOU services provided as agreed pursuant to the approved project goals and objectives listed in the awarded Justice Assistance Grant Program (Grant No. 1GPR19001).

For providing services as the sole service provider of the STSM/The Pathway to Healing is responsible for:

- o Providing emotional support services to inmate and juveniles adjudicated to the SCDC and the SCDJJ for sexual assault and sexual misconduct.
- o Providing awareness and knowledge to inmates and juveniles about sexual assault, misconduct, and harassment through group education sessions provided by a

qualified instructor.

- o Providing training and education to the staff of SCDC and SCDJJ, to included correctional officers, medical and mental health practitioners, and others (including train-the-trainer) regarding information on the PREA, sexual assault, trauma informed care, youth violence prevention, SAFE/SANE requirements, and how to assist survivors of sexual abuse.
- o Submitting monthly reports of services and those served.
- o Providing timely invoices for payment with descriptive line items describing services provided, dates, times, locations, and costs.
- o Providing training agreed upon within each quarter of the grant.

On December 28, 2024, at 10:31am the auditor received an email from the Executive Director. The auditor reaches out several times by phone. The email was in response to communications and written questions sent to the Executive Director on December 18, 2024, at 9:41 am regarding the Wateree CI PREA audit. The Executive Director indicated that they have a current and active MOU with the Wateree and Turbeville CI with an attached MOU. The Pathway to Healing has provided emotional support services to confined people within the past 12 months and provided a total number for all confined people for several different facilities and community. She also indicated that confined people could remain anonymous, and communication between Pathways and confined persons survivors is considered legal/legal mail and is held in the strictest of confidence. It was indicated that the Pathway of Healing provided the facility with a mailing address and free telephone number for confined survivors.

During the facility site reviews the auditor confirmed the address and tested the emotional support services hotline *63. They were working properly.

The Pathway to Healing provided monthly reports to SCDC. The Incarcerated Survivor Group Coordinator provided documentation that Pathways to Healing provided services to Turbeville CI.

Interviewed PREA compliance manager reported that if requested by the victim an advocate, qualified facility staff member, or qualified community-based organization staff would accompany and provided emotional support, crisis intervention during the forensic medical examination process and investigatory interviews. The staff could be mental health or medical staff or the local rape crisis center staff.

PREA requires the auditor to conduct outreach to relevant national, state, and local advocacy organizations. The outreach is to communicate with community-based or victim advocates who may have insight into relevant conditions and outside services provided to the residents. On September 11, 2024, the auditor contacts Just Detention International (JDI) by email. The Senior Operations Officer on September 11, 2024, responded. The email stated that a review of our (JDI) database indicates that the agency has not received any information regarding the facilities submitted.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.21 (e)

The provision requires that as requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed PREA Compliance Manager reported if the rape crisis center provides victim advocate services, the agency PREA Coordinator office ensure that center meets the qualifications described in standard 115.21 by MOU and that it follows all state requirements.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.21 (f)

The provision requires that to the extent the agency itself is not responsible for investigating allegations of sexual abuse, the agency requests that the investigating agency follow the requirements of paragraphs (a) through (e) of this section.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy has 06.11B, Applying the Prison Rape Elimination Act (PREA) -2.8 In the event that SCDC's OIG does not investigate an allegation, the Chief of Enforcement will request that the investigating agency follow the requirements set by standard 115.21 (a) through (e).

SCDC Policy has 06.11B, Applying the Prison Rape Elimination Act (PREA) - 2.9 All allegations of sexual misconduct investigated by SCDC' OIG, to include, but not limited to, sexual abuse, sexual harassment, and inappropriate sexual behaviors, by staff or confined persons, will have an investigative case opened within five (5) days from the date of receipt.

SCDC GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual

Harassment, indicated that all allegations of sexual abuse and sexual harassment, including threats and attempts, will be immediately and aggressively investigated. The Office of Inspector General (OIG) initiates the investigation and notifies South Carolina Law Enforcement Division (SLED) and the Inspector General's office when sexual misconduct by staff, contractors, or volunteers is alleged, and conducts an internal investigation in accordance with SCDC Policy OIG-23.01 - Investigations.

In MOU section 5 Scope, provision 5.2 SLED shall maintain primary investigative authority over crimes involving violations of: SC Code Ann. 24-13-430 (2) (Participation in a Riot); SC Code Ann. 24-13-450 (Taking of a Hostage by an confined person); any case of suspected homicide/attempted homicide, SC Code 16-3-10 (Murder) or 16-3-29 (Attempted Murder) and an SCDC employee or private citizen by an confined persons; any case that involves sexual assault of an SCDC employee or private citizen by an confined persons; any case that involves the assault and battery of an SCDC employee or private citizen that results in serious bodily injury; any suspected confined persons suicide. Additionally, SLED will be the primary investigative agency as requested by the Director of SCDC or the SCDC Inspector General at his discretion.

Conversation with the facility investigator reported when a PREA allegation is investigated by an outside agency, the facility requests that the investigator follow the PREA requirements. The preponderance of evidence is defined as proof by evidence that, compared with evidence opposing it, leads to the conclusions that the fact at issue is more probably true than not.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.21 (g)

The provision requires that the requirements of paragraphs (a) through (f) of this section shall also apply to: Any State entity outside of the agency that is responsible for investigating allegations of sexual abuse in prisons or jails; and Any Department of Justice component that is responsible for investigating allegations of sexual abuse in prisons or jails.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Conversations with the agency PREA coordinator reported that SLED are required to use the same protocols as the investigators for SCDC and referred the auditor to the MOU with SLED.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.21 (h)

The provision requires that for the purposes of this section, a qualified agency staff member or a qualified community-based staff member to be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy 06.11B, Applying the Prison Rape Elimination Act (PREA) -2.6 In the event of sexual assault, the SCDC Mental Health Practitioners will ensure that the victim (s) are offered the services of an outside agency victim advocate consistent with SCDC Policy GA-06.11 "Prevention, Detection, and Response to Sexual Abuse/ Sexual Harassment.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility is compliant with all provisions in this standard.

Compliance Determination by Provision and Corrective Actions:

115.22 (a)

The provision requires that the agency ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, section 2.4 Investigations page 5 states, SCDC will ensure that all allegations of sexual abuse and sexual harassment are thoroughly investigated promptly. PREA allegations of sexual abuse or sexual harassment may be received in numerous ways to include: 1. PREA Tips - SCDC public website page that the public can use to report an allegation of sexual abuse/sexual harassment. 2. *22 Hotline Call. 3. Warden-to-warden PREA Notification. 4. Grievance. 5. Request to Staff Member (RTSM) or Automated Request to Staff Member (ARTSM); 6. Note, Letter, or Verbally.

SCDC Policy OIG -23.01 Investigations section 3.2 Investigative Personnel Sub Section: 3.2.1 OIG will be responsible for assigning investigative personnel to all reported criminal acts (suspected and/or alleged) which are believed to have been committed by SCDC inmates, employees, or others when the crime relates to the agency. Criminal acts which may necessitate an investigation include, but will not be limited to the following:

- Criminal Sexual Conduct.
- Sexual misconduct by an Employee.

According to the PAQ, in the past 12 months the number of allegations of sexual abuse and sexual harassment that were received was 34.

A reviewed of the SCDC 2023 Annual Report, in calendar year 2024, SCDC received

377 reported allegations of sexual abuse and sexual harassment. The SCDC Office of Inspector General (OIG) investigated 20% of these allegations for criminal intent, while institutional investigators examined 80%. Out of the total number of reports, 29% were allegations of inmate-on-inmates abuse, and 26% were allegations of staff-on-inmate abuse. Of the 377 allegations, 6% were substantiated, 41% were unsubstantiated, and 45% were unfounded. There are also 8% of the cases still pending outcomes. The report has comparison data for the current year and corrective actions per report.

A review of the investigation files confirmed that the agency ensure that an administrative and/or criminal investigation is completed for all allegation of sexual abuse and sexual harassment. The total number of sexual abuse and sexual harassment investigations for the past 12 months 43. Number of staff-on-resident sexual abuse classified by facility investigations 9; Number of staff-on-resident sexual harassment classified by facility investigations 3; Number of residents-on-residents sexual abuse classified by facility investigations 10; Number of residents-on resident's sexual harassment classified by facility investigations 11. Total number of on-going cases 2; Total number of referred to prosecution 2; and Total number of terminated staff or contractors 2. The total of staff or contractors resigned 0; The total number of investigation files the auditor reviewed was 13. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

The auditor methodology is used to determine investigations sample: Twenty or less the auditor reviews at least 10 files. Twenty-one or more the auditor reviewed 10 plus an additional 10 percent of the remaining files.

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported that the agency ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse or sexual harassment. The South Carolina Department of Corrections has a formal process in place to ensure administrative and criminal investigations are completed of sexual abuse and sexual harassment. The Agency head Designee describes how an administrative or criminal investigation is completed for allegations of sexual abuse or harassment. All PREA allegations are reported to the facility PREA Compliance Manager. Incident reports and statements from the victim and any witnesses are collected and forwarded to the Acting Agency PREA Coordinator who will determine whether the matter warrants a criminal investigation or whether the matter will be referred to the PCM for administrative review. The PCM investigates all confined person-on-confined person sexual harassment allegations. The Agency Office of Inspector General investigates all allegations of a criminal nature and all administrative allegations concerning staff or volunteer sexual abuse or sexual harassment of confined persons. The confined people who reported the PREA allegation are informed of the results of the investigation. Allegations that result in substantiated and unsubstantiated deposition are the subject of incident review. An attorney from the General Counsel's Office and the institutional staff after each to discuss circumstances surrounding the PREA incident, the investigation conducted and recommendations for future action.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff and residents, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.22 (b)

The provision requires that the agency have in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations unless the allegation does not involve potentially criminal behavior. The agency publishes such a policy on its website or, if it does not have one, make the policy available through other means. The agency shall document all such referrals.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, indicated that all allegations of sexual abuse and sexual harassment, including threats and attempts, will be immediately and aggressively investigated. The Office of Inspector General (OIG) initiates the investigation and notifies South Carolina Law Enforcement Division (SLED) and the Inspector General's office when sexual misconduct by staff, contractors, or volunteers is alleged, and conducts an internal investigation in accordance with SCDC Policy OIG-23.01 - Investigations.

A review of the agency/facility's website provides information and related policies for reporting allegations of sexual abuse. A third-party reporting process is also on the site. Reporting information is also posted in various areas of the facility including but not limited to the housing units. The posted information is accessible to confined people, staff, contractors, and visitors. The policy and interviews confirmed allegations of sexual abuse and sexual harassment are investigated.

In MOU section 5 Scope, provision 5.2 South Carolina Law Enforcement Division (SLED) shall maintain primary investigative authority over crimes involving violations of: SC Code Ann. 24-13-430 (2) (Participation in a Riot); SC Code Ann. 24-13-450 (Taking of a Hostage by an confined person); any case of suspected homicide/ attempted homicide, SC Code 16-3-10 (Murder) or 16-3-29 (Attempted Murder) and an SCDC employee or private citizen by an confined persons; any case that involves sexual assault of an SCDC employee or private citizen by an confined persons; any case that involves the assault and battery of an SCDC employee or private citizen that results in serious bodily injury; any suspected confined persons suicide. Additionally, SLED will be the primary investigative agency as requested by the Director of SCDC or the SCDC Inspector General at his discretion.

The Interview with the Facility PREA Investigator reported that the agency has policies that require all allegations of sexual abuse or sexual harassment be referred for investigation to an agency with the legal authority to conduct criminal investigations. The facility investigator immediately begins the investigation and uses a uniform

evidence protocol that obtains usable physical evidence for administrative proceedings and criminal prosecution. The agency PREA Coordinator's Office makes the referral to OIG.

The Interview with the Office of Inspector General (OIG) Investigator reported agency policy and his office requires all allegations of Sexual Abuse to be investigated. However, the OIG is the legal authority to conduct criminal investigations. Ninety-nine percent of criminal allegations are investigated by the OIG office. There may be times that SLED investigated (South Law Enforcement Division).

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.22 (c)

The provision requires that if a separate entity is responsible for conducting criminal investigations, such a publication shall describe the responsibilities of both the agency and the investigating entity.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The primary mission of the State Law Enforcement Division (SLED) is to provide quality manpower and technical assistance to law enforcement agencies and to conduct investigations on behalf of the state as directed by the Governor and Attorney General. All related documentation is captured in the OIG Case Management System. Facility administrative investigations are maintained in files at the facility and secured by the PREA Compliance Manager.

Conservation with the agency Acting PREA coordinator reported that outside entity SLED is aware of the agency sexual abuse policy of investigations. The agency has developed a policy for the investigation of sexual abuse and sexual harassment which is reported to the SCDC. SCDC Policy GA-06.11: Prevention, Detection and Response to Sexual Abuse/Sexual Harassment is published on the agency's website at <http://doc.sc.gov/preaweb/>

The Acting PREA coordinator provided the auditor with a copy of the agency investigation policy (SCDC Policy OIG-23.01 Investigation - Restricted)

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.22 (d)

The provision requires that any State entity responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in prisons or jails to have in place a policy governing the conduct of such investigations.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Auditor is not required to audit this provision.

115.22 (e)

The provision requires that any department of Justice component responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in prisons or jails to have in place a policy governing the conduct of such investigations.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Auditor is not required to audit this provision.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Supervision of Offenders Lesson Plan included but not limited to: Discuss Cross-Gender Supervision, Announce the Presence of Opposite Sex; Transgender and Gender Dysphoria; Young Offender Sentence Types; Supervise Special Need Offenders and Staff Positioning.

SCDC provided training for all employees who work in the facilities. Staff received PREA training thru: 1. New Employee Orientation – one day (8 hours) which includes information regarding PREA. 2. Attending basic training at the Training Academy in Columbia, S.C. The training varies in length depending upon the position that the employee is in. All position training includes PREA Training.

Site Review

During the auditor site review the auditor had informal conversations with staff regarding the PREA training. They were asked to have you had the required PREA training? Staff responses were yes when they were hired and through shift briefing. When asked, can you tell me what topics were discussed. Staff responses were confined person reporting process internal and external, they pointed to the PREA information located by the phones. They also talked about how they can privately report PREA along with other variety of topics that was discussed in training.

Twelve random staff were interviewed by the auditor’s non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. Interviewed staff reported that they received PREA training. Staff were aware of the Zero Tolerance Policy, employee and confined persons rights, signs, and symptoms of sexual abuse, reporting and responding. One hundred percent of staff were knowledgeable about the topics they had been trained on. Some say that the topics are ongoing. When probed, staff were able to describe the training on zero tolerance, confined persons and staff rights, dynamics of sexual abuse and sexual harassment, prevention, and response protocol as well as supportive services available to confined persons. Staff indicated they have received training on working with vulnerable populations (LGBTQI, prior history of sexual victimization). The staff reported receiving training in person, online and annually.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.31 (b)

The provision requires that such training be tailored to the gender of the confined persons at the employee’s facility. The employee receives additional training if the employee is reassigned from a facility that house only male confined persons to a facility that houses only female confined persons, or vice versa.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

A review of the confined persons roster indicated that the facility houses male confined persons, and the training considers the needs of the population as determined by a review of training curricula and interviews with random staff.

However, conversation with the PREA Compliance Manager reported that employees who are reassigned from facilities that house the opposite gender are given additional training.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.31 (C)

The provision requires that all current employees who have not received such training be trained within one year of the effective date of the PREA standards, and the agency provide each employee with refresher training every two years to ensure that all employees know the agency's current sexual abuse and sexual harassment policies and procedures. In years in which an employee does not receive refresher training, the agency provides refresher information on current sexual abuse and sexual harassment policies.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Review of the training documentation indicated that all current employees and contractors have received PREA training, and facility staff reported that they also received monthly refresher training through staff briefing and meetings where they are reminded of PREA issues.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff and residents, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.31 (d)

The provision requires that the agency document, through employee signature or electronic verification, that employees understand the training they have received.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11, Policy Prevention, Detection, and Response to Sexual Abuse/ Sexual Harassment acknowledgement signed statements. The statements include but are not limited to 1. Zero Tolerance Policy (GA-06.11), 2. Sexual Abuse Definitions, 3. Sexual Harassment Definitions, 4. Reporting Inappropriate Employment/ inmates Relations, 5. Corrective Actions, 6. Retaliation

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Volunteers and contractors who have contact with confined persons have been trained on their responsibilities under the agency's sexual abuse and sexual harassment policy. This training is conducted based on the Inmate Services Volunteer Training Orientation Training Power Point and agreement.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.32 (b)

The provision requires that the level and type of training provided to volunteers and contractors be based on the services they provided and level of contact they have with confined persons, but all volunteer and contractors who have contact with confined persons shall be notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The SCDC Division of Inmate Services Volunteer Orientation provided the Agency/ Topics to be covered as follows: SCDC Mission, SCDC confined persons Profile, Types of Volunteer Services, Volunteer Conduct, Employee- confined persons Relations, Sexual Abuse, Harassment and Misconduct, Drug Free Environment, Contact with News Media, Appropriate Dress, Unauthorized Items-Contraband, Submission to Searches, Photo Identification for Entry, Arrival to and Movement Inside the Institution, Medications, Pets/Animals, Phones, Cameras, Recording Devices, Worship/ Religious Freedom, Suspension or Termination, Chaplain Directory for Each Institution.

Interviews and documentation indicated that the training provided to volunteers and contractors varies based on the services they offer and their contact with confined individuals. All volunteers and contractors are informed of the facility's zero-tolerance policy regarding sexual abuse and sexual harassment, as well as how to report alleged incidents.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies

corroborate that the facility is complying with the provisions of this standard.

115.32 (c)

The provision requires that the agency maintain documentation confirming that volunteers and contractors understand the training they have received.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The auditor reviewed the volunteer services agreement acknowledgement form (SCDC Form 1-9). The statements include but are not limited to 1. The volunteer agrees to: "I agree and understand that the Prison Rape Elimination Act (PREA) is a federal law that prohibits and seeks to eliminate sexual assaults and sexual misconduct in SCDC correctional institutions. Further that SCDC has a zero tolerance for sexual assault or abuse of any person or sexual relationships between staff, volunteers, and confined persons. I have also been informed of how to report such incidents." 2. Confidentiality Pledge: "As a registered volunteer, I may learn personal and confidential information about confined persons in the SCDC. I agree that no such information will be disclosed without the written consent of both the involved confined persons and the affected staff members. I understand that a violation of his pledge will result in my removal as a volunteer.

Based on the documentation review, the facility maintains documentation confirming that volunteers and contractors understand the training they received. The facility documents volunteer and contractor training using the acknowledgement statement and rosters, which requires the instructor signature to verify the training.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses triangulation by reviewing PREA documentation, policies, on-site observations, facility practices, interviews, local advocates, and the online Pre-Audit Questionnaire. This analysis shows the facility complies with all provisions of this standard.

Compliance Determination by Provisions and Corrective Action:

15.33 (a)

The provision requires confined persons to receive information during the intake process explaining the agency's zero-tolerance policy regarding sexual abuse and

sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) – 3. Training and Education Section 3.2: Consistent with SCDC Policy GA-06.11, Prevention, Detection, and response to Sexual Abuse. Sexual Harassment states each SCDC institution will ensure that all inmates receive education on the Agency's zero tolerance policy and their rights and responsibilities on how to be free from sexual abuse, sexual harassment, and retaliation for reporting.

Based on a review of information that the facility provided in the PAQ, the number of confined persons admitted during the past 12 months who were given this information at intake was 1158.

Informal conversations with the PREA compliance manager confirmed that the Intake/Classification staff conducts the intake orientation. This was confirmed during the facility tour by the intake/classification staff.

Based on interviewed intake staff, when conducting the intake orientation staff go over the zero-tolerance policy with the confined people. There is a portion of the intake packet that covers definitions and how to notify or allegations of sexual abuse, sexual harassment and suspicions of sexual abuse or sexual harassment. Intake staff confirmed that the confined person watch a video (English or Spanish) on PREA, and staff answer questions if needed. Intake staff corroborate that all confined persons as well as those transferred from other facilities received PREA information on the agency's zero tolerance policy on sexual abuse or sexual harassment as all other confined person entering the facility by giving them the intake packet and viewing the PREA video. The information is in English and Spanish. Documentation review of confined persons signature and date on the Intake Orientation and Certification of PREA Orientation/Education corroborated that these confined persons received the PREA information.

During the facility site review the intake staff were asked to demonstrate the intake process by walking the audit through the process. Staff was in the office, the PREA information was on her desk in English and Spanish and the auditor was shown the PREA video on a different computer that confined persons used. The video was clear, and the auditor reviewed the PREA Brochure. The brochure titled "Let's Talk About Safety", which includes SCDC has zero tolerance for sexual abuse, sexual harassment and how to report. There is a space on the back of the PREA brochure for the facility to place their local rape crisis center contact or reporting information regarding sexual abuse and sexual harassment.

The auditor reviewed the PREA Posters and Brochures that were on the staff intake desk, they are written on the 5th - 6th grade level. The brochure is written in everyday street language, uses short sentences that are understandable, and does not use language that requires a high-level of education to read and comprehend.

This was confirmed with a phone conversation and email with the Agency Acting PREA Coordinator. The Acting PREA coordinator confirmed that the PREA Posters and Brochures were created with the support of Justice Detention International (JDI) who creates PREA materials on a 5th -6th grade level. This was also corroborated by the auditor running the SCDC PREA posters and PREA Brochures through a grammar program that tells the reading level of the educational materials which rated the reading grade levels as 4.4 - 5.7. If the confined person has a cognitive or intelligence disability the Intake staff would read the PREA materials to the confined person or request assistance from mental health or GED staff. On April 10, 2024, the auditor had a phone conversation with the intake staff to confirm this process.

Site Review

During the auditor site review the auditor had informal conversations with confined people regarding the three PREA Education. Confined persons responses were yes. When asked when they received their PREA education, they reported that when they first came to the facility. The auditor asks, how did they receive their PREA education? Confined person responses they receive a package, and they watch a PREA video. Most of them stated that the videos are on their tablet.

Informal conversation with the intake staff corroborates that there was no limited English-speaking confined person at the facility, the auditor did check the confined person roster and had informal conversation with the facility PREA compliance manager. During the tour there was no sign of any confined people needing LEP services. The auditor did not access the facility Language line for interpretation services at that time, however, the PREA Compliance Manager provided the auditor with the language line instructions for staff who need to access the services if needed. The Quick Reference Guide Global Interpreter Instructions sheet has the toll-free number (833-769-1307). Staff must enter the PIN for SCDC which is 8712339.

A documentation review from 40 confined persons intake file information was randomly selected by the PREA Auditor using the facility confined persons roster with SCDC number, name, date assigned to facility, current housing, and bed assignments. The selected information was placed on a spreadsheet that included race, arrival date year, intake orientation date of certification, and PREA education/video certification date. Copies of the individual documentation for each confined person were copied for uploading into the PREA system.

The auditor confirmed the intake orientation by reviewing 40 Institutional files forms - SCDC Form 18-69 Certificate of Inmate Orientation Acknowledgements. Forty confined people signed and dated the forms.

The confined people received the required intake information through brochures and PREA videos. The facility has the following PREA videos for confined people:

- ◆ PREA Video Adult Intake English (Sign Language and Captioned)
- ◆ PREA Video Adult Intake English (Captioned)
- ◆ PREA Video Adult Intake Spanish (Captioned)

The auditor has reviewed all the above PREA videos and has copies on file to upload in the PREA system. The auditor reviewed the PREA Intake Video, it is in sign language, captioned and English and Spanish. The intake video is shown on the same day of arrival. Based on documentation review of confined persons signature and date on the Intake Orientation and Certification of PREA Orientation/Education corroborate that the confined persons are receiving the PREA information.

The following are notes of the auditor's review of videos which confirmed the confined person's PREA orientation.

- The video provides confined persons with information about the National Prison Rape Elimination Act also called PREA Standards, "Know Your Rights".
- Zero-Tolerance Policy and what it means.
- Terms and definitions: Sexual Abuse and Sexual Harassment.
- All reports will be investigated.
- How to report sexual abuse and sexual harassments.
- Reporting back to confined people.
- The rights to be free from sexual abuse, sexual harassment, and retaliation for reporting.
- Tips for staying safe from sexual abuse and sexual harassment.
- How to report sexual abuse and sexual harassment from the facility (A Formal Report, A Report to Medical or Mental Health Staff, A Third-Party Report, An Outside Entity Report, Report Private, right not to Face Retaliation for Reporting).
- Availability of medical and mental health treatment for victimized confined persons.
- Disciplinary actions for participating in sexual abuse, sexual harassment, or making false allegations.
- Reporting back to the confined people.

On September 5, 2024, the auditor received an email from the Acting PREA Coordinator confirming that ViaPath has placed six PREA videos on all inmate Tablets.

Site Review:

During the facility tour of the confined person living units, the auditor asks an inmate to demonstrate how to review the PREA videos on their tablets. The confined person always had access to the PREA videos.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic. Interviewed confined people could recall the facility's going over the rules against sexual abuse and harassment when they first came to the facility. They reported that they received intake paperwork or PREA brochure and reviewed a video. Most of the confined people recall that they received the PREA information on the same day of arrival or within a week. Documentation review of confined persons signature and date on the Intake Orientation and Certification of PREA Orientation/Education corroborate that only one of these confined persons did not have a signature sheet of receiving the PREA information.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.33 (b)

The provision requires within 30 days of intake, the agency provides comprehensive education to confined persons either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, as a part of the initial intake process at the Reception and Evaluation (R&E) Center, all inmates receive a thorough orientation on the agency's zero-tolerance policy regarding the sexual abuse of inmates.

Based on a review of information the facility provided in the PAQ, the number of those confined persons admitted during the past 12 months (whose length of stay in the facility was for 30 days or more) who received comprehensive education on their rights to be free from both sexual abuse and sexual harassment and retaliation for reporting such incidents and on agency policies and procedures for responding to such incidents within 30 days of intake was 938.

Based on interviewed intake staff confirmed that all confined persons are educated through PREA brochures, Posters and Video on their rights to be free from sexual abuse, sexual harassment and to be free from retaliation for reporting incidents regarding policies, procedures for responding to retaliation. Intake staff confirmed through informal conversations that they will read PREA materials with the confined people and have them sign an acknowledgement form. Usually, the confined person receives the information the same day, no more than 72 hours from arrival at the facility.

The auditor confirmed that the confined person completed the required PREA Education within the required timeframe by reviewing 40 of the Institutional file forms - SCDC Form 18-78 Certificate of PREA Video Acknowledgements. Forty confined people signed and dated the forms.

The auditor uploaded the raw data on each confined person titled "Institutional File SCDC Form 18-78 Certificate of PREA Video Acknowledgements.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic. Interviewed confined person corroborate that when they came to the facility, they were told about their

right to not be sexually abused or sexually harassed. How to report sexual abuse or sexual harassment. About their rights not to be punished for reporting sexual abuse or sexual harassment. When asked about how long after coming here did you get the information above? There were a variety of responses; within a week, first week, same day, couple days, soon as I got here, 2 days, 3 days, next day or immediately. The confined people were also asked, when did you first come to this facility 32 was within the 12 past 12 months and 8 reported more than 12 months. Note: some of the confined people may have given their arrival time to the prison system.

During the facility review it was determined that the facility does not house female confined persons. The non-certified support assistance could not interview a female to determine whether she was unable to participate in activities outside of her cell because female staff was unavailable to conduct pat-down searches.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.33 (c)

The provision requires confined persons to receive information during the intake process explaining, current confined persons who have not received such education shall be educated within one year of the effective date of the PREA standards and shall receive education upon transfer to a different facility to the extent that the policies and procedures of the confined persons new facility differ from those of the previous facility.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, section 1.1.9 Current inmates who have not received the required education shall be educated as promptly as possible.

Informal conversation with facility PREA compliance manager during facility tour confirmed that all confined persons who arrived or transferred to the facility have received PREA education through watching a video and PREA brochure. Transferred confined persons received education on their rights to be free from both sexual abuse, sexual harassment, and retaliation for reporting these incidents. The auditor reviewed 75 confined persons documented signatures to confirm the Certification of confined persons Certification of PREA Orientation have reviewed the PREA video. The conversation also confirmed that all confined people prior to PREA have received the PREA education.

Interviewed intake staff confirmed that all confined persons to include those transferred from other facilities received PREA information on the agency's zero

tolerance policy on sexual abuse or sexual harassment as all other confined person entering the facility through the intake packet and viewing PREA video. The information is in English and Spanish.

The auditor corroborates that all confined person received PREA education upon transfer to a different facility by collecting information from the confined person file of the arrival date/year to the SCDC prison vs the arrival date of the confined person to the facility.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.33 (d)

The provision requires the agency to provide confined persons education in formats accessible to all confined persons, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to confined persons who have limited reading skills.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment section 1.1.7 indicated that during each inmate orientation and training session, inmate education materials will be provided in formats which are accessible to all confined persons. This includes providing documentation and materials to inmate who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to confined persons who have limited reading skills.

The auditor used the same process to corroborate and test the language line. There were one Limited English Proficiency that was interviewed. There were concerns regarding LEP resident communication.

The auditor has reviewed the PREA videos. The videos are in a format that is accessible to confined persons who are limited English proficient in Spanish format; deaf confined persons by using sign language and caption in English and Spanish; and visually impaired by using clear speech.

Site Review:

The auditor reviewed the PREA Posters and Brochures that were on the staff intake desk, they are written on the 5th - 6th grade level. The brochure is written in everyday street language, uses short sentences that are understandable, and does not use language that requires a high-level of education to read and comprehend.

This was confirmed with a phone conversation with the Agency Acting PREA Coordinator. The Acting PREA coordinator confirmed that the PREA Posters and

Brochures were created with the support of Justice Detention International (JDI) who creates PREA materials on a 5th -6th grade level. This was also corroborated by the auditor running the SCDC PREA posters and PREA Brochures through a grammar program that tells the reading level of the educational materials which rated the reading grade levels as 4.4 – 5.7. If the confined person has a cognitive or intelligence disability the Intake staff would read the PREA materials to the confined person or request assistance from mental health or GED staff.

In the living units, the confined people had access to 2 - 8 telephones. The auditor tested phones by picking up the receiver and listening for a dial tone. Random phones were checked to contact the outside services. The auditor picks up the phone and receive a dial tone then a message to press 1 for English or 2 for Spanish. The auditor pressed the number, and the call went to the outside agency. The auditor was given the option to press for the name of staff or press to leave message. It was not required for the person confined to enter a personal ID PIN. The call was unmonitored, and the locations of the phones did provide for some privacy for the confined person.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.33 (e)

The provision requires the agency to maintain documentation of confined person's participation in these education sessions.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment Section 1.1.6 indicated that inmate will be required to sign an acknowledgement of having received all PREA training at both R&E Centers and the assigned institution on SCDC Form 18-78, "Certification of Prison Rape Elimination Act (PREA) Orientation." A copy of the 18-78 will be maintained in the inmate's institutional record.

The auditor confirmed that the confined person completed the required PREA Education within the required timeframe by reviewing 40 of the Institutional file forms – SCDC Form 18-78 Certificate of PREA Video Acknowledgements. Forty confined people signed and dated the forms.

The auditor uploaded the raw data on each confined person titled "Institutional File SCDC Form 18-78 Certificate of PREA Video Acknowledgements.

The facility maintains and confirms documentation of confined person's participation in PREA orientation and education by the confined person's signature on the acknowledgement of the Certification of PREA Education Video and confined persons

Intake Certification Orientation.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.33 (f)

The provision requires, in addition to providing such education, the agency to ensure that key information is continuously and readily available or visible to confined people through posters, confined person's brochure, or other written formats.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment Section 1.1.10 indicated that in addition to the education outlined above, each SCDC facility will ensure that key information, including information about the right to be free from sexual abuse and sexual harassment, and how to make a report, is continuously and readily available or visible to confined persons through posters and other written formats.

The facility ensures that key information regarding PREA is continuously and readily available and visible through posters, brochures, flyers, wall painting of PREA, electronic via kiosk, and tablets.

Site Review:

The Auditor confirmed the following key information during the facility tour by observing PREA posters on the wall. The posters observed was Auditor PREA Notice of the upcoming PREA audit; PREA Brochure- Let's Talk About Safety SCDC Zero Tolerance of Sexual Abuse and Sexual Harassment; PREA Poster - Reporting PREA Externally (South Carolina Law Enforcement Division (SLED)); Poster - How to Report Sexual Assault/Harassment; PREA flyer - Zero Tolerance Against Sexual Abuse/Sexual Harassment; and Wall Painting of PREA. This information was continuous throughout the facility to include the posted near the phones in the housing units, medical, Education, Dining Hall, Visitation, and the Intake area. The posters and brochures are eligible has the outside toll-free numbers and are in English and Spanish.

The auditor also confirmed that key PREA information is continuously available to confined people through electronic via kiosk, and tablets. The auditor requested the confined people to access the PREA information on the kiosk and his tablet. The confined person had no problems pulling up the information for review.

In the living units, the confined people had access to 2 - 8 telephones. The auditor tested the phone by picking up the receiver and listening for a dial tone. Random phones were checked for contacting outside services. The auditor picks up the phone

and receive a dial tone then a message to press 1 for English or 2 for Spanish. The auditor pressed the number, and the call went to the outside agency. The auditor was given the option to press for the name of staff or press to leave message. It was not required for the person confined to enter a personal ID PIN. The call was unmonitored, and the locations of the phones did provide for some privacy for the confined person.

The facility does not house confined people solely for civil immigration purposes. The auditor requested a list of confined people that requested consular notification. The agency central office provided a list of 11 confined people. These confined people are not at the facility for the sole purpose of civil immigration, they have criminal charges. The auditor observed and reviewed the Civil Immigration information from the United States Department of State Consular Notification and Access Manual located in the confined person law library. A review of the manual has the following mailing address: Consular Notification & Access (CAN) -U.S. department of State, SA-17 12th Floor Washington, DC 20522-1712, and telephone numbers. It has information in different languages.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

This standard is rated met. The agency PREA Office went above and beyond by placing the following six PREA videos on all confined person Tablets. This gives the confined person 24 hours' access to the agency PREA education in the format that they understand. Informal conversation with confined people and staff indicated that all residents do not have a tablet.

- Deaf or hard of hearing: PREA video Adult Intake English (Sign Language and Captioned)
- Blind or have low vision - Facility can access the agency Braille Program (Good Quality of Sound of Videos)
- Speech Disabilities (LEP) - PREA video Adult Intake Spanish (Captioned) and Language Line Interpretative Services
- PREA Video Adult Intake English (Sign Language and Captioned)
- PREA Video Adult Intake English (Captioned)
- PREA Video Adult Intake Spanish (Captioned)

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility went beyond this standard requirement.

The provision requires that specialized training include techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Investigators are required to complete the National Institute of Corrections (NIC) online training "PREA: Investigating Sexual Abuse in a Confinement Setting" includes the following topics: Initial Response, Investigation, Determination of the findings, A Coordinated Response, Sexual Assault Response Team, A Systemic Approach, How Sexual Abuse Investigations Are Different, How Investigations in Confinement Settings Are Different, Criteria for Administrative Action, Criteria for Criminal Prosecution, Report Writing Requirements of an Administrative Report, Requirements for an Administrative Report, Requirements for a Criminal Report, The Importance of Accurate Reporting, Miranda and Garrity Requirement, Miranda Warning Considerations, Garrity Warning Considerations, The Importance of Miranda and Garrity Warnings, Medical and Mental Health Practitioner's Role in Investigations,

PREA Standards for Forensic Medical Examinations.

The interview with the Facility PREA Investigator describes the specialized training. At the end of the course, they can explain the knowledge, components, and considerations that an investigator must use to perform a successful sexual abuser or sexual harassment investigation. The topic included Techniques for interviewing, Proper use of Miranda and Garrity warning, Sexual abuse evidence collection, The criteria and evidence required to substantiate a case.

The interview with the Inspector General describes the specialized training. Online course provided by the National Institute of Corrections (NIC) - NIC.Learn.com. All agents take the "PREA": Investigating Sexual Abuse in a Confinement Setting", and "PREA: Investigating Sexual Abuse in a Confinement Setting: Advanced Investigations" courses. The training goes through the methodology of conducting sexual abuse/sexual harassment investigations, evidence collection methods and requirements, interview techniques, Miranda and Garrity and provides examples of different investigations within prisons.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.35 (b)

The provision requires that if medical staff employed by the agency conduct forensic examinations, such medical staff shall receive the appropriate training to conduct such examinations.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed Medical Staff reported that the facility does not conduct forensic

examinations. This process is handled by the local hospital.

115.35 (C)

The provision requires that the agency maintain documentation that medical and mental health practitioners have received the training referenced to this standard either from the agency or elsewhere.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The training documents, including training certificates and the interviews with medical and mental health staff confirmed receipt of the NIC required training.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.35 (d)

The provision requires that medical and mental health care practitioners also receive the training mandated for employees under standard 115.31 or for contractors and volunteers under standard 115.32, depending upon the practitioner's status at the agency.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Confirmed by SCDC Form 19-181, NIC Training Log Medical and Mental Health staff are required to take two classes. "Medical PREA 201 - both groups take, and they take the course for their specific group, medical or mental health. Medical and Mental Health staff completed the general PREA training that is provided for all staff members. Medical staff received specialized training regarding sexual abuse and sexual harassment. Compliance Determination by Provisions and Corrective Actions:

115.41 (a)

The provision requires that all confined people be assessed during intake screening and upon transfer to another facility for their risk of being sexually abused by other confined persons or sexually abusive toward other confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 4. Screening for Risk of Sexual Victimization and Abusiveness Section 4.1 - All inmates will be screened for risk vulnerability/abusiveness consistent with SCDC Policy OP-21.04, Inmate Classification Plan, and the National PREA Prison and Jail Standards requirements within seventy-two (72) hours of arrival at each institution and before permanent placement decisions and assignments are made. All institutions will use the SCDC PREA Screening Application.

The PREA compliance manager confirmed that the medical staff are responsible for conducting the initial risk screening and the intake staff are responsible for conducting intake orientation, PREA education and reassessments. This was further corroborated by the auditor reviewing the PREA Risk Screening User Guide. On page 3 it states that "Offenders should have their initial assessment at R&E within 72 hours of entry and they receive a reassessment within 30 days (for a total of two assessments). Medical conducts the first screening and intake/classification staff conducts the reassessments."

SCDC Policy OP-21.04 Inmate Classification Plan section 5.1 Preliminary Medical Examination: During the receiving and screening phase at the Reception and Evaluation Center, medical staff will screen the incoming inmate within 72 hours, using SCDC Form M-14 and the historical portion of the R&E Physical in the automated medical record (AMR).

Site Review:

During the facility site review of the medical Department, the auditor had informal conversations with medical staff that confirmed the initial risk screening is conducted by medical. The auditor requested a medical staff that conducts initial risk screening to demonstrate the PREA screening process. Staff started by logging-in into the PREA screening software which is a computerized system and walked the auditor through the process. The screening process occurred in a medical office with the door closed. The auditor determined that the location of the screening ensured that as much privacy as possible is given to the confined people in discussing potential sensitive information.

To ensure that the screening staff ask confined persons questions in a manner that fosters and sets the confined persons at ease, the auditor requested and received a paper copy of the risk screening questions and selected three questions from the instrument. The three questions dealt with LGBTI. Staff demonstrated by using the three LGBTI questions (Are you gay or bisexual? Are you Transgender? Are you Intersex? The questions were rephrased by staff which was, how do you identify? This confirmed that the screening staff ask confined people about their sexual orientation and gender identity directly.

During the risk screening demonstration, staff explain that the PREA screening information is collected by the agency assessment instrument call PREA Screening Application "Vulnerability and/or Sexual Aggression Screening". The auditor reviewed a completed PREA Screening Application and at the bottom of the page was the computerized rating/score that determined the risk of a confined person being sexually abused or being sexually abusive. There are additional sources of information that are populated into the screening instrument to help determine risk levels that include additional medical and educational information.

Based on interviewed staff responsible for the initial PREA screening corroborate that confined persons are screened upon admission to the facility or transfer from another facility for risk of sexual abuse victimization or sexual abusiveness toward other confined persons using the PREA Screening Application.

Informal conversation with confined people during the site review reported that they were asked questions dealing with their sexual identity and it was not offensive.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic. Interviewed of these confined persons came to the facility within the past 12 months corroborate that when they first came to the facility, they were asked about whether they had been in jail or prison before, have ever been sexually abused, identify as being gay, lesbian, or bisexual, and if they think they might be in danger of sexual abuse at this facility. All reported they recall being asked these questions except for two, when probe they think they may have.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (b)

The provision requires that screening intake ordinarily takes place within 72 hours of arrival at the facility.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy Number GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 4. Screening for Risk of Sexual Victimization and Abusiveness Section 4.1 – All inmates will be screened for risk vulnerability/abusiveness consistent with SCDC Policy OP-21.04, Inmate Classification Plan, and the National PREA Prison and Jail Standards requirements within seventy-two (72) hours of arrival at each institution and before permanent placement decisions and assignments are made.

Based on the PAQ, the number of inmates entering the facility (either through intake of transfer) within the past 12 months whose length of stay in the facility was for 72 hours or more and who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility was 1114.

A documentation review of 40 confined persons was randomly selected by the PREA Auditor from the confined persons roster with SCDC, name, date assigned to facility, current housing, and bed assignments. The selected information was placed on a spreadsheet that included race, arrival date year, initial PREA screening date and reassessment date. The method the auditor uses to select the random confined persons was counted every six or seventh person per page. Copies of the individual documentation for each confined person assessments were reviewed and uploaded into the PREA system.

Confined persons documentation corroborate that these confined persons received the initial PREA screenings. Of the 40 confined people, all were within the required 72 hours.

Based on interviewing staff responsible for risk screening, it was reported that PREA screenings are completed within 24 hours of the confined people arriving at the facility. That the screening is always conducted within 72 hours as required by policy.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic.

Interviewed confined persons came to the facility within the past 12 months corroborate that when they first came to the facility, they were asked about whether they had been in jail or prison before, have ever been sexually abused, identify as being gay, lesbian, or bisexual, and if they think they might be in danger of sexual abuse at this facility. All reported they remember being asked these questions. When asked when, there was a variety of responses, a week, couple weeks, during classification or education.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (c)

The provision requires that assessments be conducted using an objective screening

instrument.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy Number GA-06.11 Prevention, Detection, and Response to Sexual Abuse/ Sexual Harassment 1.2.1.1 Intake screening will be conducted utilizing the PREA Screening Application. The PREA Screening Application "Vulnerability Assessment: Risk of Victimization and/or Sexual Aggression screening instrument" is a computerized system that assesses inmates objectively.

A review of the PREA Risk Screening Guide (PREA Screening Application "Vulnerability Assessment: Risk of Victimization and/or Sexual Aggression screening instrument) gives instructions on scoring. The score results are displayed at the bottom right, indicating the offender's level of risk. The tool asks open and closed ended questions, along with a variety of questions that address victimization and abusiveness.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (d)

The provision requires that the intake screening consider, at a minimum, the following criteria to assess confined persons for risk of sexual victimization: Whether the confined persons have a mental, physical, or developmental disability. The age of the confined persons. The physical build of the confined persons. Whether the confined people have previously been incarcerated. Whether the confined person's criminal history is exclusively nonviolent. Whether the confined persons have prior convictions for sex offenses against an adult or child. Whether the confined persons are or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming. Whether the confined persons have previously experienced sexual victimization. The confined person's own perception of vulnerability; and whether the confined persons are detained solely for civil immigration purposes.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

An analysis of the Screening for Risk of Sexual Victimization and Abusiveness PREA Screening Application "Vulnerability Assessment: Risk of Victimization and/or Sexual Aggression screening instrument, determined all factors required by this provision of the standard are included. Informal staff conversations confirmed they are aware of the elements of the risk screening instrument.

The auditor reviews the computerized PREA screening tool. The tool has a total of 29 questions. The questions that meet the criteria for assessment are as follows:

1. First time the person has been incarcerated (Adult Jail or Person, or Juvenile).
2. Is the inmate under 18 years old?
3. Are the inmate convictions solely non-violent?
4. Does the inmate have past convictions of committing a violent sexual offense?
5. Does the inmate have a mental health status?
6. Are you Gay or Bisexual?
7. Are you Transgender?
8. Are you Intersex?
9. Have you experienced sexual abuse that has never been reported?
10. Did sexual abuse happen in a prison, jail, juvenile facility, or any other detention facility?
11. Do you have a developmental disability?
12. Do you have a physical disability?
13. Have you ever been in protective custody because of the threat of sexual?
14. Do you have any reason to fear placement in the general population? If so, why?
15. Could others perceive the confined person to be gay or bisexual?
16. Could others perceive the confined person to be gender non-conforming?
17. Does the confined person have a slight physical build (i.e., Particularly thin for their height).

Based on interviewed staff responsible for PREA screenings corroborate that the above-mentioned areas are considered when conducting the screening. The process for conducting the initial screening involves asking a series of questions and completing a computerized screening. All the above-mentioned questions areas were covered in the screening tool which is conducted in the medical/intake staff office.

The facility does not house confined people solely for civil immigration purposes. This was corroborated by reviewing the confined person roster, conversations with the PREA Compliance Manager and warden. However, when a confined person enters the SCDC system for the first time, if they are of immigrant status it is enter into the Agency Central Office data base and facility can pull a list of civil immigrants. These confined people are not confined solely for civil immigration purposes, they have additional criminal charges.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (e)

The provision requires that the initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing confined persons for risk of being sexually abusive.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The PREA screening instrument considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse if known to the facility or agency. The auditor analyzed the PREA screening instrument and determined that the additional screening questions meet this provision's requirements.

1. Does the inmate have past convictions of committing a violent sexual offense?
2. Did sexual abuse happen in a prison, jail, juvenile facility, or any other detention facility?
3. Has the confined person ever been convicted for sexual abuse against a child?
4. Has this confined person ever been convicted for sexual abuse against an adult?
5. Aside from any convictions, does this confined person have one or more substantiated reports of institutional sexual abuse or sexual violence?
6. Do you have a history of committing sexual abuse?

Based on interviewed staff responsible for risk screening confirmed that the above-mentioned areas are considered when conducting the screening. The auditor analysis of the PREA screening instrument, and it was confirmed that the above-mentioned questions were covered in the screening tool.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (f)

The provision requires that within a set time, not to exceed 30 days from the confined person's arrival at the facility, the facility will reassess the confined person's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy OP-21.04 Confined Person Classification Plan 5 Initial Medical Assessment, Orientation, Intake, Assessment, and Referral's provision (5.1.5) Within 30 days of transfer, the Classification Caseworker/CPS will reassess the confined person's risk of victimization or abusiveness based upon any additional, relevant information received from the confined person's transfer using the automated PREA screening instrument.

Based on interviewed staff responsible for risk screening reported that the reassessments are completed within 30 days. The auditor reviewed a sample of 40 reassessments. Confined persons documentation corroborates that all 38 confined

persons received the initial PREA screenings.

The facility is aware that if requested by DOJ they would provide additional raw data in detail from the computerized agency system to include all 29 questions and responses for the confined person. The auditor uploaded an example of the 29 PREA questions used for reassessments.

Based on interviewed staff responsible for risk screening reported that the reassessments are completed within 30 days. The auditor reviewed a sample of 40 reassessments. Of the 40, 38 reassessments were completed within the 30-day time frame

The facility is aware that if requested by DOJ they would provide additional raw data in detail from the computerized agency system to include all 29 questions and responses for the confined person. The auditor uploaded an example of the 29 PREA questions used for reassessments.

Most of the randomly confined people interviewed that came to the facility within the past 12 months reported that they did not know if staff asked them the reassessments questions again, after the initial assessment questions.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (g)

The provision requires that a confined person's risk level be reassessed when warranted due to referral, request, incident of sexual abuse, or receipt of additional information that bears on the confined person's risk of sexual victimization or abusiveness.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Policy requires that a confined person's risk level be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the confined person's risk of sexual victimization or abusiveness. Staff use the same initial PREA Screening Application "Vulnerability Assessment: Risk of Victimization and/or Sexual Aggression screening instrument questions to conduct the reassessments.

Based on interviewed staff responsible for risk screening reported that they reassess a confined person's risk level as needed due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the confined person's sexual victimization or abusiveness. This may be done 30 days, after 30 days or whenever.

A review of the reassessments included confined persons who have been victims or perpetrators of sexual abuse upon receipt of additional information.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (h)

The provision requires that confined people may not be disciplined for refusing to answer, or for not disclosing complete information in response to questions asked pursuant to paragraphs (d-1, 7, 8, 9) of this section.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The policy prohibits disciplining confined persons for refusing to answer the questions regarding: Whether the confined person has a mental, physical, or developmental disability. Whether or not the confined person is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming. Whether or not the confined person has previously experienced sexual victimization, and the confined person's own perception of vulnerability.

Based on interviewed staff responsible for risk screening corroborate that no confined persons are disciplined in any way for refusing to disclose or answer questions. They may place a note in a confined person's file or may reassess and enter the data into the computer system. This was also confirmed by the warden during the facility tour that confined people are not disciplined for refusing to disclose information.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.41 (i)

The provision requires that the agency implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard to ensure that sensitive information is not exploited to the confined person's detriment by staff or other confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The facility protects sensitive information through the computerized PREA screening system. The system is password protected. Staff that have access to the information

can be tracked by the time and date of access to information. The information is checked and is disseminated to key staff and any additional staff on a case-by-case basis.

During the facility site visit the auditor observed the physical storage area of any information/documentation collected and maintained as hard copy. The hard copies of the intake/classification, PREA screening and other confined persons documentation are kept in the confined person's files and maintained in a lock file cabinet in a location in the intake/classification area. The auditor observed confined person medical records storage in the medical records room in the medical building. The PREA investigations files were stored in the Associate Warden office under lock and key. There were no confidential confined persons information located in places where other confined persons or staff can review.

Informal conversation with staff during the tour confirmed that PREA sensitive information is password protected and each member of staff who has access has their own password that could be tracked by IT. This was confirmed during the medical staff that conducted the initial PREA screening used a password to access the system.

Based on interviewed PREA Compliance Manager corroborate that the facility has outlined who should have access to a confined person's risk assessment within the facility to protect sensitive information from exploitation. Medical, Mental Health, Operations, Classification, PREA Compliance Managers/Assistant PCM's the Acting PREA Coordinator's Office, Warden, and Assistant Wardens have access. Staff are instructed through PREA training that any information obtained is limited to a need-to-know basis for staff, and only for the purpose of treatment, security, and management decisions, information as housing, work, education, and programming assignments. Information is not to be indiscriminately discussed. The administration monitors and takes immediate action if any sensitive information is exploited.

Based on interviewed staff who perform PREA Screenings reported that the facility outlined who can have access to a confined person's risk assessment within the facility to protect sensitive information from exploitations. This includes the warden, associate wardens, majors, captain, counselors, medical, investigators and a need-to-know basis.

The interview Agency PREA Coordinator confirmed that the facility outlined who can have access to a confined person's sensitive information. The facility upper management, medical, mental health, and investigations.

The provision requires that the agency use information from the risk screening required by standard 115.41 to inform housing, bed, work, education, and program assignments with the goal of keeping separate those confined persons at high risk of being sexually victimized from those at high risk of being sexually abusive.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 4. Screening for Risk of Sexual Victimization and Abusiveness Section 4.2: Each institution's classification personnel will use the information obtained from the screening tool for vulnerability/abusiveness to help determine each confined persons housing, bed, program, education, and work assignment. Determinations for housing of confined people will be documented. Within thirty (30) days of the initial intake screening, a reassessment screening will be conducted by the institution's classification personnel as described in SCDC Policy OP-21.04, Inmate Classification Plan.

SCDC Policy Number OP-21.04 Inmate Classification Plan 5 Initial Medical Assessment, Orientation, Intake, Assessment, and Referral's (5.1.6). The Inmate PREA status is used when making decisions regarding cell assignments, job assignment, education, and program assignment. Inmates designated as PREA perpetrators will be kept to the extent possible from those designated as PREA victims.

The facility uses PREA information to make determinations for all confined people regarding housing, bed, work, education, and program assignments. The information is used to maintain separation between confined people at risk of being sexually victimized and confined people likely to commit sexual abuse. The facility's physical layout is also considered in the determinations of housing. The auditor confirmed the physical layout during the facility tour and reviewed the facility layout in the staffing plan.

The interviewed PREA compliance manager corroborates that the PREA risk screening application uses a scoring system depending on how a confined person answers the questions and it will provide a color-coding representing risk levels of victims and abusers. This information is used to keep the victims' ways from the abusers. A review of the PREA Risk Screening User Guide section PREA Risk Screening Score Information Appendix page 19 confirmed the color-coding along with reviewing the completed assessment with the computerized color coding at the bottom.

Male Offenders Victimization - Max Score:66

- Low Risk Score Range: 0 - 3 Color Coded Green
- Medium Risk Score Range: 4 - 9 Color Coded Yellow (Individualized Assessment)
- High Risk Score Range: 10+ Color Coded Red (Vulnerable)

Male Offenders Perpetration - Max: 27

- Low Risk Score Range: 0 - 3 Color Coded Green
- Medium Risk Range: 4 - 9 Color Coded Yellow (Case-By-Case Determination)
- High Risk Score Range: 10+ Color Coded Red (Risk as Perpetrator)

Interviewed staff who perform PREA screening corroborate that the initial PREA screening during intake is to keep confined persons safe from being victimized or from being sexually abusive. Staff indicated that it is up to the management and classification team to place confined persons in programs, work, and housing assignments. However, they do have input on assignments.

The facility is aware that if requested by DOJ they would provide additional raw data in detail from the computerized agency system to include all 29 questions and responses for the confined person. The auditor uploaded an example of the 29 PREA questions used for reassessments.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.42 (b)

The provision requires that the agency make individualized determinations about how to ensure the safety of each confined person.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy Number GA-06.11 Prevention, Detection, and Response to Sexual Abuse/ Sexual Harassment 1.2.1.3 Inmates who self-identify as Transgender or Intersex will be assessed and provided the minimally necessary accommodations on a case-by-case basis. For those inmates who self-identify as Transgender, information will be provided to the Agency's Multidisciplinary Management and Treatment Team (MMTT) for individualized case management and review.

Interviewed staff who perform PREA screenings confirmed that the facility uses information from the risk screening during intake to keep confined people safe from being sexually victimized or from being sexually abusive. Staff reported that the initial PREA screen is entered into the automated PREA Screening Application Tool. This tool processes the ratings which help to determine housing the confined persons will be assigned to programming, education, and work area.

Three Transgenders were interviewed by the auditor's non-certified support staff. They were asked, did staff here ask you questions regarding your safety? Two indicated staff did, and one indicated that staff did not know she was a transgender.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.42 (c)

The provision requires that in deciding whether to assign a transgender or intersex confined persons to a facility for male or female confined persons, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the confined persons health and safety, and whether the placement would present management or security problems.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy Number OP-21.04 Inmate Classification Plan section 5.5.1 On a case-by-case basis, the Gender Dysphoria Multi-Disciplinary Team will determine whether to assign a transgender or intersex inmate to an institution for male or female inmates. The placement decision will be based on the inmate's own views with respect to his or her health and safety, and whether such a decision will present a management or security problem.

SCDC Policy Number GA-06.11 Prevention, Detection, and Response to Sexual Abuse/ Sexual Harassment 1.2.1.5 Those inmates' cases that are brought before the Agency's MMTT will be discussed on a case-by-case basis with the intention of ensuring the inmates' health and safety, and whether the placement would present management or security problems.

SCDC Policy GA-06.09 Care and Custody of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria, Section 3. Housing of Transgender inmates and inmates Diagnosed with Gender Dysphoria 3.1 states, in deciding whether to house transgender inmate and inmate with gender dysphoria in a facility for male or females, and in making other housing decisions (bathroom and shower access) and programming assignments, the Multidisciplinary Management and Treatment Team will consult with the Division of Operations as well as central Classifications to create a plan with a reasonable outcome for the confined persons and institution as a whole. Safety concerns will be considered.

Interviewed agency Acting PREA coordinator confirmed that the agency ensures against placing lesbian, gay, bisexual, transgender, or intersex confined persons in dedicated facilities, units or wings solely based on their sexual orientation, genital status, or gender identity. SCDC has a Multidisciplinary Management and Treatment Team (MMTT) which make recommendations; however, classification makes decisions on which facilities would be most appropriate for placement of confined persons that identify as transgender or intersex, confined persons suffering from Gender Dysphoria, and intersex confined persons. Agency policy and classification system confirmed that LGBT confined persons are not placed in dedicated facilities, unit, or wings, solely based on their sexual orientation.

Interview with the Division Director of Classification & Inmate Records; Reception & Evaluation Center reported when a Transgender or Intersex confined persons enter the state agency Reception & Evaluation Center they are classified and send to a

permanent facility. The agency has a Multidisciplinary Management and Treatment Team Accommodation Plan. The plan meets monthly and cover Health Considerations, Committee Housing Recommendations, and Disposition of Request of the Transgender or Intersex. The following agency staff participate on the Multidisciplinary Management & Treatment and Evaluation Treatment Team Accommodation Plan: Legal and Compliance; PREA Coordinator; Classification & Confined Person Records; Legal Representative; Health Services; Behavioral & Mental Health Services and the Transgender Services Clinical Coordinator. The facility PREA Compliance Manager receives a copy of the confined persons Accommodation Plan when the Transgender or Intersex confined person is sent to their permanent facility.

Interviewed PREA compliance manager confirmed that the facility ensures placing LGBTI confined persons in dedicated housing units by using the initial PREA screening. The facility does not have dedicated housing for the LGBTI population.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.42 (d)

The provision requires that placement, and programming assignments for each transgender or intersex confined persons be reassessed at least twice each year to review any threats to safety experienced by the confined persons. Policy requires placement and program assignment of transgender and intersex confined persons are reassessed every six months to review any threats to safety experienced by the confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.09 Care and Custody of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria section 2.2 The Multidisciplinary Management Team will be made up of the following:

- Division Director for Behavioral/Mental Health & Substance Abuse Services.
- Assistant Deputy Director of Nursing.
- Chief Medical Doctor.
- Deputy Director for health Services or designee.
- Chief Psychiatrist or designee.
- Primary Care Clinician (s) Assigned to Work with the Offender, where appropriate.
- Prison Rape Elimination Act Coordinator.
- Deputy Director for Operations or designee.
- Deputy Director of Chief Legal and Compliance Officer or designee,
- Division Director of Classification and Inmate Records or designee.

The auditor requested a sample of the Multidisciplinary Management and Treatment Team Inmate Accommodation Plan that are used to document the Team review of the Transgenders or Intersex confined persons within the audit cycle. The facility did not have any Transgender within the past 12 months and is no longer at this facility.

Interviewed staff who perform PREA screenings corroborate that placement and programming assignments for each transgender or intersex confined persons reassessed each year to review any threats to safety experienced by the confined persons. The Transgender Services Clinical Coordinator meets with the confined person at the assigned facility. The Transgender Services Clinical Coordinator is also responsible for conducting the reviews of all Transgenders and Intersex confined persons.

Informal conversation with the PREA Compliance Manager confirmed that Transgender or intersex confined persons are reassessed by the Transgender Clinical Services Coordinator, and she comes to the facility to reassess the confined persons. There were no Transgender or intersex to confirm process with.

Interview with the Division Director of Classification & Inmate Records; Reception & Evaluation Center reported that the Transgender Services Clinical Coordinator is responsible for conducting the reviews of all Transgenders or Intersex confined persons and informing the Transgenders on the committee decisions. This was confirmed by the auditor's phone interview with the Agency PREA Coordinator.

115.42 (e)

The provision requires that a transgender or intersex confined persons own view with respect to his or her own safety shall be given thoughtful consideration.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 4.

Screening for Risk of Sexual Victimization and Abusiveness Section 4.6: Inmates who identify as transgender or intersex during confinement will have their own perceptions of safety and housing documented and considered on a case-by-case basis.

The auditor reviews the computerized PREA screening tool (PREA Screening Application "Vulnerability Assessment: Risk of Victimization and/or Sexual Aggression screening). The tool has a total of 29 questions. The questions that meet this provision of the standard are as follows:

1. Are you Transgender?
2. Are you Intersex?
3. Do you have any reason to fear placement in the general population? If so, why?
4. Have you ever been in protective custody because of the threat of sexual abuse?

Informal conversations with the associate warden confirmed that transgender or intersex confined persons views concerning his or her safety are given serious consideration. The auditor confirmed this by reviewing the MMTT accommodation plans in response to the transgender different concerns that may include their safety. Examples are the authorization to obtain medical compression shorts for support due to prior medical procedure. Gender preference of the staff member to conduct searches, male or female. The confined person's input is confirmed by his or her signature and date on the accommodation plan.

Interviewed PREA Compliance Manager corroborate that the transgender and intersex confined persons view with respect to his or her own safety are given serious consideration in placement and programming assignments. When the facility receives a transgender or intersex confined persons, the facility would meet with each transgender or intersex coming into the facility and the confined persons would be asked if they felt vulnerable and if so, what the facility might do to make them feel safer.

Three Transgenders were interviewed by the auditor's non-certified support staff. They were asked, did staff here ask you questions regarding your safety? Two indicated staff did, and one indicated that staff did not know she was a transgender. The safety includes housing, showing, work, and exercise.

Based on interviewed staff who are responsible for risk screening reported that a confined person's views on their own safety are considered specially when it comes to showering, using the toilet or housing.

115.42 (f)

The provision requires that transgender and intersex confined persons be given the opportunity to shower separately from other confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 4. Screening for Risk of Sexual Victimization and Abusiveness Section 4.8: Transgender and intersex inmate will be given the opportunity to shower separately from other inmates.

SCDC Policy GA-06.09 Care and Custody of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria, Section 3. Housing of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria 3.1 states, in deciding whether to house transgender inmates and inmates with gender dysphoria in a facility for male or females, and in making other housing decisions (bathroom and shower access) and programming assignments, the Multidisciplinary Management and Treatment Team will consult with the Division of Operations as well as central classifications to create a plan with a reasonable outcome for the confined person and institution as a whole. Safety concerns will be considered.

The facility has a practice in place that ensures transgenders and intersex-confined people are given the opportunity to shower separately. If a Transgender or Intersex do not feel safe showering in the individual shower stalls in the living units, they may request to shower after lockdown, intake, or medical area. Transgender or Intersex confined persons are given the opportunity to shower during facility count time when all confined persons report to their cells.

Site Review:

During the onsite review, the auditor observed the facility areas where confined persons may be in a state of undress, showers, toilet, and changing clothing. The areas observed were housing units, medical, intake cells/showers, recreation areas and visitation shake-down room. The showers are in a community area with individual stalls. The toilets are in each cell of the confined person's rooms/cell (two-person cell).

Three Transgenders were interviewed by the auditor's non-certified support staff. They were asked, "Are you allowed to shower without other inmates? One Transgender indicated that she is allowed to shower in private. Two indicated that they shower once everyone is locked down.

Interviewed staff who perform PREA screenings Corroborate that the confined persons' views for their own safety would be given serious consideration. They also stated if the confined persons requested to shower separately because of safety and personal issues, the facility would strive to arrange that. Housing assignments for each transgender and intersex confined persons would be made, according to staff, based on the PREA assessment and the confined persons feelings regarding safety.

Informal conversation and interview with the PREA compliance manager corroborate that Transgender or Intersex confined persons are given an opportunity to shower separately from other confined persons, they are allowed to shower during count time.

115.42 (g)

The provision requires that the agency do not place lesbian, gay, bisexual, transgender, or intersex confined persons in dedicated facilities, units, or wings solely based on such identification or status, unless such placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy OP-21.04 Inmate Classification Plan 5 Initial Medical Assessment, Orientation, Intake, Assessment, and Referral's provision 5.1.7 Initial Housing of LGBT (lesbian, gay, bisexual, and transgender) inmate: Lesbian, gay, bisexual, transgender, or intersex confined persons will not be housed solely based on such identification unless placed for the purpose of protecting the inmates.

Interviewed Agency Acting PREA coordinator confirmed that the policy and agency practice do not have dedicated facilities, units, or wings solely for LGBTI confined persons. To house transgenders or intersex, the agency uses the Multidisciplinary Management and Treatment Team (MMTT) to make recommendations on what facility to house this population. It is noted that the Agency Acting PREA coordinator serves as the chairperson for the agency MMTT committee.

The auditor requested any consent decree, legal settlement, or legal judgement requiring the facility to establish a dedicated facility, unit, or wing for LGBTI confined persons, and any documentation of housing if there were a consent decree, legal settlement, or legal judgement. The PREA compliance manager confirmed none.

The auditor further confirmed by conducting an internet search for consent decrees, legal settlements, and legal judgements for this facility. The search results were none founded.

Three Transgenders were interviewed by the auditor's non-certified support staff. They were asked, have you been put in a housing area only for transgender or intersex inmates? And do you have any reason to believe that you were strip - searched for the sole purpose of determining your genital status? Three indicated that they are house in regular population. One indicated she has not had any issues with being strip search, and two indicated that they have not been targeted for strip search because they are Transgenders.

Six confined individuals were interviewed by the auditor's support staff. Five identified as Gay, Lesbian, and one as Bisexual. They were asked if they were housed in separate areas for LGBTQ+ individuals. All six stated they are housed in the general population.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 4.

Screening for Risk of Sexual Victimization and Abusiveness Section 4.3: Consistent with SCDC Policy OP-21.04, Confined Person Classification Plan, inmates at risk for possible abuse may be placed in isolation only as a last resort, when less restrictive measures of protection are not available and then only until an alternative means of keeping all inmates safe can be arranged.

Based on a review of information the facility provided in the PAQ, the number of confined persons at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months for one to 24 hours awaiting completion of assessment: 0. In the past 12 months, the number of confined persons at risk of sexual victimization who were assigned to involuntary segregated housing for longer than 30 days while awaiting alternative placement: 0.

Conversation with staff confirmed that confined persons at high risk for sexual victimization will not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If an assessment cannot be conducted immediately, the confined persons may be held in involuntary segregation for less than 24 hours while completing the assessment.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.43 (b)

The provision requires that confined people placed in segregated housing for this purpose have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document: The opportunities that have been limited. The duration of the limitation and the reasons for such limitations.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Conversation with staff who work in Restricted Housing and review of the segregated documents indicated that confined persons are placed in segregated housing related to PREA and have access to 1. Daily confined persons Evaluations - responsible for conducting daily cell inspections. 2. Programs - allowed access to meaningful programs and services. 3. Religious Programming - requests to see a Chaplain will receive prompt response. 4. Medical Care - Qualified healthcare personnel will be

required to visit. 5. Mental Health. 6. Access to Legal Materials. 7. Recreation. 8. Visitation 9. Correspondence Privileges 10. Personal Telephone Calls 11. Legal Telephone Calls, 12. Canteen Purchases.

115.43 (c)

The provision requires that the facility assign confined people to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days.

Compliance Determination:

The facility has demonstrated compliance with this provision for the standard because:

SCDC Policy OP-22.23 section 5.1 - inmates must be provided with a review within seven (7) calendar days of their initial placement in Protective Concern. The inmate will appear before the IPCC to justify or discuss his/her placement into Statewide Protective Custody housing. If placement in state protective custody is recommended, at least one (1) of the following elements must be established by the IPCC for the confined person request to be considered valid.

Site Review:

During the facility site review the auditor confirmed by reviewing the Restricted Housing Visit Log. The Restricted Housing Visit log confirmed that the upper-level management and supervisors conducted rounds.

The interviewed warden confirmed that confined persons at high risk of sexual victimization or who have alleged sexual abuse are placed involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged. When involuntary segregated housing assignment is made, an incident report is completed documenting the following information: the basis for concern for the confined person's safety and the reasons why no alternative means of separation can be arranged. A review is conducted every 30 days to determine the continuing need for separation from the general population.

Interviewed staff who supervise confined people in segregated housing reported that if confined people are placed in involuntary segregated housing, they are there until an alternative means of separation from the abusers can be arranged. The stay may be up to 30 days.

115.43 (d)

The provision requires that if an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, the facility clearly documents: The basis for the facility's concern for the confined person's safety; and the reason why is no alternative means of separation can be arranged.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Conversation with the facility PREA compliance manager reported, if an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section the facility clearly documents using the Protective Concerns Documentation (SCDC Form 19-47) and incident report (SCDC Form 19-29). If an involuntary segregated housing assignment is made, an incident report is completed documenting the following information: the basis for concern for the confined person's safety and the reasons why no alternative means of separation can be arranged.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.43 (e)

The provision requires that every 30 days, the facility affords each such confined persons a review to determine whether there is a continuing need for separation from the general population.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy OP-22.23 section 2.4 - If placement in Protective Custody is approved by the warden/duty warden or approved designee the inmates will be transferred to available Short Term (ST) bed space for a period of up to seven (7) calendar days for further investigation.

Compliance Determination by Provisions and Corrective Actions:

115.51 (a)

The provision requires that the agency provide multiple internal ways for confined persons to privately report sexual abuse and sexual harassment, retaliation, by other confined persons or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), Inmate Reporting Section 5.1: Inmates Reporting: Inmates incarcerated in an SCDC institution will have multiple ways of reporting actual or suspected acts of sexual abuse or sexual harassment. Inmates may make a report by utilizing the inmates phone system to call in an allegation by dialing *22 or write or make a verbal report to any agency employee volunteer, intern, or contractor. Inmates may also utilize the kiosk system to write to the South Carolina Law Enforcement Division (SLED) or ask a family member or friend to file a report on their behalf through the PREA Tips page on the Agency's public website at <http://www.doc.sc.gov/preaweb/>.

The agency provided each facility with PREA Brochure for Males in English and Spanish and for Females in English and Spanish. These brochures were developed with the assistance of Just Detention International. This project was supported by Grant No. 2013-RP-BX-0001 awarded by the Bureau of Justice Assistance. The Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. The Brochure Title, Let's Talk About Safety - SCDC has Zero-Tolerance for Sexual Abuse and Harassment. Topics included, Safety Talk, a Week Later; Staff, Contractors, Volunteers, and Confined Persons Cannot...; How Can I Get Help? Support and Additional Information; You Have the Right to...; Things to Remember. There is a place on the back for local information.

The agency/facility has multiple internal ways for residents to privately report sexual abuse, sexual harassment, retaliation by other confined persons or staff for reporting

sexual abuse and sexual harassment, and staff violated their responsibilities that may have contributed to the sexual abuse. Internal ways to report: Use the PREA hotline, file a grievance, file a report for medical requests and ask for help, with confined person lawyer, a friend or family member to request help. Report to a volunteer or contractor. Writing an anonymous note.

Site Review:

During the site review,

- The auditor observed the facility signage regarding the PREA Audit Notices which were posted throughout the facility and were visible to staff, people confined in the facility, and visitors. The notice was posted in the living units, common areas, facility entrance and visitation areas, and staff break areas. The information is provided in English and Spanish and is legible.
- The auditor observed the facility signage regarding access to outside confidential (emotional support services *63) information was posted in all areas frequented by persons confined in the facility, including housing/living units. This information is posted near the phones.
- The auditor observed the facility signage regarding how to report sexual abuse and/or sexual harassment (external and internal reporting) posted in persons confined in the facility housing/living units, programming areas and visitation area. The information is provided in English and Spanish and is legible.
- Informal conversation during the tour indicated that confined persons have access to writing instruments, paper, and forms to report through the facility canteen.
- The auditor observed how mail moves from person of confinement to the facility mailroom. It starts with the person in confinement placing the mail in a lock drop box which was located where confined people have access. The drop box is only accessible by designated staff.
- The auditor tested the facility systems by which persons confined in the facility can report sexual abuse and/or sexual harassment electronically via kiosk, tablet, phones, and internal grievance process or written format. The auditor requested that confined people demo the steps of reporting by kiosk, tablet, and phones. There was also informal conversation regarding where and who received the reports.
- The facility has a copy of the U.S. Department of State Consular Notification and Access on file for resident who are listed as foreign national (consular information). This information is in the law library.

A review of the investigation files confirmed that the agency ensure that an administrative and/or criminal investigation is completed for all allegation of sexual abuse and sexual harassment. The total number of sexual abuse and sexual harassment investigations for the past 12 months 43. Number of staff-on-resident sexual abuse classified by facility investigations 9; Number of staff-on-resident sexual harassment classified by facility investigations 3; Number of residents-on-residents

sexual abuse classified by facility investigations 10; Number of residents-on resident's sexual harassment classified by facility investigations 11. Total number of on-going cases 2; Total number of referred to prosecution 2; and Total number of terminated staff or contractors 2. The total of staff or contractors resigned 0; The total number of investigation files the auditor reviewed was 13. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. Staff reported that the confined persons can privately report sexual abuse or sexual harassment by using hotline number *22, their tablets, Kiosk, grievance, speak to staff or notify family, or friends. Some staff indicated *63, it was explained that *63 is for emotional support services and if confined person reports the outside agency will report to the Agency PREA Coordinator. The reports can be made verbally or in writing. All interviewed reported that if a confined person makes a report verbally or in writing, regarding sexual abuse or harassment, the allegations are responded to immediately and they would immediately document the allegation.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic. Interviewed confined persons could describe more than one way they could report sexual abuse, sexual harassment, or retaliation if they needed to. The ways were: confined persons reported filing a grievance, using the facility kiosk, reporting thru their tablet, request to visit medical and ask for help, tell their lawyer, a friend, or family member for help, dial *22 from any confined person phone located each living units (PREA reporting line set up by the SCDC to leave a message regarding any violation in the facility). Call Sexual Assault Hotline or Dial *22 to report sexual abuse or sexual harassment (for reporting). *63 for emotional support services.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.51 (b)

The provision requires that the agency also provide at least one way for confined persons to report abuse or harassment to a public or private entity or office that is not part of the agency, and that is able to receive, and immediately forward confined persons reports of sexual abuse and sexual harassment to agency officials, allowing the confined persons to remain anonymous upon request. People who are confined to providing solely for civil immigration purposes shall be provided with information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Conversation during the facility tour confined persons reported the following are ways they can report sexual abuse or sexual harassment to public or private entity. Use the PREA hotline to outside entities, report to a confined person, lawyer, a friend or family member to request help. The confined people can report to any outside third party.

The facility does not house confined people solely for civil immigration purposes. However, if they did, the facility would notify any confined persons detained solely for civil immigration purposes about how they can access immigrant services agencies and provide mailing addresses and regular and toll-free telephone numbers which is in the law library.

Interviewed facility PREA compliance manager reported that confined persons have the following ways to report sexual abuse or sexual harassment to a public or private entity or office that is not part of the agency is South Carolina Law Enforcement Division (SLED). Any confined person can write to SLED to make a report outside of the facility and can choose to remain anonymous. If they can tell a friend or family member to use the SCDC Anonymous PREA Tips website, Legal Counsel, Attorney Visits, Legal Correspondences, Grievance Process (Mail outside).

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic.

Fifteen confined persons reported that they are allowed to make a report of sexual abuse or sexual harassment without having to give your name. Five reported that they did not know that they could make an anonymous report. The auditor's assistant explains that they can report without giving their names or they can stay anonymous.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic.

Most of the confined persons reported that there is someone who does not work at this facility who they could report to about sexual abuse or sexual harassment, by telling other family members, like mother, father, brother, sister, telling a friend, a lawyer or call the hotline.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.51 (c)

The provision requires that staff accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), Inmate Reporting Section 5.2: Consistent with SCDC policy, all employees, contractors, and volunteers are mandated to report any knowledge of alleged, communicated, or suspected abuse of an inmates immediately as per SCDC Policy GA-06-11, Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, SCDC Policy ADM-11.34, Employee- Inmates Relations; SCDC Policy ADM-11-39, Staff Sexual Misconduct with inmates; and the SC Employee Code of Ethics.

The facility mandates that staff accept reports of sexual assault and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff are required to document verbal reports immediately, but always before leaving the shift. Staff can report sexual abuse and sexual harassment, privately and the agency informs staff through shift briefing, management meetings and PREA training.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. Staff reported that confined persons could make a report of sexual abuse or sexual harassment verbally, in writing, anonymously, and through third parties. And they would immediately respond to allegations, contact supervisor, and complete an incident report. Staff indicated that verbal reports would be documented ASAP, but before the end of the shift.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic.

Interviewed confined persons report that they could make a report sexual abuse or sexual harassment in person or in writing. They also reported that they could ask a friend or relative to make a report for them so they could remain anonymous. Some reported they have family they could report to so they could remain anonymous.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic. Twenty confined people reported that they have not reported to the authorities in person or in writing that they were sexually abused at this facility.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.51 (d)

The provision requires that the agency provide a method for staff to privately report sexual abuse and sexual harassment of confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA). Inmate Reporting Section 5.3 Employees, Volunteers, Contractors, or anyone who has knowledge of alleged, communicated, or suspected abuse can report anonymously to SCDC via SCDC’s public PREA website at <http://www.doc.sc.gov/preaweb/>.

Informal conversation with staff during the tour indicated that staff can privately report sexual abuse and sexual harassment by use the PREA hotline or using a third-party.

Twelve random staff were interviewed by the auditor’s non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. The random staff representing staff from all shifts. Staff reported that they can privately report sexual abuse and sexual harassment of confined persons by using the hotline number, notifying supervisor, the Warden, the facility PREA Compliance Manager or notifying the Agency PREA Coordinator. All the interviewed staff could also articulate at least one method in which staff could make a private report. Most staff reported they would notify their supervisor. Privacy would occur by discussing away from others.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility is compliant with all provisions in this standard.

Compliance Determination by Provisions and Corrective Actions:

115.52 (a)

The provision requires that an agency be exempt from this standard if it does not have administrative procedures to address a confined person's grievances regarding sexual abuse.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-01.12 Inmates Grievance System section 15.2.6 states that the inmates Grievance Coordinator (IGC) will not investigate allegations of a violation of PREA. A copy of any grievance alleging PREA violations will be provided to the PREA Compliance Manager within 24 hours of receipt for investigation and providing recommended responses to grievances. The PREA Compliance Manager will maintain a copy of the grievance and maintain a log of PREA allegations grievances.

The agency/facility has an administrative process to address confined person's grievances regarding sexual abuse.

The facility PREA compliance manager provided the auditor with copies of the PREA Compliance Manager Management Training Minutes. One of the agenda topics: Grievance transferal Memo/Grievance Routing Slip. SCDC Form 19-190, Grievance Transferal Memo: This is the form that the institutional Grievance Coordinator will forward to the PCM (along with the actual grievance) that is a PREA-related grievance. The Grievance Office cannot investigate PREA related grievances, and the PCM must

interview the confined persons, and provide PREA Coordinator@doc.sc.gov with documentation. All allegations must come to PCM so that a case can be opened and will follow all the same protocols as every other allegation.

Informal conversation with the PREA compliance manager reported that any Sexual Abuse or Sexual Harassment submitted through the Grievance System the grievance coordinator picks it up and it is immediately forward to PREA investigations for actions. This ends the grievance process and begins the PREA investigation process.

A review of the investigation files confirmed that the agency addresses confined person grievance through the PREA investigation process. The auditor reviewed documentation from the investigation files. Of the 13 cases reviewed: Confined Person Grievance - 0; Grievance Transferal Memo - 0; and PCM confined persons Grievance Review Routing Slip - 0. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.52 (b)

The provision requires that the agency does not impose a time limit on when a confined person may submit a grievance regarding an allegation of sexual abuse. The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse. The agency shall not require a confined person to use any informal grievance process, or to otherwise attempt to resolve with staff an alleged incident of sexual abuse. Nothing in this section should restrict the agency's ability to defend against a confined person's lawsuit on the grounds that the applicable status of limitations has expired.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-01.12 Inmates Grievance System section 15.2.1 states, there will be no time frame for filing a grievance alleging sexual abuse. The inmates will not be required to attempt any informal resolution.

The facility does not impose a time limit on when a confined person may submit a grievance regarding an allegation of sexual abuse. Confined people can submit grievance any time regardless of when the incident is alleged to have occurred. According to staff interviews, the facility does not require a confined person to use any informal grievance process as it relates to PREA, or to attempt to resolve the issue with staff, for an alleged incident of sexual abuse.

SCDC permits confined persons to submit a grievance regarding an allegation of sexual abuse without any type of time limits. SCDC refrains from requiring a confined

persons to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse and sexual harassment.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.52 (c)

The provision requires that the agency ensures that: A confined persons who alleges sexual abuse may submit grievance without submitting it to a staff member who is the subject of the complaint, and such a grievance does not refer to a staff member who is the subject of the complaint.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), Inmate Reporting Section 5.5: Consistent with SCDC Policy GA-01.12, Inmates Grievance System, the Grievance Branch will ensure that grievance receptacles are available and secure in all institutions. Inmates will not be required to give grievance to any staff member who is subject to the complaint. Inmates may also file grievances through an available kiosk or provided mobile device.

The agency ensures that a confined person who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint. Confined people can submit a grievance through a grievance box.

All grievances are picked up on a daily basis, during normal working hours, by an employee designated by Warden. All grievances are numbered and entered in the automated system within three working days by an employee designated by Warden.

During the facility site review conversation with the confined persons reported that they turn their grievance in using the grievance box.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.52 (d)

The provision requires that the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), Inmate Reporting Section 5.6: The Institutional PREA Compliance Manager (PCM) will notify the inmates of the process of the investigation when provided the information from the assigned investigator, consistent with SCDC Policy OIG-23.01, Investigations. The investigator assigned to the allegation will ensure that PCM is notified of the investigation after receiving the allegation.

Informal conversation with the facility PREA manager reported if confined persons report a sexual abuse or sexual harassment through the grievance process, the grievance coordinator immediately forwards the grievance to the facility PREA Investigator to be investigated. This process ends the grievance process and begins the investigation process. All grievance timeframes are met.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.52 (e)

The provision requires that third parties, including fellow confined persons, staff members, family members, attorneys, and outside advocates, shall be permitted to assist confined persons in filing request for administrative remedies relating to allegations of sexual abuse, and shall also be permitted to file such requests on behalf of confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), Inmate Reporting Section 5.7: Anyone who has knowledge of the alleged event may also assist the inmates with filing a grievance, file a report on behalf of the alleged victim, or file a report themselves.

If a third-party report on behalf of a confined person, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.

If the confined person declines to have the request processed on his or her behalf, the agency will document the confined person's decision.

Informal conversations with the PREA compliance manager reported that third parties include individuals such as fellow confined persons, staff members, family members, attorneys, and outside advocates, are all permitted to assist confined persons in filing

requests for administrative remedies relating to allegations of sexual abuse.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.52 (f)

The provision requires that the agency establish procedures for the filing of an emergency grievance alleging that a confined person is subject to a substantial risk of imminent sexual abuse.

Confined persons who report a sexual abuse or sexual harassment through the grievance process, the grievance coordinator immediately forwards the grievance to the facility PREA Investigator to be investigated. This process ends the grievance process and begins the investigation process. All grievance timeframes are met.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

After receiving an emergency grievance alleging a confined person is subject to a substantial risk of imminent sexual abuse, the agency will immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken.

SCDC has established documented procedures for the filing of an emergency grievance alleging that a confined person is subject to a substantial risk of imminent sexual abuse.

Informal conversation with the PREA compliance manager reported after receiving an emergency grievance alleging a confined persons are subject to a substantial risk of imminent sexual abuse, SCDC immediately would forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to investigations and/or a level of review at which immediate corrective action may be taken.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.52 (g)

The provision requires that the agency may discipline a confined person for filing a grievance related to alleged sexual abuse only where the agency demonstrates that the confined persons filed the grievance in bad faith.

	<p>Compliance Determination: The facility has demonstrated compliance with this provision of the standard because:</p> <p>Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of confined persons grievances alleging sexual abuse resulted in disciplinary action by the agency against the confined person for having filed the grievance in bad faith: 0.</p> <p>SCDC Policy: GA-01.12 Inmates Grievance System states that the agency may discipline an inmate for filing a grievance related to the alleged sexual abuse if there is evidence that the inmate filed the grievance in bad faith.</p> <p>Staff indicated that the facility may discipline confined persons for filing a grievance related to alleged sexual abuse when the confined persons filed the grievance in bad faith.</p> <p>Corrective Actions: N/A. Compliance Determination by Provisions and Corrective Actions:

115.53 (a)

The provision requires that the facility provide confined persons with access to outside victim advocates for emotional support services related to sexual abuse by giving confined persons mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies. The facility shall enable reasonable communication between confined people and these organizations and agencies, in as confidential a manner as possible.

Compliance Determination:

The facility demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), Inmate Reporting Section 5.9: Inmates will have access to available outside victim advocates for emotional support. Information for advocacy centers will be provided throughout all SCDC institutions and as a part of the inmate orientation program in all correctional institutions.

SCDC has a Statewide Partnership with Sexual Assault Centers. The 10 sexual assault centers serve the counties where SCDC prisons maybe located. Confined persons at any facility can call the appropriate sexual assault center for their region simple by dialing *63 on the inmate phone. This call is not recorded, and the confined person does not have to put in his/her Inmate Personal Identification Number (PIN) to make the call. If a confined person chooses not to call, the confined persons are provided the mailing address of the sexual assault center as an alternative. All statewide Partnership with Sexual Assault Centers provides counseling and work with confined persons needs victim advocacy services.

As a part of the PREA Education process confined persons are informed that their tablet is format to call emotional support services *63 at any time.

Documentation in the investigation files corroborate that 13 confined persons who alleged sexual abuse or sexual harassment were given additional information regarding outside emotional support services during the investigation process. The Additional Information and Support Service states: If you'd like to speak with someone for emotional support, you can request to meet with someone from the Behavioral/Mental Health and Addictions Recovery Services. For additional emotional support services/information, you can contact Pathway to Healing, an outside community organization dedicated to providing services to survivors of sexual abuse. Trained counselors can be reached through the inmate phones by dialing #63. Calls are free and confidential. You can also write to 3830 Forest Drive-Suite 201 Columbia, SC 29204. The mail sent to the following address will not be opened by SCDC staff and does not require postage. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file reviewed.

PREA requires the auditor to conduct outreach to relevant national, state, and local advocacy organizations. The outreach is to communicate with community-based or victim advocates who may have insight into relevant conditions and outside services provided to the residents. On September 11, 2024, the auditor contacts Just Detention International (JDI) by email. The Senior Operations Officer on September 11, 2024, responded. The email stated that a review of our (JDI) database indicates that the agency has not received any information regarding the facilities submitted.

Site Review:

During the facility site review the auditor observed PREA posters on the wall. The posters observed was Auditor PREA Notice of the upcoming PREA audit; PREA Brochure- Let's Talk About Safety SCDC Zero Tolerance of Sexual Abuse and Sexual Harassment; PREA Poster - Reporting PREA Externally (South Carolina Law Enforcement Division (SLED)); Poster - How to Report Sexual Assault/Harassment; PREA flyer - Zero Tolerance Against Sexual Abuse/Sexual Harassment; and Wall Painting of PREA. The outside emotional support services are on the Pathway to Healing 3830 Forest Drive-Suite 201, Columbia, SC 29204. This information was continuous throughout the facility to included posting near the phones in the housing units, medical, Education, Dinning Hall, Common areas, Visitation, front entrance, and the Intake area. The posters and brochures are eligible, has the outside toll-free

numbers.

The auditor observed how mail moves from confined persons to the facility mailroom. It starts with the confined persons placing the mail in a lock drop box which is located where confined persons have access in front of the dining hall. The drop box is only accessible by designated staff. The auditor visits the mailroom and has an informal conversation with a mailroom clerk that confirmed sending and receiving PREA confidential mail is treated as legal mail.

In each of the living units, the confined people had access to eight telephones and three kiosks. The auditor tested the phones by picking up the receiver and listening for a dial tone. Random phones were checked to ensure that the confined persons have access to Palmetto Citizens Against Sexual Assault, that provides the local emotional rape crisis support services. The auditor received a dial tone, press #63 then a message to press 1 for English or 2 for Spanish. The auditor pressed the number, and the call went to the outside agency. The staff from Palmetto Citizens Against Sexual Assault answered the phone. It was not required for the person confined to enter a personal ID PIN. The call was unmonitored. A review of the Palmetto Citizens Against Sexual Assault flyer includes a statement to inform confined persons that the PREA calls are unmonitored. The locations of the phones did provide some privacy for the confined person.

The Confined persons that are in Restricted Housing Unit (RHU) have access to the outside victim advocates for emotional support service through the “rolling phone” with instructions *63. This was confirmed during the auditor’s site visit.

Informal conversations with confined people during the tour corroborate that they are aware of the outside emotional support services painted on the walls and posters, however, they never used it.

The auditor confirmed the outside emotional support services by contacting the Executive Director on December 28, 2024, at 10:31am. It was confirmed that the MOU is still active. It has not been terminated by either party. The MOU is updated every 5 years. The Pathway to Healing staff confirmed that the confined person can and have contacted them for emotional support services through the facility toll free PREA line *63. Most of the services provided by Pathway to Healing are coping skills, listening, confined people want someone to talk regarding sexual abuse and other issues.

The facility does not house confined people solely for civil immigration purposes. The auditor requested a list of confined people that requested consular notification. The agency central office provided a list of 11 confined people. These confined people are not at the facility for the sole purpose of civil immigration, they have criminal charges. The auditor observed and reviewed the Civil Immigration information from the United States Department of State Consular Notification and Access Manual located in the confined person law library. A review of the manual has the following mailing address: Consular Notification & Access (CAN) -U.S. department of State, SA-17 12th Floor Washington, DC 20522-1712, and telephone numbers. It has information in different languages.

The auditor observed PREA information in the control booth located in each of the housing units. The PREA Auditor notices that the confined persons and staff were posted in the control booth. Some were posted on the door of the control room booth.

Staff and confined person informal conversations during the tour indicated that confined persons confirmed having access to writing instruments, paper, and forms to report. They use them in education, library, and programs as well as during free time in the living units. Staff indicated that confined people could request them from staff.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic.

Eight reported that they were aware of services available outside of the facility for dealing with sexual abuse if they needed it. However, some reported that they see the outside emotional support services posters, but they never had to use it. The kind of services reported ranges from victim advocate, counseling, PREA for advocate, emotional support services, and rape counseling. Most of the confined people said that mailing addresses and phone numbers were given to them by pamphlet or on posters. The confined persons reported that the kind of services provided was victim services, rape counseling crisis, some said they were not sure because they never call or did not read the information. Most of the confined people said the outside services numbers were free, and some said they did not know because they never used it. Most of the confined people reported that they think they can talk with outside service at any time when they are out of their cells.

Twenty individuals in confinement were interviewed by the auditor's support staff, using the PRC random sample questionnaire for confined individuals. Among them, fifteen were Black, five were White, and none were Hispanic.

Confined people were asked, do you know what you say to people from these services remain private? Interview confined people give a variety of responses: don't know never use the services, it's confidential unless you report a crime, danger, if someone is hurt, or in trouble. They also said that the services can tell someone else about what they talk about: when they give permission, PREA information, unsafe conditions, agree to share, their approval, give consent and verbal consent.

During the onsite visit, there were no confined people who reported sexual abuse to interview. The auditor verified this through PAQ data analysis and reviewing documents like investigation reports, incident reports, and resident rosters.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.53 (b)

The provision requires that the facility inform confined people, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), Inmate Reporting Section 5.10: Any monitored communications of inmates, recording or live listening of conversations with advocacy centers, will be expressed to inmates and/or others prior to authorization for use.

The facility informs confined people through a flyer prior to communicating with outside organizations that phone calls (not the PREA numbers) may be monitored and that reports of sexual abuse or sexual violence will be forwarded to authorities by mandatory reporting laws.

The facility flyer corroborates that the Pathway to Healing, How to Access Emotional Support Services for Survivors of Sexual Abuse dial *63 for the confined phone to reach trained counselors' flyer that the call is not recorded, and you do not have to put in their confined person Personal Identification Number (PIN) to make the call. Calls are free and confidential.

Most of the interviewed confined people reported that they did not know if their conversation would remain private because they never use outside services. Some say that they think their conversation would remain private unless they reported a crime. However, the auditor support assistance remind them of the Palmetto Citizens Against Sexual Assault outside emotional support services flyer states, "call are free and confidential".

Interviewed PREA compliance manager corroborate that the confined persons are informed at orientation and by Medical and Classification staff when completing the PREA Screening Application the extent to which reports of abuse will be forwarded to authorities as mandated reporters.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.53 (c)

The provision requires that the agency should maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide confined people with confidential emotional support services related to sexual abuse. The agency shall maintain copies of agreements or documentation showing attempts to enter into such agreements.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 2. Responsive Planning Section 2.7: The Agency's PREA Coordinator will attempt to make available written Memorandum of Understanding /Agreement's with local/ regional Rape Crisis Centers to provide emotional support services. Such attempts will be documented through written memorandums and retained for monitoring purposes.

The facility/agency maintains a memorandum of understanding (MOU) or other agreements with community service to providers that can provide confined persons with emotional support services related to sexual abuse. Informal conversations with the PREA compliance manager confirmed the facility have an agreement with outside emotional support services for confined people. The agreement is documented as required and a copy of the agreement is maintained in the PREA Compliance Manager's office.

Contact: Sexual Trauma Services of the Midlands/The Pathway to Healing 3830 Forest Drive -Suite 201, Columbia, SC 29204

On December 28, 2024, at 10:31am the auditor received an email from the Executive Director. The auditor reaches out several times by phone. The email was in response to communications and written questions sent to the Executive Director on December 18, 2024, at 9:41 am regarding the Wateree and Turbeville CI PREA audit. The Executive Director indicated that they have a current and active MOU with the Wateree Turbeville CI with an attached MOU. The Pathway to Healing has provided emotional support services to confined people within the past 12 months and provided a total number for all confined people for several different facilities and community. She also indicated that confined people could remain anonymous, and communication between Pathways and confined persons survivors is considered legal/legal mail and is held in the strictest of confidence. It was indicated that the Pathway of Healing provided the facility with a mailing address and free telephone number for confined survivors.

During the facility site reviews the auditor confirmed the address and tested the emotional support services hotline *63. They were working properly.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility is compliant with all provisions in this standard.

Compliance Determination by Provision and Corrective Actions:

115.54 (a)

The provision requires that the agency establish a method to receive third party reports of sexual abuse and sexual harassment and distribute publicly information on how to report sexual abuse and sexual harassment on behalf of a confined persons.

Documentation:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 5. Inmate Reporting Section 5.12: Consistent with SCDC Policies PS-10.08, Inmates Correspondence Privileges, and SCDC Policy OP-22.09, Inmates Visitation, inmates will be allowed confidential access to their attorneys or other legal representation.

The auditor reviews the agency website that which is one established method for receiving reports of sexual abuse and sexual harassment from third parties and ensure that the reports are handled the same way as other reports of sexual abuse or sexual harassment, including ensuring that any identified or potential victims are safe and receive necessary support services, and that reports are thoroughly investigated.

The auditor reviewed the SCDC website under the PREA section, it gives the public access to third party reporting by completing an automated form to make a report of sexual abuse inside a correctional institution in South Carolina and can choose to remain anonymous which is forwarded to the PC Office for review and distribution. If the public have access to the website, they can just click on the link and enter required information. Tip line allows third-party reporters to indicate the date of the incident, location of the incident, type of incident and describe in detail the incident the third-party is reporting.

SCDC has established a reporting line that is housed at Headquarters of the Office of

	<p>Inspector General. This is a system in which an individual can leave a message, either by name or anonymously. Compliance Determination by Provisions and Corrective Actions:

115.61 (a)

The provision requires that the agency require all staff to report immediately and according to agency policy any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; retaliation against confined persons or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) 6 Coordinated Response Following an Inmate's Report section 6.1 All employees are required to immediately report any knowledge, suspicion, information or allegation of sexual offenses consistent with SCDC Policy GA-06.11, "Prevention, Detection, and Response to Sexual Abuse/sexual Harassment", SCDC Policy ADM-11.17, Employee Conduct; SCDC Policy ADM-11.34, Employee Inmate Relations, and SCDC Policy OP-22.25, Reporting Incidents and Accidents Management Information Notes (MINS) and Other Methods of Reporting.

The policies collectively address provisions of the standard including providing all staff immediately report any knowledge, suspicion, information, or receipt of information regarding an incident or allegation of sexual abuse, sexual harassment, or incidents of retaliation and according to mandatory reporting laws.

Staff consistently described a process for reporting any information related to sexual abuse incidents as: reporting immediately, taking the confined persons to medical, isolating the confined persons from other confined persons, don't allow the confined persons to bathe, shower, or brush teeth, preserve evidence; and report to someone else for the investigation.

Interviewed staff who conducts medical services reported that staff are required to report any knowledge, suspicion, or sexual harassment to a designated supervisor or official immediately upon learning. In accordance with SCDC policy, all employees must report incidents immediately to one of the following: Institutional Investigator, Warden, PREA Compliance Manager, appropriate member of the Director's staff, Division Director of Human Resources or the PREA Coordinator immediately upon learning of the incident.

Informal conversation with staff during the tour reported all allegations of sexual abuse and sexual harassment (including those from third-party and anonymous sources) are reported directly to designated facility investigators are the management team.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. The random staff representing staff from all shifts. All staff reported that if they learn of a confined person at risk of imminent sexual abuse, they will protect the confined person by immediately notifying their supervisor, separating the confined persons, monitor until supervisor arrives.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. Staff were asked, if you are the first person to be alerted that a confined person has allegedly been the victim of sexual abuse, what is your responsibility in that situation? Staff indicated that they would prevent a confined person from bathing or doing any hygiene, collect clothing, send to medical, remove victim from abuser, secure crime scene and evidence, speak only to those involved to include investigations.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.61 (b)

The provision requires that apart from reporting to designated supervisors or officials, staff do not reveal any information related to a sexual abuse report to anyone other than to the extent necessary, as specified in agency policy, to make treatment, investigation, and other security and management decisions.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Reporting according to mandatory reporting laws and the facility policy was evident through document review regarding disclosures by confined persons of allegations that did not occur in the facility or an institutional setting. A review of documentation demonstrates information reported to staff is reported to the appropriate authorities. Staff members are instructed to immediately report all allegations of sexual abuse or sexual harassment to a supervisor or the PREA compliance manager.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.61 (c)

The provision requires that unless otherwise precluded by Federal, State, or local law,

medical and mental health practitioners are required to report sexual abuse pursuant to paragraph (a) of this section and to inform confined persons of the practitioner's duty to report, and the limitations of confidentiality, at the initiation of services.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 6 Coordinated Response Following an Inmate's Report section 6.2: All employees are obligated to inform inmates of their duty to report sexual abuse and harassment as well as their limits of confidentiality.

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment indicated that any employee, (to include contract and temporary) who knowingly or intentionally submits inaccurate or untruthful information concerning sexual abuse as defined by state statute is guilty of the misdemeanor of falsely reporting sexual abuse and, upon conviction, must be imprisoned for not more than one (1) year. In addition, such conduct will result in corrective action up to, and including, termination pursuant to SCDC Policy ADM-11.04, "Employee Corrective Action."

Informal conversation with medical staff reported at the initiation of services to a confined person during intake they disclose the limitations of confidentiality and their duty to report and mandated reporters. Staff are expected to abide by the confidentiality requirements as medical professionals. Staff is also required to report any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment to their designated supervisor immediately upon learning of the incident.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.61 (d)

The provision requires that if the alleged victim is under the age of 18 or considered a vulnerable adult under a state or local vulnerable persons statute, the agency reports the allegation to the designated State or local services agency under applicable mandatory reporting laws.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The auditor checks rosters to ensure that the facility does not house youthful offenders. If the alleged victim is under the age of 18 or considered a vulnerable adult under a State or local vulnerable person statute, the agency is required to report the allegation to the designated State or Local Services agency under applicable

mandatory reporting laws.

Interviewed warden reported that there are no confined persons under the age of 18 at this facility, but if there was, the facility would ensure the sexual abuse or sexual harassment for confined persons under the age of 18 is investigated and reported to State Children Services. The facility is aware of the South Carolina Code of Laws Unannotated Title - 43 - Social Services (Vulnerable Adults) and Title 20 Juveniles.

Interviewed agency Acting PREA Coordinator reported that when an allegation is received, the alleged victim and the alleged perpetrator are immediately separated. Security supervisors and the Institutional PREA compliance manager are notified, so that the proper procedures, documentation, and notifications are completed. For individuals under the age of 18, the Youthful Offenders Program Manager is notified so that the juvenile's family is notified of the allegation, and all mandatory required agencies are informed. The juvenile is provided an opportunity to call and work with the local rape crisis center (RCC) and/or Qualified Mental Health Professional within the institution. However, this facility does not house confined people under the age of 18.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.61 (e)

The provision requires that the facility report all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, to the facility's designated investigators.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Policies collectively provide for all allegations to be reported to the PREA compliance manager, including third-party and anonymous reports as also verified by staff interviews. The policy requires staff members, including medical and mental health staff, to immediately report any knowledge, suspicion, or information of any incident in any facility, even in a facility that is not a part of the agency.

The interviewed warden confirmed that staff have been trained to take all allegations and reports seriously and to report them immediately, including those reported by third parties. The verbal reports are to be followed up with a written report before the end of the shift, and allegations will be investigated.

Corrective Actions:

immediate action to protect an inmate who is at a substantial risk of imminent sexual abuse consistent with SCDC Policy OP-22.23, Statewide Protective Custody.

According to the Pre-Audit Questionnaire, in the past 12 months, the number of times the agency or facility determined that a confined person was subject to a substantial risk of imminent sexual abuse was zero.

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported, if there is a specific source of the imminent sexual abuse, the potential abuser will be relocated so that there is no contact between the potential victim and perpetrator during an investigation and afterwards, if the investigation supports the potential for sexual abuse. Potential victimization and potential perpetrator conduct are taken into consideration in all housing and work assignments. As a last resort, the potential victim may be housed in protective custody until an investigation can be conducted and potential abusers identified.

The interviewed warden reported that when he learns that a confined person is subject to a substantial risk of imminent sexual abuse the facility will protect them by removing the confined person to another housing unit or facility.

Twelve random staff were interviewed by the auditor's non-certified support staff: eleven Blacks and one White. The group included one white male, two black males, and nine black females. The facility has demonstrated compliance with this provision of the standard because:

The facility uses the Warden-to-Warden PREA Notification as documentation. There was no warden-to-warden notification for the past 12 months.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.63 (d)

The provision requires that the facility head or agency office that receives such notification ensure that the allegation is investigated in accordance with these standards.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 6 Coordinated Response Following an Inmate's Report section 6.5: Upon notification of an allegation of sexual abuse that occurred while a inmate was housed at an institution outside the authority of SCDC, the SCDC institutional Warden will contact the institution head of the institution where the alleged abuse occurred and will notify SCDC OIG. This notification will be provided within seventy-two (72) hours of receiving the report and will be documented and provided to the institution's PREA Compliance Manager and the Agency's PREA Coordinator.

According to the Pre-Audit Questionnaire, in the past 12 months, the number of allegations the facility received that a confined person was abused while confined at another facility was 0.

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported that when a facility/agency (or a facility within the agency) receives an allegation the PREA coordinator reviews the allegation and refers it to the institutional PREA compliance manager for documentation that might exist and for administrative investigation if the allegation warrants an administrative investigation or the Office of Inspector General if a criminal investigation is necessary. When asked regarding examples, she reported the this is specific to the institution, so the answer is determined by the institution if there was an allegation from one or another.

Interviewed warden reported when the facility receives an allegation from another facility that the incident of sexual abuse or sexual harassment occurred in his facility, he would contact the facility PREA compliance manager to begin the investigation process. PREA compliance manager may contact the facility where the confined person is at for additional information.

Compliance Determination by Provisions and Corrective Actions:**115.65 (a)**

The provision requires that the facility develop a written institutional plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 6 Coordinated Response Following an Inmate's Report section 6.7: All SCDC institutions will develop a written institutional sexual abuse coordinated response plan that is in accordance with SCDC Policy GA-06.11, Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, and the National PREA Prison and Jail Standard 115.65, Coordinated Response. Each SCDC Warden will ensure the members of their institution's Sexual Assault Response Team (SART) are aware of their roles and are active participants in the institution's response to allegations of sexual abuse. Each member of staff assigned to each institution in any capacity will be informed and/or trained on the institution's coordinated response plan within thirty (30) calendar days from the date of its publication or update.

The auditor reviewed the Coordinated Response Plan which is aligned with detailed information in the policy regarding the response to an allegation or incident of sexual abuse. The plan includes protocol divided by timeframes, as follows:

- Following a reported risk of imminent sexual abuse
- Following suspected or alleged incident of sexual abuse
- Prior to transport to a medical forensic exam
- During the medical forensic exam
- Following the exam or after acute care is provided
- Follow-up care/long term duties

The plan outlines the actions of the identified staff members and their roles.

Compliance Determination by Provisions and Corrective Actions:

115.66 (a)

The provision requires that neither the agency nor any other governmental entity responsible for collective bargaining on the agency's behalf shall enter or renew any collective bargaining agreement or other agreement that limits the agency's ability to remove alleged sexual abusers from contact with any confined persons, confined persons pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The auditor requests collective bargaining agreement from the facility. There are no current agreements that limit the agency's ability to remove alleged staff sexual abusers from contact with confined people pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted. There have not been any collective bargaining agreements since August 20, 2012.

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported that the agency does not have a collective bargaining agreement.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.66 (b)

The provision requires that nothing in this standard restrict the entering into or renewal of agreement that govern: The conduct of the disciplinary process, if such agreements are not inconsistent with the provisions of standards 115.72 and 115.76; or whether a no-contact assignment that is imposed pending the outcome of an investigation shall be expunged from or retained in the staff member's personnel file following a determination that the allegation of sexual abuse is not substantiated.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The agency/facility is not involved in any form of collective bargaining and can remove any staff alleged to have violated an agency sexual abuse or sexual

- Inmate who Reported Sexual Abuse (Q-b: 25)

Compliance Determination by Provisions and Corrective Actions:

115.67 (a)

The provision requires that the agency establish a policy to protect all confined persons and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other confined persons or staff and shall designate which staff members or departments are charged with monitoring retaliation.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 6 Coordinated Response Following an Inmate's Report section 6.8: In accordance with SCDC Policy GA-06.11, Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, all Wardens will ensure that all inmates, staff, witnesses, and reporters be monitored and protected against retaliation for a minimum of ninety (90) days while maintained within the same institution. Monitoring will be documented on SCDC Form 19-182, Sexual Abuse Retaliation Monitoring, and filed for auditing purposes.

The facility prohibits retaliatory behavior by confined persons or staff regarding the reporting of sexual abuse, sexual harassment, or cooperation with investigators as it relates to PREA related incidents and allegations. The PREA compliance facility manager is responsible for monitoring retaliation along with upper management staff.

Auditor's Review Notes from SCDC 2022 PREA Training Module Slide #17. Sexual Abuse Retaliation Monitoring process. Monitoring staff were training on things you should ask a confined person How are you doing? Do you feel safe? Do you feel you are being retaliated against for reporting the allegation? Then relay the answers to the PCM who will complete SCDC Form 19-182, Sexual Abuse Retaliation Monitoring Form.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.67 (b)

The provision requires that the agency employ multiple protection measures, such as housing changes or transfers for confined persons victims or abusers, removal of alleged staff or confined persons abusers from contact with victims, and emotional support services for confined persons or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported that the facility/agency protect confined persons and staff from retaliation from sexual abuse or sexual harassment by removed the perpetrator from the area that might allow contact with the victim. Consults with the agency PREA coordinator or facility PREA compliance manager to conduct wellness checks with the victim for at least 90 days to ensure the victim is not subjected to retaliation. The victim is also offered mental health counseling.

Interviewed warden reported that for allegations of sexual abuse or sexual harassment the different measures that the facility would take to protect the confined persons and staff from retaliation is to have the PREA compliance manager to monitor, make housing changes, transfer the abuser.

Interviewed designated staff for changed with monitoring retaliation is the facility PREA compliance manager. They reported that they understand their role is to prevent retaliation against confined persons and staff who report sexual abuse and sexual harassment. They monitor by making rounds through the facility, visiting the area where the confined people live or work. For staff they check schedules, promotions, and other staff reactions.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.67 (c)

The provision requires that for at least 90 days following a report of sexual abuse, the agency monitors the conduct and treatment of confined persons or staff who reported the sexual abuse and of confined persons who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by confined persons or staff and shall act promptly to remedy any such retaliation. Items the agency should monitor include any confined persons disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff.

The agency shall continue such monitoring for 90 days if the initial monitoring indicates a continuing need.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy Discussion: GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment indicated that wardens would ensure that all inmates, employees, witnesses, and reporters of alleged sexual abuse or sexual harassment are monitored for retaliation or reprisal for a minimum of ninety (90) days while

housed or employed at the same institution. Institutional PCMs will ensure all individuals monitored are documented on SCDC Form 19-182, "Sexual Abuse Retaliation Monitoring" and this form is filed for auditing and review.

According to the Pre-Audit Questionnaire, the number of times an incident of retaliation occurred in the past 12 months was 0.

Interviewed designated staff changed with monitoring for retaliation is the facility PREA compliance manager. They reported that they look for the confined person and staff response when reporting sexual abuse or sexual harassment. They monitor confined people's disciplinary reports, housing changes, program changes. For staff they check schedules, promotions, negative performance reviews or reassignments of staff. The monitoring lasts for 90 days, if concern that potential retaliation might occur, the maximum length of time would vary.

A review of the investigation files confirmed that the facility has a system in place to protect confined persons and staff from retaliation of reporting or cooperate with sexual abuse and sexual harassment investigations. Of the 13 investigation files reviewed, 6 had a Sexual Abuse Retaliation Monitoring Sheet. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.67 (d)

The provision requires that in the case of confined people, such monitoring also includes periodic status checks.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The facility PREA compliance manager and upper management Team monitors for retaliation through periodic checks on daily inspections and randomly speaking with confined persons and staff.

Interviewed designated staff changed with monitoring for retaliation is the facility PREA compliance manager. They reported that they look for the confined person and staff response when reporting sexual abuse or sexual harassment. They monitor confined people's disciplinary reports, housing changes, program changes. For staff they check schedules, promotions, negative performance reviews or reassignments of staff. The monitoring lasts for 90 days, if concern that potential retaliation might occur, the maximum length of time would vary.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.67 (e)

The provision requires that if any other individual who cooperates with an investigation expresses a fear of retaliation, the agency shall respond appropriately to protect that individual against retaliation.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment no inmate will be subjected to retaliation, reprisal, harassment, or disciplinary action by employees, volunteers, or other inmates for reporting allegations or knowledge of sexual abuse against an inmate. Inmates may report retaliation using any of the procedures for reporting sexual abuse, as described in standard 115.33. Allegations of reprisal may also be investigated by the Inspector General or Division of Investigations.

The facility has several protection and reporting measures for confined people. They can utilize the grievance process to document retaliatory acts or other PREA related concerns and issues. The process is over-seen by the facility PREA compliance manager who works in concert with the facility management team to ensure the removal of alleged staff or confined person abusers from contact with victims, and emotional support services for confined persons or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee reported that if a confined person or staff cooperates with an investigation expresses a fear of retaliation the agency/facility take measures to protect them by having the PREA compliance manager to monitor, make housing changes, transfer the abuser.

Interviewed warden reported that the measure taken when suspect retaliation has the facility PREA compliance manager monitors the alleged victims, witnesses, and staff for up to 90 days and documents their interactions. Additionally, the alleged abuser and alleged victim are separated until the completion of the investigation. For substantiated and unsubstantiated cases, the alleged victim and alleged perpetrator are given a separation order and are placed in separate housing units or institutions.

During the onsite visit, there were no confined people who reported sexual abuse to interview. The auditor verified this through PAQ data analysis and reviewing documents like investigation reports, incident reports, and resident rosters.

persons who are alleged to have suffered sexual abuse be subject to the requirements of standards 115.43.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment indicated that inmates identified to be at high risk for sexual victimization will not be placed in protective custody or involuntarily segregated, unless there is no available location or method of keeping the inmates separated from likely abusers.

Based on a review of information the facility provided in the PAQ, the number of confined persons who alleged to have suffered sexual abuse were assigned to involuntary segregated housing in the past 12 months for longer than 24 days while awaiting alternative placement was zero. The number of confined people who alleged to have suffered sexual abuse were assigned to involuntary segregated housing in the past 12 months for longer than 30 days while awaiting alternative placement was zero.

The facility may designate housing that is safer for confined people who are at risk of sexual abuse. If there was no place to safely house a potential or actual victim, the victim will be temporarily housed in the administrative segregation area but would be expeditiously transferred to another facility where he could feel safe.

The interviewed warden reported that the agency policy prohibits placing confined persons at higher risk for sexual victimization or who have alleged sexual abuse in involuntary segregated housing in lieu of other housing areas unless an assessment has determined there is no available alternative means of separation for potential abuse. They are the only place until an alternative means of separation for safety. If they are placed in segregation, they only stay there until a safety place is located.

Interviewed staff who supervise confined people in segregated housing reported that when confined people are placed in segregated housing for protection from sexual abuse or after having alleged sexual abuse, they would still have access to programs, privileges, and education. The facility does document restrictions on any programs in the RSU logbook or computerized sheet. Confined people have access to the following: Programs (Education- the teacher would bring the materials to the confined person's cell to complete); Counselor (Programmatic information to work on); Access to the phone, store, showers, exercise, and visitation.

Corrective Actions:

The provision requires that when the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it does so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy Discussion: GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, SCDC will ensure that all allegations of sexual abuse and sexual harassment are thoroughly investigated promptly. PREA allegations of sexual abuse or sexual harassment may be received in numerous ways to include: PREA Tips - SCDC public website page that the public can use to report an allegation of sexual abuse/sexual harassment; *22 Hotline Call; Warden-to-warden PREA Notification; Grievance; Request to Staff Member (RTSM) or Automated Request to Staff Member (ARTSM); Note, Letter, or Verbally.

A review of the policy requires that investigations into all allegations of sexual abuse and sexual harassment will be done so promptly, thoroughly, and objectively, for all allegations, including those reported third-party and an anonymously and a preponderance of evidence will be imposed or a lower standard of proof for determining whether allegations of sexual abuse or sexual harassment are substantiated.

All allegations of sexual abuse and sexual harassment, including threats and attempts, will be immediately and aggressively investigated. The Office of Inspector General (OIG) initiated the investigation and notified South Carolina Law Enforcement Division (SLED) when sexual misconduct by staff, contractors or volunteers is alleged. OIG will conduct an internal investigation in accordance with SCDC Policy OIG-23.01, Investigations.

The Interview with the Facility PREA Investigator reported all allegations of sexual misconduct investigated by SCDC's facility, to include, but are not limited to sexual abuse, sexual harassment, inappropriate sexual behaviors by staff or inmates will have an investigative case opened within 5 days from the date of receipt.

The Interview with the Facility PREA Investigator reported that anonymous or third part reports of sexual abuse or sexual harassment are handled just like all other PREA allegations.

The interview Inspector General reported that an investigation is initiated as soon as the allegation is received and reviewed by OIG. Time from incident date to referral to OIG does vary depending on circumstances out of OIG control (institutional processing, means by which the allegation is made, etc.). The first steps initiating an investigation in all cases are different, normally, it starts with OIG receiving the referral and it is entered into the OIG Intake Portal. The agent would interview the victim. Initial interviews are conducted as quickly as possible, after the investigation is initiated. If the victim is taken to the hospital for injuries sustained in an assault and OIG are notified immediately. Agents often respond to the hospital to conduct the initial interview. The computer system will send incidents to the Regional Agent,

tracks time and deadlines. Evidence collection if available. Interviewed and follow-up interviews take place. Reports are written and reviewed through supervisory chain. Once the report is finalized, the appropriate operational staff and PREA staff are notified of the outcome of the investigation so any administrative matter can be handled. If criminal charges are made, the case is then prepared for prosecution through the courts. All anonymous or third-parties report of sexual abuse or sexual harassment are handling the same as other allegations.

Interviewed Inspector General reported that anonymous or third-party reports of sexual abuse or sexual harassment are handle as all other investigation processes. Direct and circumstantial evidence the investigators would be responsible for in an investigation is alleged victim and witness interviews, evidence collections, suspect interviews, follow-up interviews, written reports, any physical evidence, and video tapes. The interviewer's Inspector General also reported they may judge the credibility of an alleged victim, suspect or witness by demeanor during interviews, personnel records, confined person past credibility.

The Interview with the Facility PREA Investigator reported the first steps in initiating an investigation and how long would it take would start when the facility investigator received the allegation. The facility PREA investigator will inform the agency PREA coordinator, then start the collections of facts and evidence for the inmates and staff.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (b)

The provision requires that where sexual abuse is alleged, the agency use investigators who have received special training in sexual abuse investigations pursuant to standard 115.34.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The investigators are required to complete the NIC online PREA Specialized Investigations training. The NIC online training includes techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warning, etc. The facility provided a list of individuals that completed the PREA Specialized training and verification by submitting the certificates at were received at the completion of course.

The Interview with the Facility PREA Investigator reported that they are required to complete the National Institute of Corrections (NIC) online PREA Specialized Investigations training in addition to the general PREA training. If the case may be criminal, it is referred to OIC. The first steps in initiating an investigation would be to

immediately ensure the victim's safety, collect statements from the staff and other confined person witnesses, secure the area where the incident occurred to preserve possible evidence and DAN for OIG.

The interview Inspector General reported that staff receive specific training in conducting sexual abuse investigations in confinement settings. All agents receive law enforcement training and the National Institute of Corrections (NIC). The NIC courses are taken online. In addition, the agents have arrest powers.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (c)

The provision requires that investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: OIG-23.28 Evidence Protocol - Purpose: The purpose of this policy is to establish guidelines for maintaining the integrity of the evidence collected or received by the SCDC Office of Inspector General (OIG). SCDC Policy: OIC-23.28 Evidence Protocol section 1.2 - The impounding agent shall effectively manage, mark, and package all evidence, and transport and log-in all physical evidence to the evidence room, or other authorized secure location, prior to the end of the officer's tour of duty or as soon as practical thereafter. Contraband must be delivered within seventy-two (72) hours.

Evidence/Security Procedures: if there is evidence that a sexual assault has occurred, the area will be treated as a possible crime scene and the following steps will be implemented immediately upon discovery: 1. Identify and maintain the crime scene, preserve evidence, including on the victims' and alleged perpetrator's bodies or clothes, and maintain custody of evidence until released to law enforcement officials. 2. Items should not be cleaned or removed. 3. Photos shall be taken of the suspected crime scene and any evidence. 4. Allow only authorized personnel to enter the area. 5. If the incident occurred within the last 5 days, requested that the victim - and ensure that the alleged perpetrator (s) refrain from actions that could destroy evidence, such as bathing, brushing teeth, changing their clothes, urinating, defecating, drinking, or eating until they have been examined by qualified medical personnel. 6. Ensure that any alleged staff, volunteer, or contractor perpetrators are immediately separated from contact with confined people.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (d)

The provision requires that when the quality of evidence supports criminal prosecution, the agency conducts compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

A review of the investigation files confirmed that if the quality of evidence supports criminal prosecution, the agency conducts compelled interviews only after consulting with prosecutors.

A review of the investigation files confirmed that the agency ensure that an administrative and/or criminal investigation is completed for all allegation of sexual abuse and sexual harassment. The total number of sexual abuse and sexual harassment investigations for the past 12 months 43. Number of staff-on-resident sexual abuse classified by facility investigations 9; Number of staff-on-resident sexual harassment classified by facility investigations 3; Number of residents-on-residents sexual abuse classified by facility investigations 10; Number of residents-on resident's sexual harassment classified by facility investigations 11. Total number of on-going cases 2; Total number of referred to prosecution 2; and Total number of terminated staff or contractors 2. The total of staff or contractors resigned 0; The total number of investigation files the auditor reviewed was 13. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

The Interview with the Facility PREA Investigator reported that facility send the cases to the OIG criminal investigations. Then OIG determines whether to send the case to prosecutors or consult with prosecutors.

The auditor methodology to review investigations files: Twenty or less the auditor reviews at least 10 files. Twenty-one or more the auditor reviewed 10 plus an additional 10 percent of the remaining files.

Interviewed Inspector General reported when discovering evidence that a prosecutable crime may have taken place they may consult with prosecutors before conducting compelling interviews. Agents are trained investigators and are not required to consult with prosecutors before conducting interviews. The attorney is a staff member that provides guidance when necessary.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (e)

The provision requires that the credibility of an alleged victim, suspect, or witness be assessed on an individual as is and not be determined by the person's status as confined person or staff. No agency requires confined persons who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

Compliance Determination:

The facility demonstrated compliance with this provision of the standard because:

The Interview with the Facility PREA Investigator reported that they use prior incidents, observe the demeanor during interviews, inmates' institutional files, inmate disciplinary history, and past credibility.

The Interview with the Facility PREA Investigator reported that they will not use a polygraph examination or truth telling device as a condition for proceeding with an investigation.

Conversation with the facility investigators reported that they do not have authority to conduct these types of examinations. The investigation will continue. A confined person who alleges sexual abuse is not required to submit to a polygraph examination device as a condition for proceeding with the investigation.

The interviewed Inspector General reported that credibility is judged in several ways such as corroborating the information through investigation, prior incidents, observing their demeanor during interviews, information from SCDC personnel who may have had prior interactions with the victim, suspect or witness, confined persons records, whether the individual has been credible before.

Interview with the Inspector General reported that under no circumstances a confined person who alleges sexual abuse submits to a polygraph examination device as a condition for proceeding with an investigation.

During the onsite visit, there were no confined people who reported sexual abuse to interview. The auditor verified this through PAQ data analysis and reviewing documents like investigation reports, incident reports, and resident rosters.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (f)

The provision requires that administrative Investigations: include an effort to determine whether staff actions or failures to act contributed to the abuse; and be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment indicated that Administrative Investigations: All allegations of sexual abuse or sexual harassment that do not meet the level of a criminal offense will be investigated for violations of agency policies, procedures, rules, or guidelines.

The Interview with the Facility PREA Investigator reported that the efforts used in an administrative investigation to determine whether staff actions or failures to act contributed to sexual abuse include policies violations, leaving POST or assigned area. In nature, the complete investigative report, with the findings, is turned over to the proper authorities, for any action they deem necessary. This is done in cooperation with the PREA Coordinator. This includes if the administrative investigations findings are policies or agency violations.

A review of the investigation files confirmed that the agency ensure that an administrative and/or criminal investigation is completed for all allegation of sexual abuse and sexual harassment. The total number of sexual abuse and sexual harassment investigations for the past 12 months 43. Number of staff-on-resident sexual abuse classified by facility investigations 9; Number of staff-on-resident sexual harassment classified by facility investigations 3; Number of residents-on-residents sexual abuse classified by facility investigations 10; Number of residents-on resident's sexual harassment classified by facility investigations 11. Total number of on-going cases 2; Total number of referred to prosecution 2; and Total number of terminated staff or contractors 2. The total of staff or contractors resigned 0; The total number of investigation files the auditor reviewed was 13. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

The auditor methodology is used to determine investigations sample: Twenty or less the auditor reviews at least 10 files. Twenty-one or more the auditor reviewed 10 plus an additional 10 percent of the remaining files.

The auditor reviewed the investigation cases documentation (Criminal and Administrative), the following were included:

- PREA Investigative Folder checklist - 13
- Incident Report - 13
- Incident Report Checklist for PREA Reviews - 13
- Confined Persons Search Detail Report / Disciplinary History - 13
- PREA Confined Persons Voluntary Statements - 13

The Interview with the Facility PREA Investigator reported that administrative investigations are documented in written reports. Reports includes available physical evidence and any available electronic monitoring data, interview alleged victims, perpetrators, and witnesses, and review any available prior complaints and reports of sexual abuse or sexual harassment involving the alleged or suspected perpetrators. In addition, administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse and will be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Administrative investigations utilize the preponderance of the evidence as the standard for determining whether an allegation of sexual abuse or sexual harassment is substantiated.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (g)

The provision requires that criminal investigations to be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment indicated that Criminal Investigations: Any allegation that provides evidence of criminal sexual abuse will be forwarded to the proper authorities for prosecution.

Agents with SCDC's OIG Services will gather and preserve direct and circumstantial evidence, including available physical evidence, and any available electronic monitoring data, interview alleged victims, perpetrators, and witnesses, and review prior complaints and reports of sexual abuse involving the alleged or suspected perpetrator.

The interviewer interviewed Inspector General ensures that criminal investigations are documented, and the report contains all OIG investigations which are in written forms. All information received, and documents generated, are in the report. The report covers facts and findings of the investigations.

The interviewed Inspector General reported the agency procedures require that a confined person who makes an allegation of sexual abuse is informed as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. The investigation report is submitted to the facility and the facility PREA compliance manager informed the confined persons.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (h)

The provision requires that substantiated allegations of conduct that appear to be criminal shall be referred for prosecution.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

According to policy, if allegations of conduct that are criminal are substantiated, referral will be made to the appropriate solicitor for prosecution of the local area.

Based on a review of information the facility provided in the PAQ, the number of substantiated allegations of conduct that appear to be criminal that were referred to for prosecution since August 20, 2012, or since the last PREA audit was two.

The Interview with the Facility PREA Investigator reported that facility send the cases to the OIG criminal investigations. Then OIG determines whether to send the case to prosecutors or consult with prosecutors.

Interviewed Inspector General reported policy requires that allegations of sexual abuse or sexual harassment be referred for investigation to an agency with the legal authority to conduct criminal investigations. OIG is the legal authority to conduct criminal investigations. Ninety percent of the criminal cases are investigated by OIG, there may be times that South Carolina Enforcement Division (SLED) investigates. The first steps in initiating an investigation would be to enter the case into the OIG Intake Portal. Date and Time track deadlines, agent interviews victims, suspects, and collect DNA evidence for the facility or hospital.

Interviewed Inspector General reported when the agency refer cases for prosecution is anytime the allegation is found to be criminal under the SC Code of Laws.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff and residents, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (i)

The provision requires that the agency write all written reports referenced in paragraphs (f) and (g) of this section for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC has a general investigative record retention schedule of physical destruction of 7 years after adjudication or until the confined person discharges from a sentence, dies while incarcerated, whichever comes first, the records can then be destroyed. The schedule has been corrected to meet standard requirements.

SCDC Policy: HS-18.07 Inmates Health Records section 10 - Inactive health records will be maintained by the Central HIR office in hard copy form for 25 years or on microfilm and/or on electronic media for 99 years.

Conversations with the agency PREA coordinator reported that the agency/facility requires that all written reports pertaining to administrative or criminal investigations of alleged sexual assault or sexual harassment be kept for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (j)

The provision requires that the departure of the alleged abuser or victim from employment or control of the facility or agency shall not provide a basis for terminating an investigation.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Agency policy includes that the departure of the alleged abuser or victim from employment or control of the facility or agency will not terminate the investigation.

The Interview with the Facility PREA Investigator reported that they will proceed when a victim who alleges sexual abuse or sexual harassment terminates employment prior to a completed investigation into his/her conduct will continue to investigate with no

bearing on the investigations.

The interviewer's Inspector General reported that when a staff member alleged to have committed sexual abuse terminates employment prior to a completed investigation into his/her conduct the agency continues with the investigation. The fact that the suspect is no longer employed has no bearing on the investigation. Their employment status means nothing to the investigative process. The same is for a victim who alleges sexual abuse or sexual harassment, or an alleged abuser leaves the facility prior to a completed investigation into the incident. The agency continues with the investigation. Where the alleged victim or suspect currently resides has no bearing on the case.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.71 (k)

The provision requires that any State entity or Department of Justice component that conducts such investigations do so pursuant to the above requirements.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Auditor is not required to audit this provision.

115.71 (l)

The provision requires that when outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The interviewed warden reported that OIG handles all criminal investigations and provides the agency PREA coordinator and facility with the final reports.

Interviewed agency Acting PREA coordinator reported that SCDC conducts its own investigations, but if an outside agency assists or investigates, SCDC ensures that all reports are received and are provided to the Acting PREA Coordinator. The Office of the Inspector General stays in constant communication with outside agencies. SCDC has an agreement with the South Carolina Law Enforcement (SLED) for investigations. However, if an outside agency investigates an incident of sexual abuse in the facility OIG would still open a case as an assisting agency and assist the outside agency with the investigation, evidence collection, and interviews.

Interviewed facility PREA compliance manager reported that the South Carolina

	<p>Department of Corrections conducts investigations of all allegations that alleged events that the potential to be deemed criminal in nature on federal, state, and local laws. Compliance Determination by Provisions and Corrective Actions:

115.73 (a)

The provision requires that following an investigation into a confined person's allegation that he or she suffered sexual abuse in an agency facility, the agency inform the confined persons as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 7.

Investigations Section 7.3: SCDC will ensure that, following a report of sexual abuse/sexual harassment, the alleged victim is notified of the outcome of the investigation. When the alleged perpetrator is a staff member, the institution's PCM will ensure the alleged victim is notified of the progress of the investigation as specified in PREA standard.

The agency/facility addresses the confined people being informed by staff when the investigation is completed, informed of the outcome of the investigation, and the documentation of the notification. The PREA compliance manager remains abreast of an investigation conducted by any of the investigative entities by serving as the primary contact person (s), as determined by the interviews. The facility indicated that any confined persons who make an allegation of sexual abuse will be informed verbally by the management team members following an investigation, as to whether the allegation was substantiated, unsubstantiated, or unfound.

A review of the investigation files confirmed that following an investigation into a confined person's allegation that involved sexual abuse, the facility informs the confined persons as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. Of the 13 investigations files reviewed, 13 had a Disposition of PREA Report (Inmate Notification sheet). Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

Interviewed Inspector General reported that the responsibility of notifying the alleged victim of the outcome of the investigation falls to the PREA compliance manager of the institution. OIG has no procedure or policy that requires them to notify the victim of the outcome.

The interviewed warden reported that the facility notifies a confined person who makes an allegation of sexual abuse when the allegation has determined that the allegation is substantiated, unsubstantiated, or unfounded following an investigation. The PREA compliance manager used the SCDC form to document confined person notifications. Notification is normally made within 30 days of the closing of the investigation or when an investigation is received.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.73 (b)

The provision requires that if the agency did not conduct the investigation, it requests the relevant information from the investigative agency to inform the confined persons.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Based on a review of information the facility provided in the PAQ, the number of investigations of alleged persons confined to sexual abuse in the facility that were completed by an outside agency in the past 12 months was three.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.73 (c)

The provision requires that following a confined person's allegation that a staff member has committed sexual abuse against the confined persons, the agency subsequently informs the confined persons (unless the agency has determined that the allegation is unfounded) whenever: The staff member is no longer posted within the confined persons unit. The staff are no longer employed at the facility. The agency learns that the staff member has been indicated on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Conversations with the facility PREA compliance manager reported that the agency/facility requires that following a confined person's allegation that a staff member

committed sexual abuse against the confined persons, the confined persons will be informed of the results, unless it has been determined that the allegation is unfounded as stated above. The facility uses SCDC Form 19-165 to document notification.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.73 (d)

The provision requires that following a confined persons allegation that he or she has been sexually abused by another confined persons, the agency shall subsequently inform the alleged victim whenever: The agency learns that the alleged abuser has been indicated on a charge related to sexual abuse within the facility; or the agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment Updated July 8, 2020 section 3.4 indicated that following an investigation into an inmate allegation that he or she suffered sexual abuse in an institution, the institution's PCM will ensure the alleged victim is provided notification of whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded by completing and having the inmate sign that he/she has received a copy of SCDC Form 19-165, "Disposition of PREA Report." The original is placed in the inmate PREA case file in the PCM's office.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.73 (e)

The provision requires that all such notifications or attempted notifications should be documented.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

As reported in the PAQ, in the past 12 months, the number of notifications to confined persons that were provided pursuant to this standard was 30. Of the notifications

made in the past 12 months, the number that was documented was 30.

Review of the policy requires the institution's PCM to ensure that alleged victim is provided notification of whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded by completing and have the confined persons sign that he/she has received a copy of SCDC Form 19-165, "Disposition of PREA Report." The original is placed in the confined person's PREA case file in the PCM's office.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.73 (f)

The provision requires that an agency's obligation to report under this standard terminates if the confined persons are released from the agency's custody.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed staff indicated that if the confined people are released from the agency's custody the facility will terminate.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility is compliant with all provisions in this standard.

Compliance Determination by Provisions and Corrective Actions:

115.76 (a)

The provision requires that staff are subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 7. Investigation Section 7.6: Consistent with SCDC Policy 11.34, Employee- Inmate Relations, the presumptive disciplinary sanction for staff who have engaged in sexual relations with an inmate are terminated. Additionally, the presumptive disciplinary sanction for volunteers, interns, and others is removal from SCDC and prosecution, if appropriate.

During the documentation review of investigations files, there was two terminations relative to sexual abuse/sexual harassment.

Conservation with warden if allegations of conduct that appears to be criminal are substantiated, referral will be made to the appropriate solicitor for prosecution. Additionally, staff will be subject to agency corrective action for violating agency sexual abuse or sexual harassment policies up to and including termination.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.76 (b)

The provision requires that termination is the presumptive disciplinary sanction for

having engaged in sexual abuse.

Compliance Determination:

The facility has demonstrated compliance with this provision of the I because:

Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of staff from the facility who have violated agency sexual abuse, or sexual harassment policies was 2. In the PAQ, in the past 12 months, the number of those staff from the facility who have been terminated (or resigned prior to termination) for violating agency sexual abuse or sexual harassment policies was 2.

A review of the investigation files indicated that the facility has terminated for violating agency sexual harassment policy.

Conservation with warden if allegations of conduct that appears to be criminal are substantiated, referral will be made to the appropriate solicitor for prosecution. Additionally, staff will be subject to agency corrective action for violating agency sexual abuse or sexual harassment policies up to and including termination. The agency/facility standard will be the presumptive disciplinary sanction for having engaged in sexual abuse is termination.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.76 (c)

The provision requires that disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of staff from the facility who have been disciplined, short of termination, for violation of agency sexual abuse or sexual harassment policies (other than engaging in sexual abuse) was 0.

Conversation with warden, violating agency sexual abuse and sexual harassment policies will be commensurate with past act in the personal files and comparable offenses by other staff with similar histories to make disciplinary decisions.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.76 (d)

The provision requires that all terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 7.

Investigation Section 7.8: Any employee, contractor, volunteer, intern, or visitor investigated and substantiated for sexual abuse/sexual harassment of an inmate will be reported to the appropriate licensure authority.

Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of staff from the facility that have been reported to law enforcement or licensing boards following their termination) or resignation prior to termination) for violating agency sexual abuse or sexual harassment policies was 2.

The agency/facility indicated that all terminations for violations of the facility’s sexual abuse or sexual harassment policies, or staff resignations related to violations of the policy, will be reported to law enforcement, unless the activity is clearly not criminal. In addition, it will be reported to relevant licensing bodies.

Corrective Actions:

Compliance Determination by Provisions and Corrective Actions:

115.77 (a)

The provision requires that any contractor or volunteer who engages in sexual abuse is prohibited from contact with confined people and shall be reported to law enforcement agencies, unless the activity is clearly not criminal, and to relevant licensing bodies.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of contractors or volunteers reported to law enforcement for engaging in sexual abuse of confined persons was zero.

Conversations with the PREA compliance manager reported if criminal, any contractor, or volunteer who engages in sexual abuse will be prohibited for contact with confined persons and reported to law enforcement.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.77 (b)

The provision requires that the facility take appropriate remedial measures and consider whether to prohibit further contact with confined persons, in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

	<p>Compliance Determination: The facility has demonstrated compliance with this provision of the standard because:</p> <p>Interviewed warden reported that any violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer, the facility will always prohibit further contact with confined persons. Compliance Determination by Provisions and Corrective Actions:

115.78 (a)

The provision requires that confined persons are subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the confined persons engaged in confined persons -on- confined persons sexual abuse or following a criminal finding of guilt for confined persons -on- confined persons' sexual abuse.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Based on a review of information the facility provided in the PAQ, in the past 12 months, the number of administrative findings of confined persons-on-confined persons sexual abuse that have occurred at the facility was 11. In the PAQ, in the past 12 months, the number of criminal findings guilty of confined persons-on-confined persons were 3.

The agency/facility has a disciplinary process in place for confined persons who violate the rules of the facility which includes incidents of sexual abuse. Sanctions for confined people violating agency policy vary depending upon the level of the violation.

Disciplinary staff confirmed that policy requires once the confined person is formally charged (and entered the Offender Management System), the hearing will be held within 21 calendar days. SCDC Form 19-69 will be used to document the charges and the results of the hearing. The charges will be explained by the Hearing Officer to the people confined in terms she/he can understand. Confined people may not be subjected to any form of coercion designed to persuade them to waive their rights to 48-hour notice. If confined people are offered the opportunity to waive the 48-hour notice, they must be fully informed, in terms understandable to them, of the nature of the right at stake. In addition, a confined person may waive his/her right to a hearing, the Hearing Officer will review the waive section of the SCDC Form 19-69, conduct the hearing in the absence of the confined persons, determine guilt or innocence; if guilty, decide on appropriate penalties, and notify the confined persons of the same using SCDC Form 19-69. Should a confined person refuse to sign a waiver and/or attend the hearing, the hearing will be held in the confined person's absence and recorded.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.78 (b)

The provision requires that sanctions are commensurate with the nature and

circumstances of the abuse committed, the confined person's disciplinary history, and the sanctions imposed for comparable offenses on other confined persons with similar histories.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: OP 22.14 Inmates Disciplinary System section 7.1 and 7.2 – Inmate will be served with notice of disciplinary charges at least forty-eight (48) hours prior to their hearings, Should the inmate refuse to sign SCDC Form 19-69, Confined Person Disciplinary Report and Hearing Record, he/she will forfeit the opportunity to request that their accuser and/or witness (s) be present at their scheduled hearing.

Interviewed warden reported that the agency has a disciplinary policy with sanctions of confined persons subject to administrative or criminal finding that the confined person engaged in confined person-on-confined person related to sexual abuse. The sanctions proportionate to the nature and circumstances of the abuse committed, the confined person disciplinary histories and the sanctions are imposed to similar offenses by other confined persons.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.78 (c)

The provision requires that the disciplinary process consider whether a confined persons mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, in any, should be imposed.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: OP-22.14 section1.4 – If the inmate has a mental health issue noted on his/her MEDCLASS screen or is acting in such a manner that indicates a mental health concern, then a copy of SCDC Form 19-29A, "Incident Report." Must be forwarded to the mental health staff. This referral must be documented on SCDC Form 19-29A. In these instances, a memorandum from the mental health care professional must be included as an attachment to SCDC Form 19-29A, attesting to the inmate's mental status and accountability for his/her actions. Refer to SCDC GA BH-19.03, "Inmate Suicide Prevention and Crisis Intervention", as January 2024.

Interviewed warden reported that the agency/facility reported that the disciplinary process considers whether a confined persons mental disabilities or mental illness contributed to his behavior when determining what type of sanction, if any, should be imposed. The facility offers counseling and other interventions designed to address and correct underlying reasons or motivation for the abuse, the facility considers

whether to require the offending confined persons participate in such interventions as a condition of access to programming or other benefits.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.78 (d)

The provision requires that if the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the facility shall consider whether to require the offending inmate to participate in such interventions as a condition of access to programming or other benefits.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The facility offers therapy, counseling, or other interventions to address and correct underlying reasons or motivations for the abuse, the facility is required to consider whether to offer the offending offender to participate in such interactions as a condition of access to programming or other benefits. Policy affirms that a confined person may be disciplined for sexual contact with a staff member only upon a finding that the staff member did not consent to such contact. These confined people will receive a treatment plan.

Interview with the Medical staff reported that the facility offers counseling and outside intervention services designed to address and correct the underlying reasons or motivations for sexual abuse medical consider whether to offer these services to the confined persons when they are available. Confined people are not required to participate as a condition of access to programming or other facilities services.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.78 (e)

The provision requires that the agency may discipline a confined person for sexual contact with staff only upon a finding that the staff member did not consent to such contact.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Informal conversation with the facility PREA compliance manager indicated that the facility may discipline a confined person for sexual contact with staff only upon finding that the staff member did not consent to such contact and if the discipline confined person been proven that staff member did not consent to the conduct.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.78 (f)

The provision requires that for disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish sufficient evidence to substantiate the allegation.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 7.

Investigation Section 7.9: Inmate who willingly submit a false report will be subject to discipline consistent with SCDC Policies OIG-23-01, Investigations, and OP-22.14 Inmate Disciplinary System.

A report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred does not constitute falsely reporting an incident or lying, even if an investigation does not establish sufficient to substantiate the allegation. Any confined persons conclusively found to have filed an intentionally false report alleging sexual abuse will be subject to disciplinary action through the confined persons disciplinary system.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.78 (g)

The provision requires that an agency may, in its discretion, prohibit all sexual activity between confined people and may discipline confined persons for such activity. An agency may not, however, deem such activity to constitute sexual abuse if it determines that the activity is not coerced.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

	<p>SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 1, 7. Investigation Section 7.10: Any inmate who engages in a consensual or non-consensual sexual act or intimate physical contact of a sexual nature with another inmate, solicits sexual acts from another inmate, or engages in any non-consensual sex with an employee, visitor, vendor, contractor or a volunteer may be subject to discipline consistent with SCDC Policy OP-22.14, Inmate Disciplinary System.</p> <p>Conversation with the warden reported that SCDC prohibits sexual activity between confined persons and may discipline confined persons proven but does not consider such activity sexual abuse unless an investigation and preponderance of the evidence proves otherwise.</p> <p>Corrective Actions: N/A. 115.81 (a)

The provision requires that if the screening pursuant to standard 115.41 indicates that a prison confined person has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the confined persons are offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06. Applying the Prison Rape Elimination Act (PREA) – 8. Medical and Mental Health Care Section 8.1: Consistent with SCDC Policy GA-06.11, Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, SCDC Policy HS-18.13 Health Screening and Exams, SCDC Policy OP-21.04, Inmate Classification Plan, and SCDC Policy BS-19.04, Mental Health Services-General Provisions, inmate will be screened for prior sexual abuse, victimization and potential for abusiveness. Results from the screening will be used for physical and mental health evaluations, program inclusion, and housing assignments.

The agency facility provides that confined persons who reported during initial screening that they were a victim or perpetrator of sexual abuse are offered a follow-up visit with medical or mental health staff within 14 days of the intake screening. A review of documentation demonstrates confined people are offered follow-up meetings in a timely manner. This information was also confirmed through interviews with target-confined people.

The interviewed staff who perform PREA Screenings reported that when a confined person has experienced prior sexual victimization whether in an institutional setting or in the community, they offer a follow-up meeting with medical or mental health staff. The confined people may choose to refuse. If the confined person wants to have a follow-up with mental health or medical, the staff makes the referral.

Six confined people were interviewed by the auditor's assistant who disclosed prior sexual victimization during risk screening. They were asked, when you told someone at the facility that you were sexually abuse, did he or she ask if you wanted to meet

with a medical or mental health care practitioner? One said they were asked but refused the help that was offered since it was so long ago. Two said he was offered MH/MD service after disclosure. Two said they was not offer services. One said he was sent here because of a PREA incident at another facility, but he was not offered MH/ MD at this facility. Offender states his biggest complaint is that there has been no follow up treatment for his previous PREA incident. At the time interview the offender is requesting counseling. Offender further states he is being told it will take up to two years for a disposition.

The PREA auditor following up with the confined person interview concerns and reporting the following:

The inmate was transferred to Turbeville CI on 1/23/2024 for a PREA incident that occurred at Broad River CI. The inmate reported on the PREA kiosk informing A/W about the alleged incident that occurred while he was housed at BRCI. The inmate was called up to be interviewed, and during this interview is when inmate disclosed, he did not have PREA concerns since he's been at TCI, however; he informed the facility of the alleged incident that happened at BRCI. The inmate stated he filed this request on the kiosk because he wanted the PCM to provide him with information/ status on the incident that occurred at BRCI. AW informed the offender that she would call and speak with the PCM at BRCI and see if a case was started. After AW spoke with the PCM at the institution he was informed that a case was started and forwarded to OIG. A/W informed the offender that he nor the PCM at BRIC could provide him with any information. OIG is handling the case and they would let him know something. However, A/W told the offender that she could not give him a precise answer on when this could happen. A/W offered counseling services from the trauma center (Pathways to Healing). Inmate accepted the services. A request to Pathway to Healing was sent to the inmate to set up counseling. The inmate had a session on April 1, 2024, and when he could not gain any information concerning his status of the case, he became rude, combative, disrespectful and started using profanities toward the Pathway to Healing advocate. The inmate started refusing to go to his sessions.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.81 (b)

The provision requires that if the screening pursuant to standard 115.41 indicates that a confined person has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the confined person is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening.

Compliance Determination:

The facility has demonstrated compliance with the provision of the standard because:

The interviewed staff who perform PREA Screenings reported that they do not obtain informed consent from confined person under the age of 18 because they are not house at this facility. However, other confined people received this information at intake within 14 days.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

The provision requires that any information related to sexual victimization or abusiveness that occurred in an institutional setting be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Agency/facility provides that medical and mental health practitioners obtain informed consent from confined people before reporting information about prior sexual victimization that did not occur in an institutional setting unless the confined person

is under the age of 18. The facility has created the informed consent form to document this type of situation.

Compliance Determination by Provisions and Corrective Actions:

115.82 (a)

The provision requires that confined persons victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - - 8. Medical and Mental Health Care Section 8.3: Pursuant to South Carolina State Law and SCDC Policies HS-18.09, Institutional Health Care Authority and Responsibilities, SCDC Policy HS-18.13, Health Screenings and Exams, and SCDC Policy GA-06.11, Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment, all inmate who are victims of sexual abuse will have unimpeded access to emergency medical treatment, crisis intervention services, emergency contraception and sexually transmitted injection prophylaxis without financial cost to the confined persons.

The agency/facility mandates the victim receives timely and unimpeded access to emergency medical treatment, crisis intervention services and advocacy services. The victim would be transported to the local hospital for a forensic examination, at no cost to the victim. Interviews revealed the mental health services are determined according to the professional judgement of the practitioner. Confined people are informed of medical services during intake and sign acknowledgement statements indicating key information reviewed in the education session which includes

treatment services. The confined people have access to medical request forms.

Interviewed staff who conducts medical services, "Do confined persons victims of sexual abuse receive timely and unimpeded access to emergency medical treatment and crisis intervention services?" Yes, in accordance with SCDC policy all confined persons who are victims of sexual abuse will have unimpeded access to emergency medical treatment. This process happens within 24 hours of receiving the report.

Interviewed medical staff indicated that confined person victims of sexual abuse receive immediate, timely and unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of these services are determined according to their professional judgement.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.82 (b)

The provision requires that if no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, security staff first responders shall take preliminary steps to protect the victim pursuant to standard 115.62 and shall immediately notify the appropriate medical and mental health practitioners.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed non-security staff reported describe the actions he take as a first responder to an allegation of sexual abuse would be to separate the alleged victim and abuser; preserve and protect the crime scene until for the collection of any evidence; do not let the alleged victim not take actions that could destroy physical evidence like washing, brushing teeth, changing clothes, urinating, defecating, smoke, drinking, or eating; ensuring that the alleged abuser does not take any actions that could destroy evidence; and immediately notifying medical and supervisor.

Corrective Actions:

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.82 (C)

The provision requires that confined persons victims of sexual abuse while incarcerated are offered timely information about and timely access to emergency

contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Information conversation with nurse while visiting the medical area confirmed processes and services are in place for a victim to receive timely access to sexually transmitted infection prophylaxis, where medically appropriate. Additionally, follow-up services as needed are provided by the facility's medical and mental health staff. It was also indicated that the local hospital may give and share the sexually transmitted infection with the confined persons as well.

Interviewed staff who conduct medical services reported that victims of sexual abuse are offered timely information about access to emergency contraception and sexually transmitted infection or prophylaxis. When a confined person returns from outside.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.82 (d)

The provision requires that treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed medical staff who conducts medical services were asked, "Are the medical and mental services offered consistent with community level of care?" Staff reported that the services provided by the facility are consistent with community level of care or better because the confined people have access to the services. These services are provided at no cost to confined people.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Contact: The Pathway to Healing 3830 Forest Drive -Suite 201, Columbia, SC 29204

During the meeting the Executive Director reported that there have been no SAFE or SANE referrals for the past 12 months. There were confined people that received services within the past 12 months, however, they would and could not share any information. Pathway to Healing confirmed that confined person could contact them for emotional support services through the facility toll free PREA line *63. Most of the services provided are coping skills, listening to confined people who want someone to talk to about their abuse.

Corrective Actions:

Compliance Determination by Provisions and Corrective Actions:

115.86 (a)

The provision requires that the facility conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 9. Data Collection and Review Section 9.2: All SCDC institutional Sexual Abuse Response Teams (SART) will conduct a sexual abuse incident review within thirty (30) days of receiving a substantiated or unsubstantiated investigative report of an allegation of sexual abuse or sexual harassment to determine if changes are necessary and determine the possible cause of the incident. The incident review, and its findings, will be documented on SCDC Form 19-183, PREA Incident Review, and filed with the institution's PREA Compliance Manager and the Agency's PREA Coordinator. All recommended changes to policy, procedures and/or practices will be documented on the SCDC Form 19-183, PREA Incident Review, and submitted to the policy authority for implementation, unless otherwise directed, which will also be documented on SCDC Form 19-183.

Based on a review of information the facility provided in the PAQ, the past 12 months, the number of criminal and / or administrative investigations of alleged sexual abuse completed at the facility, excluding only "unfounded" incidents was 17.

A review of the investigation files confirmed that the facility has a system in place to conduct PREA Incident Review Team meetings. The PREA Incident Review Team meetings are documented on SCDC Form 19-183. The report information includes PREA Case Log Number; Investigative Case Number; Date of Incident; Date Report Received; Date Investigation Concluded; Date of Incident Review. Type of Investigation; Investigation Outcome. Section C of the report – Review Information: There are six (4) areas that the team addresses that covers the requirements of this provision. The Incident Review Meeting Attendees/Reviewers. The agency attorney is present during the meeting by phone. If the attorney provides legal advice the facility checks a box. Of the 13 investigation files reviewed, four had a PREA Incident Review Meeting form. Note: raw evidence is uploaded in standard 22 (a) in each confined person individual investigation file.

An interview with the Agency Attorney confirmed that she is a part of the sexual abuse Incident Review Team at each of the SCDC facilities and she participates in all conference calls.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and

informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.86 (b)

The provision requires that such a review ordinarily occurs within 30 days of the conclusion of the investigation.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA), 9. Data Collection and Review Section 9.2: All SCDC institutional Sexual Abuse Response Teams (SART) will conduct a sexual abuse incident review within thirty (30) days of receiving a substantiated or unsubstantiated investigative report of an allegation of sexual abuse or sexual harassment to determine if changes are necessary and determine the possible cause of the incident. The incident review, and its findings, will be documented on SCDC Form 19-183, PREA Incident Review, and filed with the institution's PREA Compliance Manager and the Agency's PREA Coordinator. All recommended changes to policy, procedures and/or practices will be documented on the SCDC Form 19-183, PREA Incident Review, and submitted to the policy authority for implementation, unless otherwise directed, which will also be documented on SCDC Form 19-183.

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment - 3. Response: 3.5. Incident Review and Corrective Action: Following an investigation into an allegation of sexual abuse, the institution's PCM will ensure an incident review is conducted within thirty (30) calendar days following the PCM receiving OIG's written investigative report, or upon the PCM's completion of an administrative investigation and completing SCDC Form 19-188, "PCM Report of Findings."

Based on a review of information the facility provided in the PAQ, in the past 12 months the number of criminal and or administrative investigations of alleged sexual abuse completed at the facility that were followed by a sexual abuse incident review within 30 days, excluding only "unfounded" incidents was 4.

The auditor reviewed 4 of the PREA Incident Review Team Forms, they all were within 30 days.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.86 (c)

The provision requires that the review team includes upper-level management

officials, with input from line supervisors, investigators, and medical or mental health practitioners.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment: 3. Response section: 3.5.2 Incident Review will be conducted in coordination with the Acting Agency's PREA Coordinator's and General Counsel's Office.

The interviewed warden reported that the facility has a sexual abuse incident review team. The upper-level management officials and input from the supervisors, investigators, medical and mental health staff, PREA compliance manager and the agency attorney. This information is from the team meeting and is used for identifying any policy, training, or other related issues that indicate a need for changes.

The interview with the Agency Attorney confirmed that the facility Review Team includes upper management officials from the facility, with input from line supervisors, investigators, medical and mental health staff. She also indicated that sometimes there are more staff members on the call.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.86 (d)

The provision requires that the review team shall: Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse. Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian; gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise cause by other group dynamics at the facility. Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse. Assess the adequacy of staffing levels in that area during different shifts. Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and prepare a report of its findings, including but not necessarily limited to determinations made pursuant to paragraphs (d) of this section, and any recommendations for improvement and submit such a report to the facility head and PREA compliance manager.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The interviewed warden reported that the facility has a sexual abuse incident review team. The upper-level management officials and input from the supervisors,

investigators, medical and mental health staff, PREA compliance manager and the agency attorney. This information is from the team meeting and is used for identifying any policy, training, or other related issues that indicate a need for changes.

Interviewed warden reported that the review team consider whether the incident or allegation was motivated by race, ethnicity, gender identity, lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status, gang affiliation. Examine areas in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse. Review staffing level and monitoring technology should be deployed.

Interviewed facility PREA compliance manager reported that the facility prepares a report of findings from the review, to include any determinations per standard 115.86 (d-1 through 5) and any recommendations for improvements. Then the reports are reviewed by the PREA compliance manager. The Final report is submitted to the warden for approval for any actions.

Interview with the Agency Attorney confirmed that the Incident Review Team considers whether the allegation or investigation indicates a need to change policies and procedures, or facility practices to better prevent, detect, or respond to sexual abuse. They consider race, ethnicity, gender identity, LGBTI identification, as well as gang activity.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.86 (e)

The provision requires that the facility implement recommendations for improvement or document its reasons for not doing so.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy GA-06.11 Prevention, Detection, and Response to Sexual Abuse/Sexual Harassment - 3. Response section: 3.5.3 Incident Reviews will be documented on SCDC Form 19-183, "PREA Incident Reviews". Completed forms will be filled as directed by the Acting Agency's PREA Coordinator's office.

Facility implements recommendations for improvement or document its reasons for not doing so. The upper-management team is familiar with this practice. The facility has a form they use to document incident reviews; it allows for documentation of the considerations of the standard. The form and meeting provide recommendations for improvement by the team members. This information is compiled and published in the SCDC Annual PREA Report.

According to the SCDC 2022 Annual Report, in calendar year 2023, to ensure SCDC continues its path to full compliance with PREA, the Office of Legal and Compliance and PREA Coordinator's Office, in coordination with institutions PREA compliance Managers, have implemented several corrective actions to address issues for 2022.

- Video Monitoring: SCDC continues to purchase additional cameras and mirrors to improve sexual safety in institutions with grant funds.
- Documentation: SCDC continually reviews and adjusts documentation and procedures to better capture information and data to streamline investigational processes.
- Physical Plant: Due to the age of the buildings, several institutions require repairs and upgrades. The PREA Coordinator's Office is collaborating with Facilities Maintenance to address concerns raised by PREA auditors.
- Screening for Risk of Sexual Victimization and Abusiveness: SCED continues to improve its initial and 30-day reassessment processes for PREA Risk Screening. In addition, the PREA Office has corroborated with other divisions and the Resource and Information Management Team to purchase an electronic multifunctional database to better manage cases and systems soon.
- Inmate Education: SCDC is creating a digital orientation video that includes a pre-recorded inmate peer-led inmate education video that will ensure timely receipt of PREA information to the population. Classification staff will answer any questions inmates have and assist with the presentation process.
- Training: SCDC continues to provide relevant updates SCDC annual PREA training to all staff.

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

This standard is rated excellent. The facility has gone above and beyond this standard, in addition to meeting the requirements of the sexual abuse incident review team. The agency ensures the mandatory inclusion of the Agency legal staff to be present at each of the incident reviews, SCDC intends to ensure that every case is reviewed for both practicality and legal aspects that are in the best interest of the confined people and staff of the facility. The process: following the conclusion of each sexual abuse case, the closing documents are sent to Division Directors, Regional Directors, Wardens, and the Agency PREA Coordinator's Office where it is reviewed. After careful review, the PREA Coordinator's Office corresponds with the facility PREA Compliance Manager and SCDC's Office of General Counsel to schedule an Incident Review with an SCDC attorney. All SCDC attorneys are certified by the SC Bar Association to practice law in the State of South Carolina. Once an incident review is scheduled, the incident review is then conducted by the facility PMC and the Facility's management team with a representative attorney listening to the meeting. The

115.87 (c).

The provision requires that the incident-based data collected include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Statistics (BJS) is tasked with annual data collection responsibilities under PREA. The agency has collected the required data using the Survey of Sexual Violence (SSV) including administrative data reported to the agency.

The SCDC website listed a links of SSV reports from 2006 through 2022 submitted to BJS. The agency PREA coordinator provided the auditor with the latest copy of the SSV Report.

Compliance Determination by Provisions and Corrective Actions:

115.88 (a)

The provision requires that the agency review data collected and aggregated pursuant to standard 115.87 to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including: Identifying problem areas. Taking corrective action on an ongoing basis; and preparing an annual report of its findings and corrective actions for each facility, as well as the agency.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) – 10. Data Tracking and Reporting, Section 10.2: Consistent with National PREA standards, SCDC will collect data that will assist SCDC in reducing the risk of sexual abuse and/or sexual activity within SCDC institutions. SCDC will compile the information that relates to the prevalence of sexual abuse and/or sexual activity within the institutions, including circumstances that contribute to this kind of behavior, to provide insight into potential strategies for its reduction or elimination.

The agency requires data for corrective action to improve the effectiveness of its prevention, protection and response policies, practices, and training. The 2022 and 2023 Annual Reports and the CoreCivic reports are posted on the agency website. This annual report is posted on the website for public review.

A review of the SCDC 2022 Annual Report, in calendar year 2023, SCDC received 391 reported allegations of sexual abuse/sexual harassment. The SCDC office of Inspector General (OIG) investigated 28% of the allegations of sexual abuse/sexual harassment for criminal intent. Seventy-two percent of the allegations were investigated by institutional investigators. Thirty percent of reports were allegations of confined persons-on-confined persons abuse, and 27% were allegations of staff-on-confined people’s abuse. Of the 391 allegations, 5% of the allegations were substantiated,

46% were unsubstantiated, 45% were unfounded, and 4% of the cases are ongoing.

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee was asked, "How do you use incident-based sexual abuse data to assess and improve sexual abuse prevention, detection, and response policies, practices, and training?" The agency reviewed incident-based information relating to sexual abuse to analyze locations of abuse, the frequency with which offenders may be identified as a perpetrator or victim, patterns within certain institutions, and the times and days of abuse. The information is used to determine locations for electronic surveillance equipment, facility renovation needs, staffing allocations within institutions, institutional training, and the need to take protective measures for specific confined persons.

Interviewed agency Acting PREA Coordinator reported his office collects, review data and aggregated the data based on standard 115.87 to assess and improve the effectiveness of the sexual abuse prevention, detection, and response policies, and training. This data is collected from all SCDC facilities. The collected data is securely retained in a computerized system with passwords.

The interviewed agency Acting PREA Coordinator reported that the agency takes corrective action on an ongoing basis. The PREA Office also prepares an annual report of findings from the collected data review and any corrective actions for each facility.

Conversation with the PREA compliance manager reported that the facility through the agency reviews data collected and aggregated to assess and improve the effectiveness of its sexual abuse prevention, detection and response policies and training, what role does the facility and facility data play in the reviews. The facility PREA Compliance Manager also indicated that the facility would submit facility data to the agency PREA coordinator who will collect data from all institutions. The data will be aggregated into an annual report with corrective actions. The agency PREA coordinator holds semi-annual meetings to discuss the data with division heads.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.88 (b)

The provision requires that such a report includes a comparison of the current year's data and corrective actions with those from prior years and should provide an assessment of the agency's progress in addressing sexual abuse.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

A review of the SCDC 2022 Annual Report, in calendar year 2023, SCDC received 391 reported allegations of sexual abuse/sexual harassment. The SCDC office of Inspector

General (OIG) investigated 28% of the allegations of sexual abuse/sexual harassment for criminal intent. Seventy-two percent of the allegations were investigated by institutional investigators. Thirty percent of reports were allegations of confined persons-on-confined persons abuse, and 27% were allegations of staff-on-confined people's abuse. Of the 391 allegations, 5% of the allegations were substantiated, 46% were unsubstantiated, 45% were unfounded, and 4% of the cases are ongoing.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.88 (c)

The provision requires that the agency's report be approved by the agency heard and made readily available to the public through its website or, if it does not have one, through other means.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed Deputy Director of Legal and Compliance/Agency Head Designee was asked, "Do you approve the PREA annual reports written?" The Deputy Director of Legal and Compliance and the Director of the South Carolina Department of Corrections review and approve written PREA annual reports. The annual reports are available on the agency website.

The Annual PREA Report (2023) was approved by the Agency Heard and the Chief Legal & Compliance Officer in September 2022 and posted on the agency website.

Note: Signatures on File.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.88 (d)

The provision requires that the agency may redact specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility but must indicate the nature of the material redacted.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

Interviewed agency Acting PREA coordinator was asked, "What types of material are typically redacted from the annual reports? Does the agency indicate the nature of

	<p>material redacted?” Yes, personal identifying information (PII) is redacted. The annual report does not include personal identifying information like facility staff names, confined person’s names or ID numbers, etc.</p> <p>A review of the Annual PREA Report (2023), the agency redacts specific material from the report that would present a threat to the safety and security of each facility. The provision requires that the agency ensure that data collected pursuant to standard 115.87 is securely retained.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 10. Data Tracking and Reporting Section 10.3: SCDC will maintain data collected in accordance the National PREA standards and with SCDC Policy OP-21.10, Agency Records Management." SCDC's PREA Coordinator will ensure that data collected pursuant to the PREA standards are securely retained for at least ten (10) years after the date of the initial collection.

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 10. Data tracking and Reporting Section 10.4: Agency, through the PREA Coordinator, will retain all investigative written reports regarding sexual abuse/sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five (5) years.

Interviewed agency Acting PREA Coordinator reported his office collects, review data and aggregated the data based on standard 115.87 to assess and improve the effectiveness of the sexual abuse prevention, detection, and response policies, and training. This data is collected from all SCDC facilities. The collected data is securely retained in a computerized system with passwords.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.89 (b)

The provision requires that the agency make all aggregated sexual abuse data, from facilities under its direct control and private facilities with which it contracts, readily available to the public at least annually through its website or, if it does not have one, through other means.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

SCDC Policy: GA-06.11B, Applying the Prison Rape Elimination Act (PREA) - 10. Data tracking and Reporting Section 10.5: SCDC will publish a yearly report, approved by the Agency Director, all aggregated sexual abuse data in accordance with the National PREA Standards. This annual report will include all findings and corrective actions for each institution as well as the Agency as a whole. Additionally, the annual report will include a comparison of the current year's data and corrective actions with those from prior years and shall provide an assessment of the agency's progress in

addressing sexual abuse. This report will be made public through the agency's public website.

The auditor reviews the 2022 PREA Annual Report. The report provides a review of the incident-based and aggregated data for calendar year and a comparison of aggregated data for past calendar years. The report provides corrective actions developed to further reduce sexual abuse and sexual harassment.

The auditor reviews the Annual PREA Report Addendum dated September 16, 2021, stating that the SCDC (private facility) contract with Core Civic for the housing of certain SCDC confined persons in confinement. Core Civic must also comply with the Federal PREA Standards. The Core Civic Safety - Tallahatchie County Correctional Facility.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.89 (c)

The provision requires that before making aggregated sexual abuse data publicly available, the agency shall remove all personal identifiers.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The informational conversation with the agency PREA coordinator and review of the Annual Report indicated that all personal identifiers were removed.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.89 (d)

The provision requires that the agency maintain sexual abuse data collected pursuant to 115.87 for at least 10 years after the date of the initial collection unless Federal, State, or local law requires otherwise.

Compliance Determination:

The facility has demonstrated compliance with this standard because:

SCDC Policy: HS-18.07 Inmates Health Records section 10 - Inactive health records will be maintained by the Central HIR office in hard copy form for 25 years or on microfilm and/or on electronic media for 99 years.

	<p>Informational discussions with staff indicated that the record retention standard is determined in state statutes and would require the legislature to make a change to the state law. The provision requires that during the three-year period starting on August 20, 2013, and during each three-year period thereafter, the agency shall ensure that each facility operated by the agency, or a private organization on behalf of the agency, is audited at least once.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The auditor confirmed that during the three-year period and each three-year period thereafter, the agency ensures that each facility operated by the agency, or a private organization on behalf of the agency is audited. A review of the agency website PREA section listed all final PREA audits to include private facility.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.401 (b)

The provision requires that during each one-year period starting on August 20, 2013, the agency shall ensure that at least one third of each facility type operated by the agency, or by a private organization on behalf of the agency, is audited.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The auditor confirmed during each one-year period the agency ensured that at least one third of each facility type operated by the agency, or by a private organization on behalf of the agency is audited. The auditor reviews the agency website, and the Final Audit Reports are listed by audit cycles.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.401 (h)

The provision requires that the auditor has access to, and shall observe, all areas of the audited facilities.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

On the first day of the audit after the entrance conference, the auditor conducted a comprehensive site review of the facility. It was requested that when the auditor pauses to speak to a confined person or staff, that staff on the site review please step away so the informal conversation might remain private. This request was well respected.

During the site review, the auditor reviewed PREA related documentation and materials located on bulletin boards and walls. The auditor observed camera surveillance, physical supervision, and electronic monitoring capabilities. Other areas of focus during the tour included, but were not limited to, levels of staff supervision, and limits to cross-gender viewing. Housing units, medical area, visitation, intake area, gatehouse, administrative areas, mail room. Kitchen, dining, storage, work areas were toured. During the site review that facility gives full access to the auditor.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.401 (i)

The provision requires that the auditor be permitted to request and receive copies of any relevant documents (including electronically stored information).

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

The Acting PREA Coordinator and the facility provided the auditor with all relevant documents to include electronically stored information through the agency system.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.401 (m)

The provision requires that the auditor be permitted to conduct private interviews with confined people.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

During the pre-audit period, the facility received instructions to post the required

PREA Audit Notice of the upcoming audit prior to the on-site visit for confidential communications. The facility posted the notices in English and Spanish. The auditor received email and pictures confirming the posted notices and observed the posted notices on-site.

During the onsite visit the auditor requested and received areas to interview confined persons in private.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

115.401 (n)

The provision requires that confined people be permitted to send confidential information or correspondence to the auditor in the same manner as if they were communicating with legal counsel.

Compliance Determination:

The facility has demonstrated compliance with this provision of the standard because:

During the pre-audit period, the facility received instructions to post the required PREA Audit Notice of the upcoming audit prior to the on-site visit for confidential communications. The facility posted the notices in English and Spanish. The auditor received email and pictures confirming the posted notices and observed the posted notices on-site.

There were no confidential communications from confined people and none from staff. Staff interviews indicated that confined people are permitted to send confidential information or correspondence in the same manner as if they were communicating with legal counsel.

Corrective Actions:

N/A. There are no corrective actions for this provision.

A review of the appropriate documents to include the facility PAQ, interviews and informal conversations with staff, confined people, and a review of relevant policies corroborate that the facility is complying with the provisions of this standard.

Overall Findings:

The auditor uses a triangulation approach by connecting PREA documentation, policies, on-site observation, site review of the facility, facility practices, interviewed staff and confined persons, local advocates, and online PREA Audit: Pre-Audit Questionnaire to corroborate findings determinations. Based on analysis, the facility is compliant with all provisions in this standard.
